

1.2 - 1.4ATA High Pressure Hyperbaric Chamber Hyperbaric Oxygen Therapy At Home

Our Product Introduction

For more products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS02
- Minimum Order Quantity: 1PC
- Price: \$4050
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

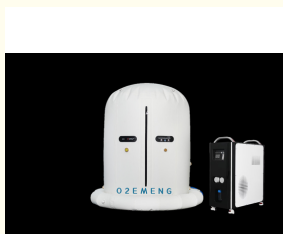

Product Specification

- Machine CTN Size: 127*55*105cm
- Function: Hyperbaric Oxygen Therapy
- Model: EMS02
- Oxygen Concentration: $\geq 90\%$ (can Be Set)
- Total Weight: 83kgs
- Noise Level: Less Than 63 DB
- Working Pressure: 1.2-1.4 ATA (can Be Set)
- Properties: Rehabilitation Therapy Supplies
- Highlight: 1.2ATA High Pressure Hyperbaric Chamber,
1.4ATA High Pressure Hyperbaric Chamber,
1.4ATA Hyperbaric Oxygen Therapy At Home

Product Description

O2EMENG Rehabilitation Hyperbaric Oxygen Therapy Chamber EMS02 with 5-10 Mins Press Reduction

Product Description:

The Hyperbaric Oxygen Chamber is the perfect tool for rehabilitation therapy supplies. It is designed to provide a comfortable and relaxing environment for the patient while delivering the necessary oxygen concentration. With an oxygen concentration of $\geq 90\%$ (can be set), this hyperbaric chamber of oxygen is perfect for medical and therapeutic use.

The Hyperbaric Oxygen Chamber works by using pressure to force oxygen into the body's tissues, promoting healing and reducing inflammation. This function makes it perfect for hyperbaric oxygen therapy, which is a proven technique for treating a wide range of medical conditions, including wounds, infections, and neurological disorders.

The total weight of the Hyperbaric Oxygen Chamber is 83kgs, making it easy to move and transport as needed. It is also easy to set up and use, so you can start experiencing the benefits of hyperbaric oxygen therapy with minimal hassle.

Overall, the Hyperbaric Oxygen Chamber is an excellent investment for anyone looking to improve their health and wellbeing. Whether you are a medical professional looking for a reliable tool for hyperbaric oxygen therapy or a patient looking for a safe and effective way to speed up your recovery, this HBOT chamber is the perfect solution for you.

Features:

Product Name: Hyperbaric Oxygen Chamber

Noise Level: Less Than 63 DB

Machine CTN size: 127*55*105cm

Function: Hyperbaric Oxygen Therapy

Usage: Medical/Therapeutic

Properties: Rehabilitation Therapy Supplies

This product is a Hyperbaric oxygen therapy unit, also known as a pressurized oxygen chamber or Hyperbaric oxygen treatment chamber. It is used for medical and therapeutic purposes and is a type of rehabilitation therapy supply.

Technical Parameters:

Product Attribute	Value
Model	EMS02
Properties	Rehabilitation Therapy Supplies
Usage	Medical/Therapeutic
Function	Hyperbaric Oxygen Therapy
Compression chamber for hyperbaric oxygen therapy	Yes
Pressurized oxygen chamber	Yes
Hyperbaric chamber of oxygen	Yes
Pressure reduction time	5-10 Mins
Working pressure	1.2-1.4 ATA (can Be Set)
Oxygen concentration	$\geq 90\%$ (can Be Set)
Noise Level	Less Than 63 DB
Total Weight	83kgs
Machine CTN size	127*55*105cm

Applications:

The O2EMENG EMS02 Hyperbaric Pressure Chamber can be used in a variety of scenarios, including but not limited to:

Medical clinics and hospitals

Physical therapy centers

Athletic training facilities

Alternative medicine clinics

With a noise level of less than 63 dB, the O2EMENG EMS02 Hyperbaric Pressure Chamber is exceptionally quiet, making it an ideal choice for use in any setting. The chamber is designed to reduce pressure in just 5-10 minutes, making it quick and easy to use.

The O2EMENG EMS02 Hyperbaric Pressure Chamber can be set to a working pressure of 1.2-1.4 ATA, providing users with a range of pressure options to choose from. This makes it a versatile and adaptable choice for medical and therapeutic use.

The primary function of the O2EMENG EMS02 Hyperbaric Pressure Chamber is hyperbaric oxygen therapy. This treatment involves breathing in pure oxygen while inside the chamber, which increases the amount of oxygen in the blood and tissues. This can help to improve the body's natural healing processes, reduce inflammation, and promote overall health and wellness.

The O2EMENG EMS02 Hyperbaric Pressure Chamber is an excellent choice for anyone looking for a safe, effective, and versatile hyperbaric oxygen therapy unit. Whether you are a medical professional looking to offer hyperbaric oxygen therapy to your patients, or an individual looking to improve your overall health and wellness, the O2EMENG EMS02 Hyperbaric Pressure Chamber is the ideal choice.

Why choose this hyperbaric chamber:

1. Remarkable therapeutic effect

For hypoxic diseases: Hyperbaric oxygen chamber can significantly increase the oxygen content in the blood by providing a high concentration of oxygen environment, thus effectively improving a series of symptoms caused by ischemia and hypoxia. For patients with carbon monoxide poisoning, arteriosclerosis, cerebral hemorrhage, decompression sickness, etc., hyperbaric oxygen therapy can rapidly replace carbon monoxide in the body, restore the oxygen-carrying capacity of hemoglobin, or accelerate the dissolution of nitrogen bubbles in the body, relieving the symptoms of pain and damage to the nervous system.

Promotion of rehabilitation: Hyperbaric oxygen chambers are able to accelerate the trauma repair and rehabilitation process during treatment. For example, for patients with cerebrovascular diseases, hyperbaric oxygen helps to improve blood supply to the brain and promote the recovery of neurological functions; for chronic wounds that do not heal, such as diabetic foot and bedsores, hyperbaric oxygen can promote blood circulation and accelerate wound healing. These effects are reflected in several cases, proving the important role of hyperbaric oxygen chamber in rehabilitation treatment.

2. Wide range of application

The scope of application of hyperbaric oxygen chamber is very wide, covering almost all the diseases related to hypoxia and ischemia. From acute carbon monoxide poisoning, drowning, etc., to chronic cerebrovascular disease, arteriosclerosis, etc., hyperbaric oxygen therapy can play its unique role. In addition, hyperbaric oxygen chamber is also suitable for the treatment of patients with decompression sickness, craniocerebral injury, postoperative brain tumor, etc., which can effectively improve the prognosis and quality of life of patients.

Support and Services:

The Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that customers have a seamless experience with our product. Our technical support team is available to assist with any queries or issues that may arise during installation, setup, or usage of the product. We also provide regular maintenance and repair services to keep the product in optimal

condition and extend its lifespan. Our services include:

1. Demand customization: according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

2. Exclusive design: the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

3. Craftsmanship Manufacturing: The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

4. Lifetime maintenance: provide perfect professional after-sales service guarantee

We are committed to providing the highest level of support and services to our customers to ensure their satisfaction with our Hyperbaric Oxygen Chamber product.

Supercharged Oxygen

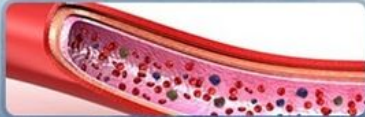

Increase the partial pressure of oxygen in the body.
The hyperbaric chamber can be raised to 30kpa.

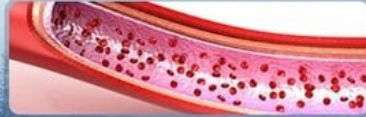

Increase blood oxygen saturation.
Oxygen intake is equivalent to more than 2 times that of normal breathing.

Increase the oxygen diffusion distance in the body.
Use the flow of lymph to increase blood flow.

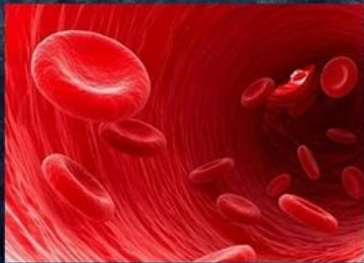

The blood vessel circulation in the human body under normal atmospheric pressure. Various factors impede flow.

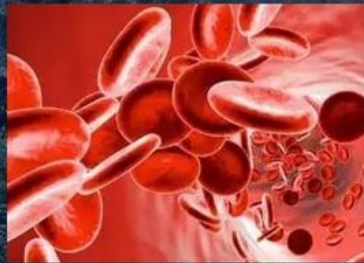

Hyperbaric oxygen chamber speeds up human blood vessel circulation, promote blood flow.

Increases the partial pressure of oxygen in the blood, and improves the vascular transport and terminal arrival of oxygen.

Atmospheric Oxygen

At standard atmospheric pressure, blood vessels contain oxygen (atmospheric oxygen)

Supercharged Oxygen

In a hyperbaric oxygen environment, the blood vessels contain oxygen (high concentrations of oxygen)

SHIPPING & PAYMENT

YILONG

HANGZHOU YILONG MEDICAL EQUIPMENT CO.,LTD

Product	Package	Mode of Transportation	Efficiency of Transportation	Destination
