Product Description

APOWUS Nebulizer: Portable, Quiet & Efficient Relief for Breathing Problems

The APOWUS Nebulizer is a portable medical device designed to provide relief for breathing problems. It utilizes nebulization technology to convert liquid medication into a fine mist that can be inhaled easily into the lungs. This mist allows the medication to directly target the respiratory system, making it an effective treatment option for conditions such as asthma, chronic obstructive pulmonary disease (COPD), and other respiratory ailments.

Portable, Quiet, Efficient & Reliable

The APOWUS Nebulizer is designed to be compact and lightweight, making it easy to carry and use on the go. It is suitable for both adults and children, enabling individuals to maintain their treatment regimen regardless of their location.

FOR TRAVELLING AND HOUSEHOLD USE

Why are you choose Our nebulizer?

The APOWUS Nebulizer is designed to deliver medication efficiently to the lungs. Its nebulization technology ensures that the medication is transformed into a fine mist, allowing for deeper penetration into the respiratory system. This can result in more effective and faster relief from breathing difficulties.

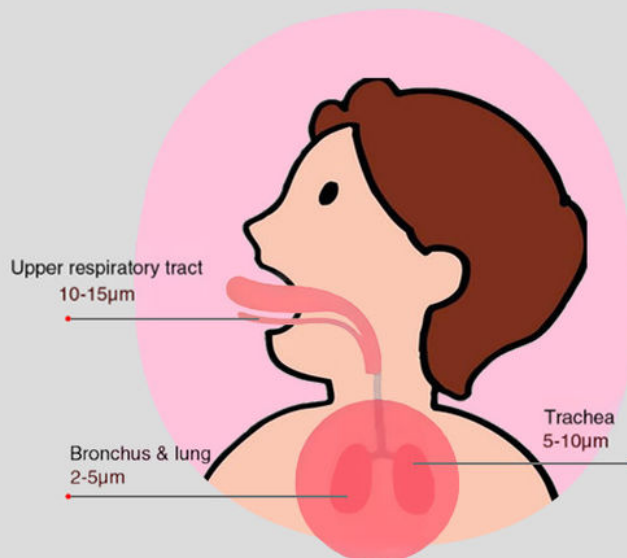

Micron Atomization

Micron atomized particles make the atomization process as natural as breathing. Direct to the respiratory tract, trachea, alveolus, and lower respiratory tract afflicted part, liquid is more easily absorbed.

Spray Absorbs Easily

Cold laser technology is used to punch, atomized hole about 1-3 μm
