

## 15mins Pressure Reduction Hyperbaric Oxygen Chamber for Rehabilitation

Our Product Introduction

For products please visit us on [oxygenconcentratormedical.com](http://oxygenconcentratormedical.com)

### Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS02
- Minimum Order Quantity: 1PC
- Price: \$2650
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

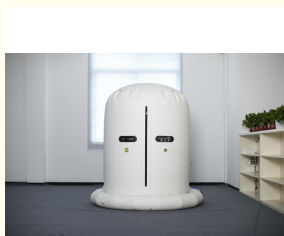

### Product Specification

- Usage: Medical/Therapeutic
- Noise Level: Less Than 63 DB
- Oxygen Concentration:  $\geq 90\%$  (can Be Set)
- Working Pressure: 1.2ATA
- Properties: Rehabilitation Therapy Supplies
- Pressure Reduction Time: 15mins
- Function: Hyperbaric Oxygen Therapy
- Model: EMS02
- Highlight: 1.2ata hyperbaric oxygen chamber, 1.2ata oxygen hyperbaric chamber, medical hyperbaric oxygen chamber

## Product Description

### O2EMENG 15mins Pressure Reduction Hyperbaric Oxygen Chamber for Rehabilitation

#### Product Description:

The O2EMMENG EMS02 model hyperbaric oxygen chamber is an advanced airtight chamber designed for hyperbaric oxygen therapy, which contains excellent craftsmanship and advanced technology, making it a common product in the medical community, homes, clubs, and beauty salons. The chamber utilizes the latest in hyperbaric oxygen technology to provide precisely controlled oxygen concentration and pressure, ensuring that patients receive optimal oxygen therapy results during treatment.

Among other things, the hyperbaric oxygen chamber can improve these symptoms:

1. Asthma, bronchitis, pneumonia, acute carbon monoxide poisoning, post-stroke, cerebral hemorrhage, arteriosclerosis, diabetes, heart disease.
2. Treat Alzheimer's disease, stroke, muscle paralysis, neurological disorders, autism, schizophrenia, headache and migraine.
3. Treat insomnia, improve poor blood circulation and prevent Alzheimer's disease.
4. Therapeutic effect on diabetic retinitis and keratitis.
5. Promote swelling reabsorption stimulation, cell regeneration after micro-integration surgery, promote muscle and bone wound healing.
6. Treatment of traumatic infections, acute soft tissue injuries, ulcers, burns, wounds, fractures, etc.
7. Acne, herpes simplex, herpes zoster, cicatricial alopecia, dermatologic treatment, etc.
8. auxiliary therapeutic effect on infertility, and obvious auxiliary therapeutic effect on postpartum recovery and postpartum restoration.
9. It has obvious therapeutic effect on the rehabilitation of children with congenital cranial nerve defects and congenital brain development problems.
10. Accelerates skin cell repair and regeneration, improves skin cell activity, promotes lipolytic enzyme activity, and reduces body weight.

The EMS02 model is designed not only with medical safety and effectiveness in mind, but also focuses on patient comfort and convenience during treatment. Its spacious interior and user-friendly interface allow for easy monitoring and adjustment by healthcare professionals, ensuring that each patient receives a personalized treatment plan.

In addition, O2EMMENG's EMS02 model hyperbaric chambers are characterized by excellent durability and reliability, and undergo rigorous quality control and testing to ensure stable operation over long periods of time without the need for frequent maintenance.

All in all, the EMS02 model hyperbaric chamber not only embodies the combination of technological innovation and medical care, but also provides healthcare organizations with an efficient and safe oxygen therapy solution, aiming to improve the patient experience and efficacy, which is one of the highlights of modern medical equipment.

#### Features:

**Product Name:** Hyperbaric Oxygen Chamber

**Total Weight:** 52kgs

**Working pressure:** 1.2ATA

**Usage:** Medical/Therapeutic

**Model:** EMS02

**Machine CTN size:** 52\*34\*65cm

**Features:**

Hyperbaric oxygen therapy unit

Compression chamber for hyperbaric oxygen therapy

High-pressure oxygen chamber

#### Technical Parameters:

Product Attribute	Value
Total Weight	52kgs
Pressure Reduction Time	15mins
Working Pressure	1.2ATA
Function	Hyperbaric Oxygen Therapy

Machine CTN Size	52*34*65cm
Oxygen Concentration	≥90%(can Be Set)
Noise Level	Less Than 63 DB
Properties	Rehabilitation Therapy Supplies
Model	EMS02
Usage	Medical/Therapeutic

## Applications:

The oxygen therapy chamber is particularly useful in the rehabilitation therapy supplies field. It can be used to promote healing and recovery from injuries and surgeries, as well as to alleviate symptoms of chronic medical conditions. The hyperbaric oxygen treatment chamber is also used to increase oxygen delivery to the body's tissues, which can help to improve overall health and wellness.

The O2EMENG EMS02 Hyperbaric Oxygen Chamber is manufactured in SHENZHEN EMENG HEALTH and is designed to be easy to use and maintain. The machine's CTN size is 52\*34\*65cm, and the total weight is 52kgs. This makes it a convenient and portable option for medical facilities that require a hyperbaric oxygen chamber for their patients.

The hyperbaric oxygen treatment chamber can be used in a variety of medical settings, including hospitals, clinics, and rehabilitation centers. It is often used to treat conditions such as carbon monoxide poisoning, decompression sickness, and diabetic wounds. The oxygen therapy chamber can also be used to improve cognitive function in patients with traumatic brain injuries and to alleviate symptoms of multiple sclerosis.

Overall, the O2EMENG EMS02 Hyperbaric Oxygen Chamber is a valuable tool in the field of medical and therapeutic rehabilitation. Its ability to provide hyperbaric oxygen therapy in a pressurized environment makes it a versatile and effective option for treating a variety of medical conditions. Whether used in a hospital, clinic, or rehabilitation center, the hyperbaric oxygen treatment chamber can help patients improve their overall health and wellness.

## Advantages:

**Efficient Oxygen Concentration:** O2EMENG provides more than 90% oxygen concentration and can be adjusted to ensure that the user can get enough oxygen supply under high pressure environment, which helps to alleviate the symptoms of high pressure and enhance the safety and comfort of the user.

**QUALITY MATERIALS & DESIGN:** Made with imported Japanese YKK zippers and medical grade TPU materials, these materials not only enhance the durability and reliability of the product, but also ensure its efficient performance and safety under various conditions.

**Rapid Pressure Reduction Time:** Designed to be able to reduce pressure within 15 minutes, this is especially important for users who need to quickly and safely transition from a high-pressure environment to a low-pressure environment, effectively minimizing discomfort and health issues caused by sudden changes in air pressure.

These advantages make the O2EMENG a trusted choice in single-person high-pressure environments, combining an efficient oxygen supply with advanced design materials to provide a safe and comfortable user experience.

## Support and Services:

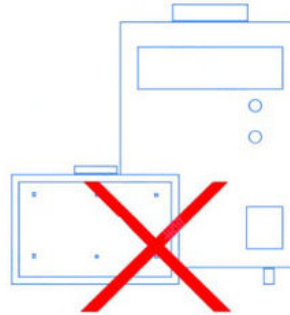

Our Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure optimal performance and safety. Our team of experts is available to assist with any questions or concerns regarding the installation, use, and maintenance of the chamber. We also offer training programs for operators and technicians to ensure proper usage and upkeep of the equipment. Additionally, we provide repair and maintenance services to keep the chamber operating at peak performance. Contact us for more information on our support and services.

# INTEGRATION OF SUPERCHARGING AND OXYGENATION

Overturn the complexity of traditional household

New hyperbaric  
oxygen equipment

Oxygen equipment  
+  
air power system  
+  
Air Cooler

Intelligent All in one machine , no need to  
operate three devices,  
easy one-button operation saves time and effort.

## SPORT & RECOVERY

Hyperbaric Oxygen Therapy is more and more favored by famous athletes all over the world, and they are also a necessary for some sports gyms for helping people recovery faster from hard training.

## BEAUTY & ANTI-AGING

HBOT has been a growing choice of many top actors, actresses, and models, hyperbaric oxygen therapy may be the proverbial "fountain of youth." HBOT promotes cell repair, age spots, saggy skin, wrinkles, poor collagen structure, and skin cell damage by increasing circulation to the most peripheral areas of the body, which is your skin.

## CLINICAL

Your body's tissues need an adequate supply of oxygen to function. When tissue is injured, it requires even more oxygen to survive. Hyperbaric oxygen therapy increases the amount of oxygen your blood can carry. Hyperbaric oxygen therapy for ligament damage, copd, anxiety.

## HOME CARE

For some patients who need long-term hyperbaric oxygen therapy and some sub-healthy people, our suggestion is that they buy hyperbaric oxygen chambers for treatment at home.

# Supercharged Oxygen

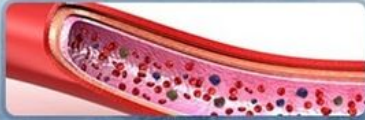

Increase the partial pressure of oxygen in the body.  
The hyperbaric chamber can be raised to 30kpa.

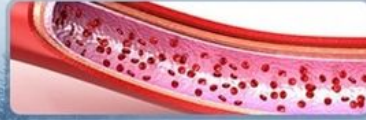

Increase blood oxygen saturation.  
Oxygen intake is equivalent to more than 2 times that of normal breathing.

Increase the oxygen diffusion distance in the body.  
Use the flow of lymph to increase blood flow.

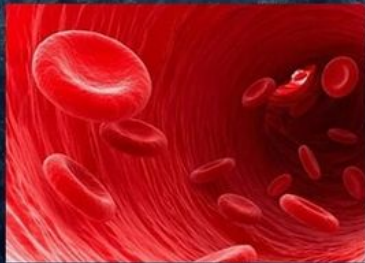

The blood vessel circulation in the human body under normal atmospheric pressure. Various factors impede flow.

Hyperbaric oxygen chamber speeds up human blood vessel circulation, promote blood flow.

Increases the partial pressure of oxygen in the blood, and improves the vascular transport and terminal arrival of oxygen.

Atmospheric Oxygen

At standard atmospheric pressure, blood vessels contain oxygen (atmospheric oxygen)

Supercharged Oxygen

In a hyperbaric oxygen environment, the blood vessels contain oxygen (high concentrations of oxygen)

## Hyperbaric Oxygen Chamber Application Scenarios
