

28% 32% Oxygen Concentration Hyperbaric Oxygen Chamber for Medical/Therapeutic Purpose

Our Product Introduction

ore products please visit us on oxygenconcentratormedical.com

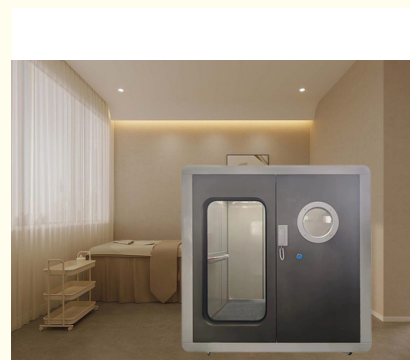

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMY03
- Minimum Order Quantity: 1PC
- Price: \$23499
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

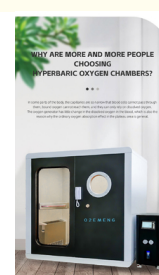

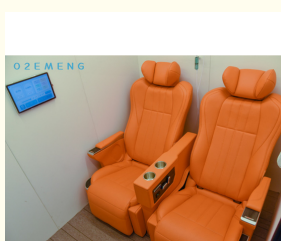

Product Specification

- Cabin Weight: 900KGS
- Usage: Medical/Therapeutic
- Rated Power: 1500W
- Function: Hyperbaric Oxygen Therapy
- Properties: Rehabilitation Therapy Supplies
- Model: EMY03
- Noise Level: Less Than 63 DB
- Chamber Oxygen Concentration: 28% 32%
- Highlight: medical hyperbaric oxygen chamber, medical oxygen hyperbaric chamber, therapeutic hyperbaric oxygen chamber

Product Description

O2EMENG 28% 32% Oxygen Concentration Hyperbaric Oxygen Chamber for Medical/Therapeutic Purpose

Product Description:

The Hyperbaric Oxygen Chamber has a rated power of 1500W, ensuring that it is capable of delivering the necessary oxygen concentrations to the patient. This hyperbaric oxygen therapy unit is the perfect solution for rehabilitation therapy supplies, as it can be used to treat a variety of conditions, including wound healing, radiation injury, and neurological disorders.

The model of this hyperbaric oxygen treatment chamber is EMY03, which offers a spacious interior that can accommodate patients of all sizes. The chamber oxygen concentration ranges from 28% to 32%, which is the optimal level for hyperbaric oxygen therapy.

Hyperbaric oxygen therapy is a safe and effective treatment that has been used for decades to promote healing and improve overall health. By increasing the amount of oxygen in the body, hyperbaric oxygen therapy can help to reduce inflammation, improve circulation, and stimulate the growth of new blood vessels.

The Hyperbaric Oxygen Chamber is designed to make hyperbaric oxygen therapy more accessible to patients who need it. With its user-friendly controls and spacious interior, this hyperbaric oxygen treatment chamber is the perfect choice for hospitals, clinics, and other healthcare facilities.

Overall, the Hyperbaric Oxygen Chamber is an excellent investment for healthcare providers looking to offer hyperbaric oxygen therapy to their patients. With its advanced features and reliable performance, this decompression chamber for oxygen therapy is sure to provide patients with the high-quality care they deserve.

Features:

Product Name: Hyperbaric Oxygen Chamber

Cabin Weight: 900KGS

Cabin Size: 220*150*190CM

Rated Power: 1500W

Noise Level: Less Than 63 DB

Model: EMY03

Features:

Hyperbaric oxygen therapy unit

Hyperbaric oxygen treatment chamber

High-pressure oxygen chamber

Technical Parameters:

Chamber Oxygen Concentration	28% 32%
Properties	Rehabilitation Therapy Supplies
Noise Level	Less Than 63 DB
Model	EMY03
Rated power	1500W
Usage	Medical/Therapeutic
Cabin Weight	900KGS
Cabin size	220*150*190CM
Function	Hyperbaric Oxygen Therapy

Applications:

This Hyperbaric Oxygen Chamber is a Hyperbaric Oxygen Treatment Chamber that can provide oxygen therapy, which involves breathing in pure oxygen in a pressurized chamber. This treatment is beneficial for a variety of medical conditions, including decompression sickness, carbon monoxide poisoning, and non-healing wounds.

The Hyperbaric Oxygen Chamber by O2EMENG is suitable for Rehabilitation Therapy Supplies. It is designed for use in medical facilities, clinics, hospitals, and other therapeutic settings.

The Hyperbaric Oxygen Chamber is a quiet device, with a noise level of less than 63 dB, making it suitable for use in quiet environments.

This Hyperbaric Oxygen Chamber is ideal for a range of medical conditions and can be used in a variety of scenarios. For example, it can be used to treat patients with decompression sickness, carbon monoxide poisoning, and non-healing wounds. It can also be used for athletes who need to recover quickly from injuries or for people with chronic pain.

The Hyperbaric Oxygen Chamber is also suitable for use in research settings, where it can be used to study the effects of oxygen therapy on different medical conditions.

Support and Services:

The Hyperbaric Oxygen Chamber is a medical device designed to administer oxygen at higher than atmospheric pressures to patients. Our product technical support team is dedicated to providing you with comprehensive assistance and guidance to ensure that your Hyperbaric Oxygen Chamber is functioning optimally. We offer a range of services including installation, maintenance, and repair of the chamber. Moreover, we also provide training to users on how to safely and effectively operate the chamber. Our team is available to help you troubleshoot any issues you may encounter, as well as to answer any questions you may have about the product. We are committed to ensuring that you receive the highest level of support and service for your Hyperbaric Oxygen Chamber.

In addition we offer:

1.Demand customization: according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

2.Exclusive design: the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

3. Craftsmanship Manufacturing: The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

4. Lifetime maintenance: provide perfect professional after-sales service guarantee

Reasons to choose us:

1. Professionalism and authority:

As a manufacturer or brand of hyperbaric chamber, O2EMENG has rich industry experience and technology accumulation, and can provide professional and reliable hyperbaric oxygen therapy equipment.

Its products may have undergone stringent quality control and certification and comply with relevant industry standards to ensure safety and effectiveness in use.

2. Technological advancement:

O2EMENG hyperbaric chambers may adopt the latest technology and design concepts, such as air pressurization or pure oxygen pressurization technology, as well as advanced air supply and exhaust (oxygen) systems, air conditioning systems and control systems. These technologies can ensure that the human body can safely and effectively inhale a high concentration of oxygen in a high-pressure environment for therapeutic purposes.

3. User feedback and reputation:

When choosing hyperbaric chambers, user feedback and reputation are also important reference factors, and O2EMENG hyperbaric chambers may be widely praised for their good treatment effect and user experience.

In addition, O2EMENG Hyperbaric Oxygen Chamber adopts advanced technology and design, which can ensure the safety during the treatment process. At the same time, Hyperbaric Oxygen Therapy, as a non-invasive physical therapy method, has significant therapeutic effects. Compared with other treatment methods, hyperbaric oxygen therapy may have lower cost and higher cost-effectiveness. o2EMENG hyperbaric chamber may further reduce the cost of use and improve economic efficiency by optimizing the design and production processes. Meanwhile this oxygen chamber has the following functions:

1.Enhance the speed of recovery:

Hyperbaric oxygen chambers can help patients recover quickly from fatigue, illness, etc. O2EMENG Hyperbaric Oxygen Chambers may accelerate the speed of recovery by stimulating aerobic metabolic processes in cells by increasing the level of oxygen in the blood and the distance over which the blood oxygen diffuses.

2.Immune Enhancement:

Hyperbaric Oxygen Therapy can help the elderly and the physically weak to increase blood oxygen levels and strengthen the body

HARD TYPE HYPERBARIC OXYGEN CHAMBER

Innovative technology, quality assurance

The cabin door is made of aviation PC material

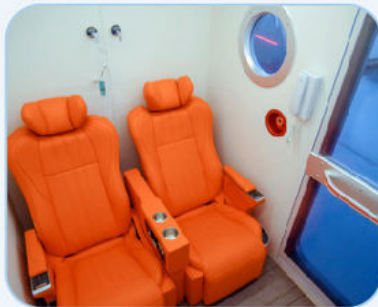

Multiple safety technologies
One-button pressure relief protection system during power outage

AI intelligent voice control system

CHAMBER CAPSULE DESCRIPTION

1. Automatic digital display real-time temperature, humidity, oxygen purity and pressure.
2. Rotary timer system, use of time can be pressed in advance Multiple noise reduction technology.
3. Excellent Silence performance, the noise is $\leq 63\text{dB}$. Offer you a peaceful experience environment.
4. Double pressure relief device Spiral step less super smooth rotary valve. Spiral ergonomic hand-held design. Pressure relief is smoother and more convenient. Internal and external two-way integrated polycarbonate valve. One valve, two-way operation.
5. Automatic pressurize relief valves
Two automatic high precision constant pressure valve. Ensure the product is safe and effective by Aluminum alloy steel, high hardness, wear resistance.
6. Communicating system.
Intercom telephone is convenient for users to talk with operator outside.
7. Machine start-up protection system.
The chamber only can be turned on when the chamber door is completely closed, avoiding the danger of the door being left unlocked.
8. Automatic pressurize and depressurize system.
Based on the principle of "Cylinder (engine)" , Pressurize automatically after the door is completely closed.
9. Made by Aluminum alloy steel; With environmental spray paint;
Strong weight bearing capacity, Durable and wear-resistant; non-deformable; long lifespan.
10. In case of unexpected power failure, the door can be opened by emergency safety from inside the chamber.
