Basic Information

- Place of Origin: China
- Brand Name: HANYUE
- Certification: CE/FCC/ Rohs /FDA
- Model Number: HY-10
- Minimum Order Quantity: 60pcs
- Price: 5USD ~ 15USD
- Packaging Details: OPP packing, 30PCS /Carton
- Delivery Time: 5-8 Working days
- Payment Terms: D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000pcs

Product Specification

- Product Name: Blood Pressure Monitor
- Power Supply: 4 AAA Batteries 1.5V
- Measurable Arm Circumference: 22cm-32cm
- Instrument Classification: Class II
- Color: White,Black,Customized
- Application: Medical Healthcare, Adult, Families And Adult, Hospital
- Material: ABS,Nylon/PVC,Anodized Aluminum/zinc,Plastic,Nylon/ABS
- Display: Digital Liquid Crystal Display
- Usage: Measure Blood Pressure
- Sample: Available
- Highlight: **Medical Blood Pressure Monitors, Hypertension Blood Pressure Monitors**

Product Description

Blood Pressure Monitors Is The Must-Have Device For Managing Hypertension During The Pandemic

Blood pressure monitors are indeed an essential device for managing hypertension, especially during the pandemic. With the ongoing pandemic, many people are staying at home, and access to healthcare facilities may be limited. As a result, monitoring one's blood pressure at home can be a useful tool in managing hypertension and preventing complications.

Hypertension, or high blood pressure, is a common condition that affects many people worldwide. It is often called the "silent killer" because it has no obvious symptoms but can lead to serious complications such as heart disease, stroke, and kidney failure. Regular monitoring of blood pressure is essential for people with hypertension to manage their condition effectively. Blood pressure monitors are easy to use and can provide accurate readings in the comfort of one's home. They are available in various types, including manual, digital, and wrist monitors, and can be purchased online or at local pharmacies.

*Why And When Do You Need To Choose An Upper Arm Blood Pressure Monitor ?

1, For the Elder people whose vascular wall has poor flexibility. In this case, wrist blood pressure's result may be lower than the real. Because the wrist is the nerve endings, hypertensive patients may be complicated by arterial stenosis, blood clots and other vascular diseases, so the elderly use an Arm Blood Pressure Monitor th is more accurate than Wrist Blood Pressure Monitor!

2, Wrist blood pressure monitor is also accurate, but it is more suitable for young people, working people, travelling, gift. Because it is easy to carry.

What's in the box
