

Portable Hyperbaric Chamber For Rehabilitation Therapy EMS05 1.3ATA

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS05
- Minimum Order Quantity: 1PC
- Price: \$5150
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Pressure Reduction Time: 5-10 Mins
- Oxygen Concentration: $\geq 90\%$ (can Be Set)
- Model: EMS05
- Properties: Rehabilitation Therapy Supplies
- Working Pressure: 1.3ATA
- Total Weight: 83kgs
- Function: Hyperbaric Oxygen Therapy
- Noise Level: Less Than 63 DB
- Highlight: 1.3ata portable hyperbaric chamber,
1.3ata portable hyperbaric oxygen chamber

Product Description

O2EMENG Portable Hyperbaric Chamber For Rehabilitation Therapy EMS05 1.3ATA

Product Description:

One of the key features of the EMS05 Hyperbaric chamber of oxygen is its quiet operation. With a noise level of less than 63 DB, this device is extremely quiet and does not cause any disturbance or discomfort to the patient. This makes it an ideal choice for use in hospitals, clinics, and other healthcare facilities where noise levels need to be kept to a minimum.

The EMS05 Hyperbaric chamber of oxygen also has a compact design that makes it easy to transport and store. The machine CTN size is 127*55*105cm, which means that it can be easily moved from one location to another without taking up too much space. Its total weight of 83kgs also makes it easy to move around and set up in different locations.

The Hyperbaric chamber of oxygen is primarily used for medical and therapeutic purposes. It works by delivering pure oxygen to the patient at a higher pressure than what is available in the atmosphere. This helps to increase the amount of oxygen that is carried in the blood, which can help to promote healing and improve overall health. The EMS05 Hyperbaric chamber of oxygen is particularly effective in treating conditions such as carbon monoxide poisoning, decompression sickness, and wound healing.

In conclusion, the EMS05 Hyperbaric chamber of oxygen is an essential medical device that has revolutionized the way oxygen therapy is delivered to patients. Its quiet operation, compact design, and effectiveness in treating a wide range of medical conditions make it an ideal choice for healthcare professionals looking to provide high-quality care to their patients. Whether you are a hospital, clinic, or other healthcare facility, the EMS05 Hyperbaric chamber of oxygen is a must-have device for any medical professional looking to provide the best care possible to their patients.

Features:

Product Name: Hyperbaric Oxygen Chamber

Total Weight: 83kgs

Properties: Rehabilitation Therapy Supplies

Noise Level: Less Than 63 DB

Machine CTN size: 127*55*105cm

Function: Hyperbaric Oxygen Therapy

Compression chamber for hyperbaric oxygen therapy

Hyperbaric oxygen treatment chamber

Technical Parameters:

| Product Attribute | Value |
|-------------------------|---------------------------------|
| Model | EMS05 |
| Function | Hyperbaric Oxygen Therapy |
| Properties | Rehabilitation Therapy Supplies |
| Working Pressure | 1.3ATA |
| Oxygen Concentration | ≥90%(can Be Set) |
| Pressure Reduction Time | 5-10 Mins |
| Noise Level | Less Than 63 DB |
| Total Weight | 83kgs |
| Usage | Medical/Therapeutic |
| Machine CTN Size | 127*55*105cm |

Applications:

Brand Name: O2EMENG

Model Number: EMS05

Place of Origin: SHENZHEN EMENG HEALTH

Oxygen concentration: ≥90% (can be set)

Machine CTN size: 127*55*105cm

Properties: Rehabilitation Therapy Supplies

Total Weight: 83kgs

HBOT chambers are used in a variety of medical settings to treat several conditions. Here are a few examples of product application occasions and scenarios:

Chronic Wounds:

HBOT chambers can be used to treat chronic wounds such as diabetic foot ulcers, venous leg ulcers, and pressure sores. The high-pressure oxygen chamber increases blood flow and helps to promote the growth of new blood vessels which can aid in the healing process.

Carbon Monoxide Poisoning:

HBOT chambers can be used to treat carbon monoxide poisoning. Carbon monoxide is a toxic gas that can cause headaches, dizziness, and nausea. Breathing in pure oxygen in a pressurized environment can help to remove the carbon monoxide from the body and reduce the effects of poisoning.

Autism:

HBOT chambers can be used to treat autism. Studies have shown that high-pressure oxygen therapy can help to reduce symptoms of autism such as repetitive behaviors and social withdrawal. The therapy can also improve cognitive function and language skills.

Brain Injury:

HBOT chambers can be used to treat brain injuries such as concussions and traumatic brain injuries. The high-pressure oxygen environment can help to reduce swelling in the brain and increase blood flow which aids in the healing process.

Stroke:

HBOT chambers can be used to treat stroke patients. The therapy can help to reduce brain damage caused by lack of oxygen during a stroke. It can also aid in the recovery process and improve neurological function.

In conclusion, the O2EMENG EMS05 Hyperbaric Oxygen Chamber is a versatile medical device that can be used to treat a wide range of conditions. Its portability and user-friendly features make it a valuable asset to any medical facility.

Support and Services:

1.Demand customization: according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

2.Exclusive design: the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

3. Craftsmanship Manufacturing: The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

4. Lifetime maintenance: provide perfect professional after-sales service guarantee

Our Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure optimal performance and customer satisfaction. Our team of experienced technicians and engineers are available to assist with installation, maintenance, and troubleshooting of the product.

In addition, we offer training sessions for customers to learn how to properly operate and maintain the Hyperbaric Oxygen Chamber. This includes training on safety protocols and best practices for usage.

Our technical support and services also include regular maintenance and repair services to keep the product functioning at its best. We offer both on-site and remote support options to better serve our customers.

If you have any questions or concerns about our technical support and services for the Hyperbaric Oxygen Chamber, please do not hesitate to contact us.

Adapt to the crowd

Body easily fatigued

Work out

Working overtime and staying up late

Insomnia patients

Student population

Beauty-loving skincare crowd

Socializing drunk

Middle-aged and elderly

Sub-healthy population

Supercharged Oxygen

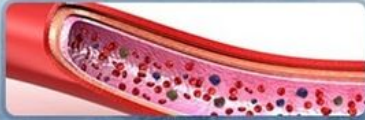

Increase the partial pressure of oxygen in the body.
The hyperbaric chamber can be raised to 30kpa.

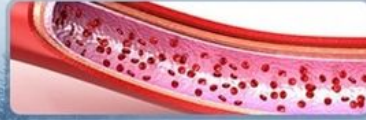

Increase blood oxygen saturation.
Oxygen intake is equivalent to more than 2 times that of normal breathing.

Increase the oxygen diffusion distance in the body.
Use the flow of lymph to increase blood flow.

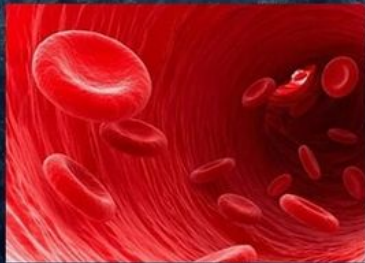

The blood vessel circulation in the human body under normal atmospheric pressure. Various factors impede flow.

Hyperbaric oxygen chamber speeds up human blood vessel circulation, promote blood flow.

Increases the partial pressure of oxygen in the blood, and improves the vascular transport and terminal arrival of oxygen.

Atmospheric Oxygen

At standard atmospheric pressure, blood vessels contain oxygen (atmospheric oxygen)

Supercharged Oxygen

In a hyperbaric oxygen environment, the blood vessels contain oxygen (high concentrations of oxygen)

The Use of Hyperbaric Oxygen Chamber

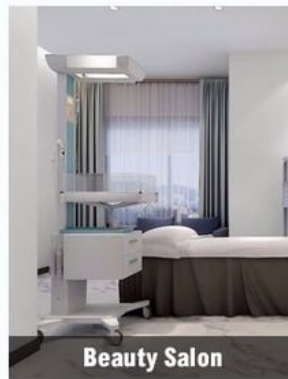

Always prepare at home, say goodbye to sub-health

Family

Clubhouse

Beauty Salon

PROFESSIONAL REGISTRATION DEPARTMENT

O2 EMENG have an special professional registration department, which in charge of domestic registration and oversea registration. We can help our current or potential customers to do the registration work. We have a good relation with domestic famous institute who can provide us with authoritative medical analysis and authorization report. Quality and Service are always top concern in Olive. We provide full set of service, including data and samples, which are available on request

QC DEPARTMENT

Including incoming inspection, semi-finished products inspection, finished product inspection, and pre-delivery inspection, your satisfaction will be O2 EMENG honor
