

Hyperbaric Chamber for Rehabilitation 2.0ATA adjustable

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMY01
- Minimum Order Quantity: 1PC
- Price: \$23599
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Chamber Oxygen Concentration: 28% 32%
- Model: EMY01
- Properties: Rehabilitation Therapy Supplies
- Usage: Medical/Therapeutic
- Cabin Size: 185*88*152CM
- Cabin Weight: 1000KGS
- Noise Level: Less Than 63 DB
- Rated Power: 1500W
- Highlight: 1500w hyperbaric oxygen chamber, 1500w oxygen hyperbaric chamber, medical hyperbaric oxygen chamber

Product Description

O2EMENG EMYO1 Hyperbaric Chamber for Rehabilitation 2.0ATA adjustable

Product Description:

The Hyperbaric oxygen treatment chamber is a closed chamber that allows for an increase in atmospheric pressure. This increase in pressure helps increase the amount of oxygen that is dissolved in your blood. The air pressure inside the cabin is increased to levels higher than the normal atmospheric pressure, thus creating an environment for therapeutic use.

The cabin size of this product is 185*88*152CM, making it spacious enough for patients to move around comfortably. The spacious chamber allows for more excellent mobility and comfort, making the treatment process more tolerable for patients. The chamber is also designed to provide a relaxing atmosphere that helps patients remain calm during the treatment process.

This Hyperbaric oxygen chamber is designed to be easy to use, with a simple interface that is easy to navigate. The product is equipped with a control panel that allows for easy control of the pressure and oxygen flow rate, making it easy to customize the treatment according to individual needs.

The rated power of this product is 1500W, which is sufficient to provide an excellent therapeutic experience for patients. The product is also designed to operate at a noise level less than 63 DB, making it a quiet product that does not cause any disturbance or distraction during the treatment process.

The Hyperbaric oxygen treatment chamber is an excellent option for individuals who wish to heal from injuries or medical conditions. It helps increase the amount of oxygen in the body, which in turn promotes healing and recovery. The product is also easy to use and designed to provide a relaxing environment, making it an excellent option for those who wish to undergo Hyperbaric Oxygen Therapy.

Features:

Product Name: Hyperbaric Oxygen Chamber

Model: EMYO1

Properties: Rehabilitation Therapy Supplies

Cabin Weight: 1000KGS

Noise Level: Less Than 63 DB

Rated power: 1500W

Pressurized oxygen chamber

Hyperbaric oxygen therapy unit

Oxygen therapy chamber

Technical Parameters:

Product Attributes	Specifications
Properties	Rehabilitation Therapy Supplies
Usage	Medical/Therapeutic
Noise Level	Less Than 63 DB
Model	EMYO1
Function	Hyperbaric Oxygen Therapy
HBOT chamber, Hyperbaric chamber of oxygen, Oxygen therapy chamber	
Cabin Weight	1000KGS
Cabin size	185*88*152CM
Chamber Oxygen Concentration	28% 32%
Rated power	1500W

Applications:

The EMYO1 Hyperbaric Oxygen Chamber is ideal for use in medical facilities such as hospitals, clinics, and rehabilitation centers. It is also suitable for use in home settings, providing patients with the convenience and comfort of receiving treatment in their own environment.

The chamber is designed to reduce noise levels to less than 63 decibels, ensuring a quiet and comfortable treatment environment.

The cabin size of the chamber is 185*88*152CM, providing ample space for patients to move around during treatment.

The EMY01 Hyperbaric Oxygen Chamber is designed to provide a concentrated oxygen environment, with an oxygen concentration of 28% to 32%. This concentration is ideal for patients undergoing oxygen therapy for a variety of medical conditions, including wound healing, carbon monoxide poisoning, and decompression sickness.

The EMY01 Hyperbaric Oxygen Chamber is a versatile and effective tool for medical professionals and patients alike. Its compact design and ease of use make it an ideal choice for medical facilities of all sizes. Whether you are looking for a high-pressure oxygen chamber for use in a hospital or clinic setting, or a home oxygen therapy chamber for personal use, the EMY01 is the perfect choice.

Exclusive design:

By the advanced science and technology team and the top design team, from the size and color material matching, the actual plan customized landing

Support and Services:

Our Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that you receive the best experience possible. Our team of experts is available to assist you with any questions or issues you may encounter while using our product.

We offer installation and training services to help you set up and operate the Hyperbaric Oxygen Chamber safely and efficiently. Our team will guide you through the process and ensure that you are fully equipped to use the product to its full potential.

In addition, we provide ongoing maintenance and repair services to keep your Hyperbaric Oxygen Chamber running smoothly. Our team of technicians is trained to identify and resolve any issues that may arise, ensuring minimal downtime for your business.

We are committed to providing the highest level of customer service and technical support to our customers. Contact us today to learn more about our services and how we can assist you with your Hyperbaric Oxygen Chamber needs.

Other details:

1. Smart Chair: Ergonomic design with USB-A charging port allows you to easily charge while enjoying hyperbaric oxygen therapy and keep your device fully charged. The frame of the seat is made of 304 stainless steel, which is durable and highlights the quality and style.

2. High strength explosion-proof material door: The use of specially developed high strength, high permeability explosion-proof material, combined with excellent sealing performance, to ensure the stability and safety of the cabin environment. The door body design takes into account pressure stability and fast opening function, with AI intelligent voice system, easy to operate and safe.

3. Comprehensive data monitoring: Built-in high-precision sensor, real-time monitoring and display of cabin temperature, humidity, pressure and oxygen concentration, so that you know every oxygen therapy process. Accurate data to provide scientific basis for your health management.

4. Quiet design: Pay special attention to noise control, ensure that the cabin environment is quiet and comfortable, the sound level is 63dB, and create a private space away from the noise and relax.

5. Stable power supply: Support 220V/50Hz standard voltage, rated power up to 1500W, to ensure stable operation of equipment, to meet the needs of long-term hyperbaric oxygen therapy.

6. Precise oxygen concentration control: The oxygen concentration in the cabin can be accurately adjusted to between 28% and 32%, and the scientific ratio can effectively improve blood oxygen saturation, promote cell metabolism, and accelerate body recovery and repair.

7. Comfortable temperature control: Equipped with advanced cooling system, you can freely adjust the cabin temperature according to personal needs, to ensure that you can enjoy the most suitable oxygen therapy environment in the hot summer.

【 Applicable audience 】 :

Accelerate physical recovery and improve performance for athletes and fitness enthusiasts.

Sub-healthy people, improve sleep quality, enhance immunity.

Brain workers, relieve brain fatigue, improve work efficiency.

Chronic disease patients, assist rehabilitation treatment, promote health recovery.

Choose our high-end intelligent hyperbaric oxygen chamber, open a new chapter of your health, let every breath become the nourishment of life, enjoy the health and happiness brought by science and technology

CONCLUSION

It is more feasible to increase the dissolved oxygen in the blood.
The hyperbaric oxygen chamber can maintain the oxygen partial pressure within a safe and effective range by flexibly adjusting the oxygen concentration or pressure, and gently and effectively improve the oxygen delivery to tissues and organs by increasing dissolved oxygen.

WHY ARE MORE AND MORE PEOPLE CHOOSING HYPERBARIC OXYGEN CHAMBERS?

In some parts of the body, the capillaries are so narrow that blood cells cannot pass through them, bound oxygen cannot reach them, and they can only rely on dissolved oxygen. The oxygen generator has little change in the dissolved oxygen in the blood, which is also the reason why the ordinary oxygen absorption effect in the plateau area is general.

HARD TYPE HYPERBARIC OXYGEN CHAMBER

Innovative technology, quality assurance

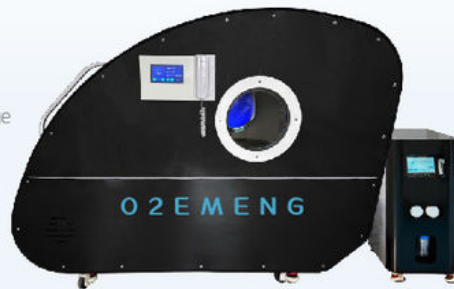

The cabin door is made of aviation PC material

Multiple safety technologies
One-button pressure relief protection system during power outage

AI intelligent voice control system

ABOUT O₂ EMENG

PROFESSIONAL REGISTRATION DEPARTMENT

O2 EMENG have a special professional registration department, which is in charge of domestic registration and overseas registration. We can help our current and potential customers to do the registration work. We have a good relationship with domestic famous institutes who can provide us with authoritative medical analysis and authorization reports. Quality and service are always top concerns in O2 EMENG. We provide a full set of services, including data and samples, which are available on request.

If you want to know more about our products, please contact us!
