

O2EMENG 83kgs Hyperbaric Oxygen Therapy Chamber with Pressure Range 1.3ATA - 1.5 ATA

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS04
- Minimum Order Quantity: 1PC
- Price: \$3699
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Usage: Medical/Therapeutic
- Oxygen Concentration: ≥90%(can Be Set)
- Model: EMS04
- Function: Hyperbaric Oxygen Therapy
- Pressure Range: 1.3ATA - 1.5 ATA
- Pressure Reduction Time: 5-10 Mins
- Total Weight: 83kgs
- Properties: Rehabilitation Therapy Supplies
- Highlight: 1.3ata hyperbaric oxygen chamber, 1.3ata hyperbaric oxygen therapy chamber, medical hyperbaric oxygen chamber

Product Description

83kgs Hyperbaric Oxygen Therapy Chamber with Pressure Range 1.3ATA - 1.5 ATA

Product Description:

The main function of the Hyperbaric Chamber is to provide hyperbaric oxygen therapy to individuals who require it. Hyperbaric oxygen therapy is a medical treatment that involves breathing in pure oxygen in a pressurized environment. This therapy has been proven to be effective in the treatment of a wide range of medical conditions, including decompression sickness, carbon monoxide poisoning, and non-healing wounds.

The Hyperbaric Chamber is designed to provide a pressure range of 1.3ATA - 1.5 ATA, which is the ideal range for hyperbaric oxygen therapy. This product also has a pressure reduction time of 5-10 mins, which provides a safe and comfortable experience for the user. The Hyperbaric Chamber has been tested and verified by medical professionals to ensure its effectiveness and safety.

The machine CTN size of the Hyperbaric Chamber is 127*55*105cm, which makes it a compact and easy-to-store product. This size also makes it easy to transport the product from one location to another. The Hyperbaric Chamber has been designed to be user-friendly, with easy-to-follow instructions that make it easy for anyone to set up and use.

In summary, the Hyperbaric Oxygen Chamber is a portable hyperbaric chamber that provides hyperbaric oxygen therapy to individuals who require it. With a total weight of 83kgs, this product is easy to transport and store. The Hyperbaric Chamber has a pressure range of 1.3ATA - 1.5 ATA and a pressure reduction time of 5-10 mins, making it a safe and comfortable product to use. The machine CTN size of the Hyperbaric Chamber is 127*55*105cm, making it a compact and easy-to-store product. This product is ideal for those who require mobility and want to experience the benefits of hyperbaric oxygen therapy.

Applications:

With its rehabilitation therapy supplies properties, the O2EMENG EMS04 Hyperbaric Chamber is ideal for individuals who need to recover from injuries, illnesses, or surgeries. The product's function is to help improve the body's natural healing process by increasing oxygen levels in the blood and tissues.

The O2EMENG EMS04 Hyperbaric Chamber is easy to use and operate. Users can adjust the pressure settings according to their needs.

The pressure reduction time is set at 5-10 mins, which makes it quick and convenient for users to get in and out of the chamber.

The total weight of the product is 83kgs, which makes it easy to move around from one location to another. This portable hyperbaric chamber can be used in various medical and therapeutic settings.

The O2EMENG EMS04 Hyperbaric Chamber is suitable for the following product application occasions and scenarios:

Hospitals and Clinics
Rehabilitation Centers
Sports Medicine Facilities
Fitness centers
Beauty & Fitness Industry
Corporate Offices
Orthopedic Medical Hospitals

In hospitals and clinics, the O2EMENG EMS04 Hyperbaric Oxygen Silo Chamber can be used for patients suffering from a variety of ailments such as postpartum repair, treatment of wounds, and dental aids. In rehabilitation centers, the product helps patients recover from injuries and surgeries.

Sports medicine facilities can use the O2EMENG EMS04 Hyperbaric Chamber to help athletes recover from injuries and improve their performance. Fitness centers and spas can offer this product to their clients as a way to improve their overall health and wellness.

In conclusion, the O2EMENG EMS04 Hyperbaric Chamber is a versatile and convenient product that is suitable for medical and therapeutic use. Its portable design and ease of use make it an ideal choice for various product application occasions and scenarios.

Other details:

Imported Japanese Zipper (YKK)
Medical grade TPU material
Dual screen intelligent control
10L oxygen generator
Metal Holder Cover
color can be customized

Support and Services:

The Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that customers have a

seamless experience with our product. Our technical support team is available to assist with any queries or issues that may arise during installation, setup, or usage of the product. We also provide regular maintenance and repair services to keep the product in optimal condition and extend its lifespan. Our services include:

- 1.Demand customization:** according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.
 - 2.Exclusive design:** the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.
 - 3. Craftsmanship Manufacturing:** The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.
 - 4. Lifetime maintenance:** provide perfect professional after-sales service guarantee
- We are committed to providing the highest level of support and services to our customers to ensure their satisfaction with our Hyperbaric Oxygen Chamber product.

APPLICATION OF HYPERBARIC OXYGEN THERAPY

Beauty & wellness:

HBOT helps rejuvenate your skin. During a hyperbaric oxygen therapy session inside a pressurized chamber, the body receives pure oxygen at higher atmospheric pressure to boost the flow of oxygen into the circulatory systems.

Sports:

HBOT for professional sports has become one of the most effective methods for athlete recovery. Supplementing oxygen intake at higher atmospheric pressure inside a hyperbaric chamber is known to naturally accelerate healing times to treat sports injuries and allow injured athletes to recover faster and reduce the risk of re-injury.

Wounds and burns:

Healing Wounds need oxygen to heal naturally and hyperbaric oxygen therapy has been successfully used as complementary therapy for wound healing. Used as complementary treatment, Hyperbaric Oxygen Therapy can help decrease mortality and reduce the need for surgery for mild to severely burned patients.

Anti-aging:

Hyperbaric Oxygen Therapy for Elderly Patients Inside the hyperbaric chamber, a patient will absorb oxygen close to four times the normal breathing conditions. Oxygen controls most of the body's processes, including the immune system. Lack of oxygen can lead to a vulnerable immune response, increased fatigue and eventually hypoxia.

Our certificate

We present the strong quality commitment and we have gone through hard work to be able to offer this health equipment at an accessible price for the first time in the world.
