

Hyperbaric Oxygen Chamber The Best Choice for Rehabilitation Therapy Supplies

Our Product Introduction

For more products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMY02
- Minimum Order Quantity: 1PC
- Price: \$20699
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Model: EMY02
- Chamber Oxygen Concentration: 28% 32%
- Usage: Medical/Therapeutic
- Cabin Size: 210*165*210CM
- Function: Hyperbaric Oxygen Therapy
- Cabin Weight: 900KGS
- Rated Power: 1500W
- Properties: Rehabilitation Therapy Supplies
- Highlight: 1500w hyperbaric oxygen chamber, 1500w oxygen hyperbaric chamber, medical hyperbaric oxygen chamber

Product Description

O2EMENG EMY02 Hyperbaric Oxygen Chamber The Best Choice for Rehabilitation Therapy Supplies

Product Description:

One of the key features of the EMY02 Hyperbaric Oxygen Chamber is its ability to maintain a consistent oxygen concentration of 28% to 32%, which is the optimal range for effective HBOT treatment. This ensures that patients receive the proper amount of oxygen to improve their health and wellness, while minimizing the risk of potential side effects or complications.

Another important factor to consider when selecting a hyperbaric oxygen chamber is the noise level. The EMY02 Hyperbaric Oxygen Chamber has been designed with a noise level of less than 63 DB, which is well below the threshold for discomfort or hearing damage. This makes it an ideal choice for patients who require a quiet and peaceful environment during their therapy sessions.

The EMY02 Hyperbaric Oxygen Chamber is intended for medical and therapeutic use, and is designed to provide a range of benefits for patients with a variety of conditions. Some of the key benefits of hyperbaric oxygen therapy include improved circulation, enhanced immune function, accelerated healing, and reduced inflammation.

Overall, the EMY02 Hyperbaric Oxygen Chamber is a high-quality, reliable, and effective solution for patients who require hyperbaric oxygen therapy. Whether you are seeking treatment for a specific medical condition, or simply looking to enhance your overall health and wellness, this pressurized oxygen chamber is an ideal choice.

Features:

Product Name: Hyperbaric Oxygen Chamber

Chamber Oxygen Concentration: 28% 32%

Rated power: 1500W

Function: Hyperbaric Oxygen Therapy

Model: EMY02

Properties: Rehabilitation Therapy Supplies

Keywords: Hyperbaric oxygen treatment chamber, Decompression chamber for oxygen therapy, High-pressure oxygen chamber

Technical Parameters:

Function	Hyperbaric Oxygen Therapy
Rated Power	1500W
Properties	Rehabilitation Therapy Supplies
Cabin Size	210*165*210CM
Usage	Medical/Therapeutic
Cabin Weight	900KGS
Chamber Oxygen Concentration	28% 32%
Model	EMY02
Noise Level	Less Than 63 DB

Applications:

Hyperbaric oxygen therapy is a non-invasive medical treatment that involves breathing pure oxygen in a hyperbaric pressure chamber. The EMY02 model has a chamber oxygen concentration of 28% 32%, which allows for the optimal amount of oxygen to be delivered to the body during the therapy.

The EMY02 model is a spacious hyperbaric pressure chamber with a cabin size of 210*165*210CM, allowing for comfortable movement during the therapy session. The high-pressure oxygen chamber is suitable for a variety of medical and therapeutic applications, including:

Wound healing

Stroke rehabilitation

Autism treatment

Multiple sclerosis therapy

Brain injury recovery

Cancer treatment

The EMY02 model is suitable for use in hospitals, clinics, rehabilitation centers, and other medical facilities. It is also suitable for home use by individuals with a medical prescription.

The O2EMENG Hyperbaric Oxygen Chamber is a top-of-the-line product that provides a safe and effective hyperbaric oxygen therapy unit experience. Its high-pressure oxygen chamber technology and spacious cabin size make it an ideal choice for a variety of medical and therapeutic applications.

Support and Services:

The Hyperbaric Oxygen Chamber is a medical device that delivers concentrated oxygen to the body at a higher pressure than normal. It is used to treat a variety of medical conditions, including carbon monoxide poisoning, decompression sickness, and non-healing wounds.

Our technical support team is available to assist with any questions or issues related to the operation or maintenance of the chamber. We provide comprehensive training for the safe and effective use of the device, as well as ongoing support for troubleshooting and repairs. Additionally, we offer a range of services to support the use of the Hyperbaric Oxygen Chamber, including installation, calibration, and regular maintenance.

Why choose this hyperbaric chamber?

1. Remarkable therapeutic effect:

For hypoxic diseases: Hyperbaric oxygen chamber can significantly increase the oxygen content in the blood by providing a high concentration of oxygen environment, thus effectively improving a series of symptoms caused by ischemia and hypoxia. For patients with carbon monoxide poisoning, arteriosclerosis, cerebral hemorrhage, decompression sickness, etc., hyperbaric oxygen therapy can rapidly replace carbon monoxide in the body, restore the oxygen-carrying capacity of hemoglobin, or accelerate the dissolution of nitrogen bubbles in the body, relieving the symptoms of pain and damage to the nervous system.

Promotion of rehabilitation: Hyperbaric oxygen chambers are able to accelerate the trauma repair and rehabilitation process during treatment. For example, for patients with cerebrovascular diseases, hyperbaric oxygen helps to improve blood supply to the brain and promote the recovery of neurological functions; for chronic wounds that do not heal, such as diabetic foot and bedsores, hyperbaric oxygen can promote blood circulation and accelerate wound healing. These effects are reflected in several cases, proving the important role of hyperbaric oxygen chamber in rehabilitation treatment.

2. Wide range of application:

The scope of application of hyperbaric oxygen chamber is very wide, covering almost all the diseases related to hypoxia and ischemia. From acute carbon monoxide poisoning, drowning, etc., to chronic cerebrovascular disease, arteriosclerosis, etc., hyperbaric oxygen therapy can play its unique role. In addition, hyperbaric oxygen chamber is also suitable for the treatment of patients with decompression sickness, craniocerebral injury, postoperative brain tumor, etc., which can effectively improve the prognosis and quality of life of patients.

Hyperbaric Oxygen Chamber Application Scenarios

Sport & Recovery

Beauty & Anti-Aging

Clinical

Home Care

Natural Therapy

HBOT is the most natural way to beauty, improve metabolism and sleep, eliminate sub-health fatigue, effectively promote skin elasticity, and restore youthful vitality.

MULTI-SCENARIO USE

Modular assembly & advanced splicing technology

- Lunchtime Nap
- Physical Therapy and Health Care
- Sports Recovery
- Beauty and Anti-Aging
- Business Negotiations
- Work Online
