

1500W Rated Power Hyperbaric Oxygen Chamber 900KGS Cabin Weight 28% 32% Oxygen Concentration

Our Product Introduction

For more products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMY02
- Minimum Order Quantity: 1PC
- Price: \$20699
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Cabin Size: 210*165*210CM
- Model: EMY02
- Chamber Oxygen Concentration: 28% 32%
- Noise Level: Less Than 63 DB
- Cabin Weight: 900KGS
- Function: Hyperbaric Oxygen Therapy
- Properties: Rehabilitation Therapy Supplies
- Rated Power: 1500W
- Highlight: 1500w hyperbaric oxygen chamber, 1500w oxygen hyperbaric chamber

Product Description

O2EMENG 1500W Rated Power Hyperbaric Oxygen Chamber 900KGS Cabin Weight 28% 32% Oxygen Concentration

Product Description:

The chamber oxygen concentration ranges from 28% to 32%, which is the optimal concentration range for HBOT. This concentration enhances the oxygen supply to the body's tissues, which stimulates healing and regeneration.

The Hyperbaric Oxygen Chamber is an effective way of treating a range of medical conditions, including burns, infections, wounds, and more. The chamber provides a safe, comfortable environment for the patient to receive treatment, and it is easy to use.

The noise level of the chamber is less than 63 DB, ensuring a comfortable and quiet environment for the patient. The Hyperbaric Oxygen Chamber is a reliable and effective way to provide hyperbaric oxygen treatment to patients.

The Hyperbaric Oxygen Chamber is a rehabilitation therapy supply, which means it is designed to help people recover from injuries or illnesses. This chamber provides a safe and effective way of delivering hyperbaric oxygen therapy to patients, allowing them to heal and recover faster.

If you are looking for a hyperbaric oxygen treatment chamber, the Hyperbaric Oxygen Chamber is an excellent choice. It provides a safe, reliable, and effective way of delivering hyperbaric oxygen therapy to patients.

Features:

Product Name: Hyperbaric Oxygen Chamber

Properties: Rehabilitation Therapy Supplies

Noise Level: Less Than 63 DB

Chamber Oxygen Concentration: 28% 32%

Function: Hyperbaric Oxygen Therapy

Model: EMY02

Decompression chamber for oxygen therapy

Hyperbaric pressure chamber

Technical Parameters:

Model	EMY02
Rated Power	1500W
Usage	Medical/Therapeutic
Noise Level	Less Than 63 DB
Properties	Rehabilitation Therapy Supplies
Cabin Size	210*165*210CM
Chamber Oxygen Concentration	28% 32%
Cabin Weight	900KGS
Function	Hyperbaric Oxygen Therapy

Our Advantages:

Advanced Technology Integration: The O2EMENG chamber incorporates cutting-edge features such as a smart chair with dual-screen control, an intercom system, and iPad intelligent control. This level of technological integration not only enhances user convenience but also ensures efficient operation and monitoring of the chamber environment. For individuals or facilities seeking state-of-the-art equipment for therapeutic or health monitoring purposes, O2EMENG offers a compelling choice.

Safety and Comfort Features: The chamber is equipped with several safety and comfort-enhancing features. It boasts a power outage automatic pressure relief system, a first-of-its-kind technology in China, which ensures safety during unexpected power interruptions. Additionally, the interior uses antibacterial board, promoting a hygienic environment suitable for health-related applications. These features underscore O2EMENG's commitment to user safety, comfort, and health.

Precise Environmental Control: O2EMENG provides precise control over environmental parameters critical for therapeutic effectiveness. It monitors and adjusts temperature, humidity, pressure, and oxygen concentration within optimal ranges (e.g., 28% to 32%

oxygen concentration). The chamber also allows adjustable cooling/heating temperatures, accommodating diverse user needs and preferences. This level of environmental control is crucial for achieving therapeutic outcomes in medical treatments or wellness applications.

In summary, the O2EMENG chamber stands out due to its advanced technological features, emphasis on safety and comfort, and precise environmental control capabilities. These attributes make it a suitable choice for medical facilities, wellness centers, or individuals looking for a reliable and effective hyperbaric oxygen therapy solution.

Applications:

One of the standout features of this oxygen therapy chamber is its high-powered 1500W motor, which ensures rapid compression and decompression cycles. This makes the chamber ideal for use in hospitals, clinics, and other medical settings where time is of the essence. Additionally, the EMY02 is impressively quiet, with a noise level of less than 63 DB, meaning patients can relax and focus on their treatment without distraction.

The EMY02 is also a highly versatile oxygen therapy chamber, suitable for a wide range of medical conditions. It's particularly effective in treating wounds, burns, and other injuries that require increased oxygen delivery to promote healing. Additionally, the chamber can be used to treat several other conditions such as dementia, autism, cerebral palsy, stroke, and other neurological conditions.

Among other things, the hyperbaric oxygen chamber also can improve these symptoms:

1. Asthma, bronchitis, pneumonia, acute carbon monoxide poisoning, post-stroke, cerebral hemorrhage, arteriosclerosis, diabetes, heart disease.
2. Treat Alzheimer's disease, stroke, muscle paralysis, neurological disorders, autism, schizophrenia, headache and migraine.
3. Treat insomnia, improve poor blood circulation and prevent Alzheimer's disease.
4. Therapeutic effect on diabetic retinitis and keratitis.
5. Promote swelling reabsorption stimulation, cell regeneration after micro-integration surgery, promote muscle and bone wound healing.
6. Treatment of traumatic infections, acute soft tissue injuries, ulcers, burns, wounds, fractures, etc.
7. Acne, herpes simplex, herpes zoster, cicatricial alopecia, dermatologic treatment, etc.
8. Auxiliary therapeutic effect on infertility, and obvious auxiliary therapeutic effect on postpartum recovery and postpartum restoration.
9. It has obvious therapeutic effect on the rehabilitation of children with congenital cranial nerve defects and congenital brain development problems.
10. Accelerates skin cell repair and regeneration, improves skin cell activity, promotes lipolytic enzyme activity, and reduces body weight.

Whether you're a medical professional looking for an effective tool for rehabilitation therapy supplies or an individual seeking a non-invasive treatment option for a medical condition, the O2EMENG EMY02 oxygen therapy chamber is an excellent choice. Its advanced features, quiet operation, and versatile design make it a valuable addition to any medical facility or home therapy studio.

Support and Services:

The Hyperbaric Oxygen Chamber product is equipped with advanced features that require technical support and services to ensure optimal performance. Our team of experienced technicians and engineers is available to provide assistance and answer any questions you may have regarding the product.

We offer a range of technical support and services, including:

Installation and setup

Maintenance and repair

Training and education

Remote monitoring and diagnostics

Upgrades and enhancements

Our technical support and services are designed to help you get the most out of your Hyperbaric Oxygen Chamber product and ensure that it operates at peak performance for years to come.

Why choose this hyperbaric chamber?

1. Remarkable therapeutic effect:

For hypoxic diseases: Hyperbaric oxygen chamber can significantly increase the oxygen content in the blood by providing a high concentration of oxygen environment, thus effectively improving a series of symptoms caused by ischemia and hypoxia. For patients with carbon monoxide poisoning, arteriosclerosis, cerebral hemorrhage, decompression sickness, etc., hyperbaric oxygen therapy can rapidly replace carbon monoxide in the body, restore the oxygen-carrying capacity of hemoglobin, or accelerate the dissolution of nitrogen bubbles in the body, relieving the symptoms of pain and damage to the nervous system.

Promotion of rehabilitation: Hyperbaric oxygen chambers are able to accelerate the trauma repair and rehabilitation process during treatment. For example, for patients with cerebrovascular diseases, hyperbaric oxygen helps to improve blood supply to the brain and promote the recovery of neurological functions; for chronic wounds that do not heal, such as diabetic foot and bedsores, hyperbaric oxygen can promote blood circulation and accelerate wound healing. These effects are reflected in several cases, proving the important role of hyperbaric oxygen chamber in rehabilitation treatment.

2. Wide range of application:

The scope of application of hyperbaric oxygen chamber is very wide, covering almost all the diseases related to hypoxia and ischemia. From acute carbon monoxide poisoning, drowning, etc., to chronic cerebrovascular disease, arteriosclerosis, etc., hyperbaric oxygen therapy can play its unique role. In addition, hyperbaric oxygen chamber is also suitable for the treatment of patients with decompression sickness, craniocerebral injury, postoperative brain tumor, etc., which can effectively improve the prognosis and quality of life of patients.

operate three devices,
easy one-button operation saves time and effort.

Our certificate

We present the strong quality commitment and we have gone through hard work to be able to offer this health equipment at an accessible price for the first time in the world.

Supercharged Oxygen

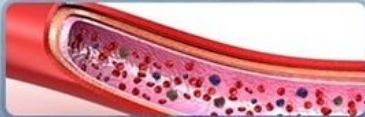

Increase the partial pressure of oxygen in the body.
The hyperbaric chamber can be raised to 30kpa.

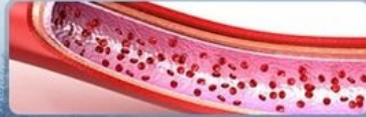

Increase blood oxygen saturation.
Oxygen intake is equivalent to more than 2 times that of normal breathing.

Increase the oxygen diffusion distance in the body.
Use the flow of lymph to increase blood flow.

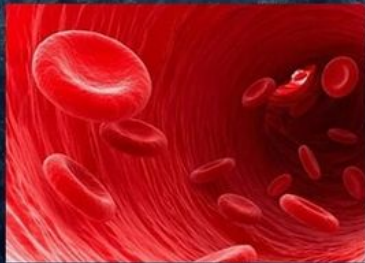

The blood vessel circulation in the human body under normal atmospheric pressure. Various factors impede flow.

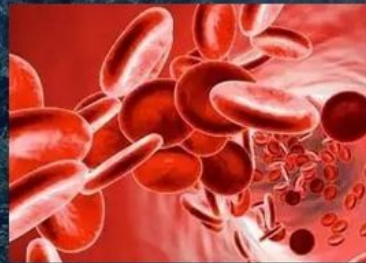

Hyperbaric oxygen chamber speeds up human blood vessel circulation, promote blood flow.

Increases the partial pressure of oxygen in the blood, and improves the vascular transport and terminal arrival of oxygen.

Atmospheric Oxygen

At standard atmospheric pressure, blood vessels contain oxygen (atmospheric oxygen)

Supercharged Oxygen

In a hyperbaric oxygen environment, the blood vessels contain oxygen (high concentrations of oxygen)
