

Hyperbaric Oxygen Therapy Chamber for Rehabilitation Therapy

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS02
- Minimum Order Quantity: 1PC
- Price: \$2650
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Total Weight: 52kgs
- Working Pressure: 1.2ATA
- Properties: Rehabilitation Therapy Supplies
- Model: EMS02
- Noise Level: Less Than 63 DB
- Pressure Reduction Time: 15mins
- Function: Hyperbaric Oxygen Therapy
- Oxygen Concentration: $\geq 90\%$ (can Be Set)
- Highlight: 52kgs hyperbaric oxygen chamber, 1.2ata hyperbaric oxygen chamber, 52kgs hyperbaric oxygen therapy chamber

Product Description

O2EMENG EMS02 Hyperbaric Oxygen Therapy Chamber for Rehabilitation Therapy

Product Description:

The machine comes in a compact size that measures 52*34*65cm, making it easy to set up in any room. With a total weight of 52kgs, the chamber is portable and can be moved around with ease.

The Hyperbaric Oxygen Chamber model EMS02 is engineered to deliver hyperbaric oxygen therapy, which is a medical treatment that involves breathing 100% pure oxygen in a pressurized chamber. The oxygen concentration of this machine is set at a minimum of 90%, which can be adjusted to suit the patient's needs.

The pressurized oxygen chamber is designed to deliver high levels of oxygen to the body's tissues, which helps to stimulate the growth of new blood vessels, reduce inflammation, and improve overall blood flow. This makes the hyperbaric oxygen treatment chamber an effective treatment option for a wide range of medical conditions, including traumatic brain injuries, chronic wounds, carbon monoxide poisoning, and many others.

The Hyperbaric Oxygen Chamber is easy to use, with a user-friendly interface that allows patients to adjust the oxygen concentration and pressure settings to their specific needs. The machine is equipped with safety features that ensure patients are safe and comfortable during treatment.

In conclusion, the Hyperbaric Oxygen Chamber is an excellent medical equipment that provides an effective and non-invasive treatment option for various medical conditions. Its compact size, portability, and ease of use make it a convenient option for medical practitioners and patients alike. The pressurized oxygen chamber is designed to deliver high levels of oxygen to the body's tissues, which helps to stimulate the growth of new blood vessels, reduce inflammation, and improve overall blood flow, making it an ideal treatment option for many medical conditions.

Features:

Product Name: Hyperbaric Oxygen Chamber

Working pressure: 1.2ATA

Noise Level: Less Than 63 DB

Properties: Rehabilitation Therapy Supplies

Total Weight: 52kgs

Machine CTN size: 52*34*65cm

Decompression chamber for oxygen therapy

Hyperbaric oxygen therapy unit

Hyperbaric oxygen treatment chamber

Technical Parameters:

Model	EMS02
Working Pressure	1.2ATA
Total Weight	52kgs
Machine CTN Size	52*34*65cm
Pressure Reduction Time	15mins
Noise Level	Less Than 63 DB
Usage	Medical/Therapeutic
Oxygen Concentration	≥90%(can Be Set)
Properties	Rehabilitation Therapy Supplies
Function	Hyperbaric Oxygen Therapy

Applications:

The O2EMENG HBOT chamber model EMS02 is a compression chamber for hyperbaric oxygen therapy designed for rehabilitation therapy supplies. It is manufactured in SHENZHEN EMENG HEALTH and has a total weight of 52kgs with a machine CTN size of 52*34*65cm.

The EMS02 hyperbaric chamber of oxygen is suitable for a variety of product application occasions and scenarios, including:

Rehabilitation Centers: The EMS02 is perfect for rehabilitation centers as it helps in accelerating the process of recovery from injuries and surgeries. It can be used in the treatment of various conditions such as brain injuries, autism, cerebral palsy, and multiple sclerosis.

Sports Medicine: Athletes can also benefit from the use of the EMS02 chamber. It helps in reducing inflammation, enhancing muscle recovery, and improving athletic performance.

Anti-Aging and Beauty Centers: The hyperbaric chamber of oxygen can also be used in beauty centers to reduce the appearance of fine lines and wrinkles, improve skin texture, and promote overall skin health.

Wellness Centers: The EMS02 can also be used in wellness centers to improve overall health and wellbeing. It can help in reducing stress, boosting the immune system, and enhancing cognitive function.

Home Use: The EMS02 can also be used in homes for personal use. It is easy to set up and use and can help in improving overall health and wellbeing.

The EMS02 also has a pressure reduction time of 15 minutes, making it safe and easy to use. Whether you are looking to improve your overall health and wellbeing, recover from an injury or surgery, or enhance your athletic performance, the O2EMENG HBOT chamber model EMS02 is the perfect solution for you.

Advantages:

The O2EMENG EMS02 model hyperbaric chamber has several significant differences and advantages over traditional hyperbaric chambers:

1. Advanced Technology and Control Systems: The EMS02 model utilizes the latest in hyperbaric technology with a precise oxygen concentration and pressure control system. Traditional hyperbaric chambers may use more basic controls that do not provide the same precise regulation and monitoring capabilities.

2. New Hyperbaric Oxygen Equipment: Intelligent all-in-one machine, unlike traditional equipment, does not require the operation of three machines, Oxygen Equipment + Aerodynamic Equipment + Air Cooler, realizing easy one-button operation and saving time and effort.

3. Comfort and User Experience: The EMS02 model is designed with a more spacious and comfortable interior space, taking into account the patient's comfort and convenience during treatment.

4. Durability and Reliability: The EMS02 model undergoes rigorous quality control and testing to ensure stable operation over long periods of time without frequent maintenance.

5. Technological innovations and safety: The EMS02 model integrates new technological innovations that enhance safety and therapeutic efficacy. It allows for more precise control of oxygen delivery to support medical treatments more effectively.

Support and Services:

The Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that customers have a seamless experience with our product. Our technical support team is available to assist with any queries or issues that may arise during installation, setup, or usage of the product. We also provide regular maintenance and repair services to keep the product in optimal

condition and extend its lifespan. Our services include:

1.Demand customization: according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

2.Exclusive design: the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

3. Craftsmanship Manufacturing: The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

4. Lifetime maintenance: provide perfect professional after-sales service guarantee

We are committed to providing the highest level of support and services to our customers to ensure their satisfaction with our Hyperbaric Oxygen Chamber product.

The Use of **Hyperbaric Oxygen Chamber**

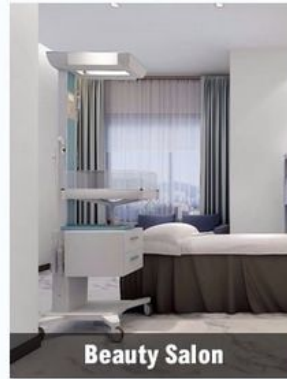

Always prepare at home, say goodbye to sub-health

Family

Clubhouse

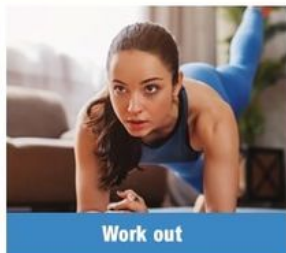

Beauty Salon

Adapt to the crowd

Body easily fatigued

Work out

Working overtime and staying up late

Insomnia patients

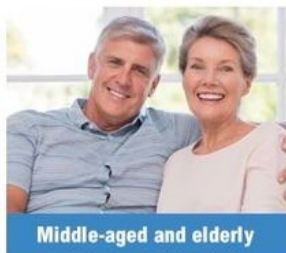

Student population

Beauty-loving skincare crowd

Socializing drunk

Middle-aged and elderly

Sub-healthy population

- Automatic disinfection and deodorization system.
- Built-in double massage chair.
- Inter and external system for two-way communications and control.
- Automatic air pressure control system,
- 4 large transparent viewing windows to prevent claustrophobia.
- Delivers 93% oxygen under pressure via an oxygen headset/facial mask.
- USB charging; warm white light; Scrub and disinfect upholstery.
- Ultra-quiet constant pressure valve.
- Air compressor oxygen concentrator cooler all in one

All In One(AIO)

WHY CHOOSE US

Enterprise core competence

Supply Support

We have passed CE ISO TUV international product quality system certification, and can provide you with the true technical solution for the oxygen generator.

OEM/ODM Technical Support

We provide OEM/ODM services and professional technical support for any customers who send us samples of the products. We will design and develop better ones based on the samples. For every customer we will choose the best fit material and also innovative material for their products.

Service Team

We have a professional customer service team, 24/7 service all day. Able to efficiently, quickly and professionally solve any customer problems.

Quality Safety

We own professional quality management and process inspection team including incoming inspection, semi-finished products inspection, finished product inspection and pre-delivery inspection. Your satisfaction will be our honor.

Professional Registration Department

We have a special professional registration department, which is in charge of domestic registration and overseas registration. We can help our current or potential customers to do the registration work. We have a good relation with domestic famous institute who can provide us with authoritative medical analysis and authorization report.

ONE Stop Supplier

We are a ONE stop supplier, we provide the accessories, device service and even solutions.
