

## 5l/min Medical Oxygen Concentrators Provide Lifesaving Support For COVID-19 Patients

Our Product Introduction

for more products please visit us on [oxygenconcentratormedical.com](http://oxygenconcentratormedical.com)

### Basic Information

- Place of Origin: China
- Brand Name: Sunshine Medical
- Certification: CE,ISO13485,SGS ,FCC,RoHs
- Model Number: 5BW
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: OPP packing ,1pcs per Carton. Carton size:540\*370\*695mm,Gross Weight:21kgs.
- Delivery Time: 7-10 Working days
- Payment Terms: T/T, Western Union
- Supply Ability: 1000pcs

### Product Specification

- Product Name: Medical Oxygen Concentrator
- Function: Oxygen Generator With Nebulizer
- After Sale Service: Online Technical Support
- Warranty: One Years
- Power: ≤400VA
- Operating Noise: ≤52dB(A)
- Highlight: 5l/min Medical Oxygen Concentrators, COVID 19 Medical Oxygen Concentrators

## Medical Oxygen Concentrators Provide Lifesaving Support For COVID-19 Patients

Room D, 7th Floor, Guang Long Building, 162 Ping Xin North Road, PingHu Street, LongGang District, ShenZhen

Medical oxygen concentrators have been a lifesaving support for COVID-19 patients, particularly those experiencing severe respiratory symptoms. COVID-19 is a respiratory illness caused by the SARS-CoV-2 virus, and it can lead to severe respiratory distress, including low oxygen levels in the blood. Medical oxygen concentrators can provide a reliable and continuous source of oxygen to these patients, helping them breathe more easily and improving their oxygen saturation levels.

During the COVID-19 pandemic, medical oxygen concentrators have been in high demand, particularly in countries with limited healthcare resources. However, it's important to note that medical oxygen concentrators are not a substitute for medical care, and patients with severe respiratory symptoms should seek medical attention immediately. COVID-19 is a serious illness that requires prompt and appropriate medical care, including oxygen therapy when needed.
