

Therapeutic Hyperbaric Oxygen Chamber 1.3ATA High Pressure Chamber Treatment

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS05
- Minimum Order Quantity: 1PC
- Price: \$5150
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Noise Level: Less Than 63 DB
- Properties: Rehabilitation Therapy Supplies
- Usage: Medical/Therapeutic
- Total Weight: 83kgs
- Working Pressure: 1.3ATA
- Machine CTN Size: 127*55*105cm
- Oxygen Concentration: $\geq 90\%$ (can Be Set)
- Pressure Reduction Time: 5-10Mins
- Highlight: High Pressure Hyperbaric Oxygen Chamber, FDA Hyperbaric Oxygen Chamber, 1.3ATA High Pressure Chamber Treatment

Product Description

O2EMENG 1.3ATA Hyperbaric Chamber for Medical and Therapeutic Applications

Product Description:

One of the standout features of this Hyperbaric Chamber is its oxygen concentration, which can be set to a minimum of 90%. This high level of oxygen is critical for ensuring that patients receive the maximum therapeutic benefits from their treatments, and can help to speed up the healing process.

In addition to its high oxygen concentration, this Hyperbaric Chamber also boasts a working pressure of 1.3ATA. This pressure level is perfect for delivering oxygen to the body's tissues and organs, and can help to promote healing, reduce inflammation, and improve overall health.

Despite its impressive features, the Hyperbaric Chamber is surprisingly lightweight and portable, weighing in at just 83kgs. This makes it easy to transport and set up in a variety of locations, whether in a medical facility or in a patient's home.

As a Rehabilitation Therapy Supply, the Hyperbaric Chamber is an essential tool for anyone looking to improve their health and wellness. Whether you are recovering from an injury or simply looking to boost your overall wellbeing, this chamber can help you achieve your goals.

Overall, the Hyperbaric Chamber is a cutting-edge medical device that offers a range of impressive features and benefits. With its high oxygen concentration, working pressure, and lightweight design, this portable hyperbaric chamber is the perfect choice for anyone looking to improve their health and wellbeing.

Applications:

The Hyperbaric Chamber is suitable for a wide range of medical and therapeutic applications. Here are some of the occasions and scenarios where the O2EMENG EMS05 Hyperbaric Oxygen Chamber can be used:

Wound Healing: Hyperbaric Oxygen Therapy can accelerate the healing of wounds by increasing the amount of oxygen in the blood. This can reduce inflammation, promote the growth of new blood vessels, and stimulate the production of collagen.

Brain Injury: Hyperbaric Oxygen Therapy can help with brain injuries by reducing swelling and inflammation, improving blood flow to the brain, and promoting the growth of new brain cells.

Autism: Hyperbaric Oxygen Therapy has been shown to improve symptoms in children with autism by reducing inflammation in the brain and improving blood flow.

Sports Injuries: Hyperbaric Oxygen Therapy can help athletes recover from injuries by reducing inflammation, improving circulation, and promoting the growth of new tissue.

Cancer: Hyperbaric Oxygen Therapy can increase the effectiveness of radiation therapy by increasing the amount of oxygen in the cancer cells, making them more sensitive to treatment.

Chronic Fatigue Syndrome: Hyperbaric Oxygen Therapy can help relieve symptoms of chronic fatigue syndrome by reducing inflammation, improving blood flow, and increasing energy levels.

In addition to this, it can also be used to treat traumatic infections, acute soft tissue injuries, ulcers, burns, wounds, fractures and other treatments

The O2EMENG EMS05 Hyperbaric Oxygen Chamber is easy to use and can be set up in a variety of locations. It is a portable hyperbaric chamber, which means it can be transported to different locations as needed. This makes it ideal for medical clinics, hospitals, sports facilities, and even private homes.

Support and Services:

The Hyperbaric Oxygen Chamber is a medical device that delivers pure oxygen to the body under high pressure. It is used to treat a variety of conditions, including carbon monoxide poisoning, decompression sickness, and non-healing wounds. Our product is designed to be safe, reliable, and easy to use.

We offer a range of technical support and services to ensure that our customers get the most out of their Hyperbaric Oxygen Chamber. Our team of experts is available to answer any questions you may have about the product and its operation. Additionally, we offer maintenance and repair services to keep the chamber in top condition and extend its lifespan.

Our goal is to provide the highest level of customer support possible. We are committed to ensuring that our customers have a positive experience with our product and are able to achieve the best possible outcomes from their treatment.

Why choose this hyperbaric chamber?

1. Remarkable therapeutic effect

For hypoxic diseases: Hyperbaric oxygen chamber can significantly increase the oxygen content in the blood by providing a high concentration of oxygen environment, thus effectively improving a series of symptoms caused by ischemia and hypoxia. For patients with

carbon monoxide poisoning, arteriosclerosis, cerebral hemorrhage, decompression sickness, etc., hyperbaric oxygen therapy can rapidly replace carbon monoxide in the body, restore the oxygen-carrying capacity of hemoglobin, or accelerate the dissolution of nitrogen bubbles in the body, relieving the symptoms of pain and damage to the nervous system.

Promotion of rehabilitation: Hyperbaric oxygen chambers are able to accelerate the trauma repair and rehabilitation process during treatment. For example, for patients with cerebrovascular diseases, hyperbaric oxygen helps to improve blood supply to the brain and promote the recovery of neurological functions; for chronic wounds that do not heal, such as diabetic foot and bedsores, hyperbaric oxygen can promote blood circulation and accelerate wound healing. These effects are reflected in several cases, proving the important role of hyperbaric oxygen chamber in rehabilitation treatment.

2. Wide range of application

The scope of application of hyperbaric oxygen chamber is very wide, covering almost all the diseases related to hypoxia and ischemia. From acute carbon monoxide poisoning, drowning, etc., to chronic cerebrovascular disease, arteriosclerosis, etc., hyperbaric oxygen therapy can play its unique role. In addition, hyperbaric oxygen chamber is also suitable for the treatment of patients with decompression sickness, craniocerebral injury, postoperative brain tumor, etc., which can effectively improve the prognosis and quality of life of patients.
