

Therapeutic Grade Hyperbaric Chamber Therapy 1.5ATA - 2.0ATA With 63 DB Noise Level

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMY01
- Minimum Order Quantity: 1PC
- Price: \$24000
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Cabin Size: 185*88*152CM
- Noise Level: Less Than 63 DB
- Cabin Weight: 1000KGS
- Working Pressure: 1.5-2.0ATA adjustable
- Properties: Rehabilitation Therapy Supplies
- Usage: Medical/Therapeutic
- Function: Hyperbaric Oxygen Therapy
- Model: EMY01
- Highlight: **Therapeutic Hyperbaric Chamber Therapy, Hyperbaric Chamber Therapy 1.5ATA**

Product Description

O2EMENG Therapeutic Grade Hyperbaric Chamber EMY01 With 1000 KGS Cabin Weight / 63 DB Noise Level

Product Description:

With an oxygen concentration of $\geq 90\%$, which can be easily adjusted to suit individual needs, this oxygen therapy chamber is perfect for medical/therapeutic use. The compression chamber for hyperbaric oxygen therapy is one of the most effective ways to deliver oxygen to the body, and this product is an excellent example of that.

The Hyperbaric Oxygen Chamber - Model EMY01 is a rehabilitation therapy supply that is perfect for hospitals, clinics, and rehabilitation centers. The cabin size of 185*88*152CM provides ample space for patients to comfortably relax during their therapy sessions.

This high-pressure oxygen chamber is perfect for those with a variety of conditions, including but not limited to, autism, brain injuries, cerebral palsy, multiple sclerosis, and stroke.

Our Product Introduction

The Hyperbaric Oxygen Chamber - Model EMY01 is easy to use and provides a safe and effective way to deliver oxygen to the body. Patients can simply enter the chamber and relax while the oxygen therapy does its work. The chamber is equipped with a variety of safety features to ensure the patient's well-being during the therapy session.

If you're looking for a reliable and effective oxygen therapy chamber, look no further than the Hyperbaric Oxygen Chamber - Model EMY01. It is the perfect solution for those looking to improve their health and well-being through the use of hyperbaric oxygen therapy.

Features:

Product Name: Hyperbaric Oxygen Chamber

Cabin Size: 185*88*152CM

Noise Level: Less Than 63 DB

Model: EMY01

Properties: Rehabilitation Therapy Supplies

Usage: Medical/Therapeutic

Keywords: Hyperbaric pressure chamber, Hyperbaric oxygen treatment chamber, HBOT chamber

Technical Parameters:

Noise Level	Less Than 63 DB
Cabin Weight	1000KGS
Model	EMY01
Cabin Size	185*88*152CM
Oxygen Concentration	≥90%(can Be Set)
Function	Hyperbaric Oxygen Therapy
Usage	Medical/Therapeutic
Properties	Rehabilitation Therapy Supplies
Working Pressure	1.5-2.0ATA(adjustable)

This is a pressurized oxygen chamber, also known as an oxygen therapy chamber or a hyperbaric pressure chamber. It is used for hyperbaric oxygen therapy for medical and therapeutic purposes.

Applications:

Hyperbaric Oxygen Therapy is a medical treatment that involves breathing in pure oxygen in a pressurized environment. This therapy is known to accelerate healing and is widely used to treat various medical conditions. The O2EMENG EMY01 Hyperbaric Oxygen Chamber is the perfect tool for medical professionals looking to provide this therapy to their patients.

The EMY01 model is a top-of-the-line Hyperbaric pressure chamber that can be easily set up in any medical facility. The Cabin size is 185*88*152cm, making it compact enough to fit in most rooms. The oxygen concentration in this chamber is set at a minimum of 90% and can be adjusted to suit individual needs.

The O2EMENG EMY01 Hyperbaric Oxygen Chamber is ideal for a range of applications. It can be used in hospitals, clinics, and rehabilitation centers to provide Hyperbaric Oxygen Therapy to patients suffering from various medical conditions. This decompression chamber for oxygen therapy is also perfect for athletes seeking to speed up their recovery time after an injury.

The EMY01 model is a Rehabilitation Therapy Supply that is guaranteed to provide exceptional results. It is easy to use and provides a safe and effective way to administer Hyperbaric Oxygen Therapy. Whether you are a medical professional looking to provide the best care to your patients or an athlete looking to recover faster, the O2EMENG EMY01 Hyperbaric Oxygen Chamber is the perfect tool for you.

Support and Services:

The Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that customers have a seamless experience with our product. Our technical support team is available to assist with any queries or issues that may arise during installation, setup, or usage of the product. We also provide regular maintenance and repair services to keep the product in optimal

condition and extend its lifespan. Our services include:

1.Demand customization: according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

2.Exclusive design: the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

3. Craftsmanship Manufacturing: The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

4. Lifetime maintenance: provide perfect professional after-sales service guarantee

We are committed to providing the highest level of support and services to our customers to ensure their satisfaction with our Hyperbaric Oxygen Chamber product.

HARD TYPE HYPERBARIC OXYGEN CHAMBER

Innovative technology, quality assurance

The diagram shows a black, capsule-shaped hyperbaric oxygen chamber with a circular viewing window and a control panel on the side. The brand name 'O2EMENG' is printed in blue on the front. Three callout points are connected to the chamber by a blue line:

-  The cabin door is made of aviation PC material
-  Multiple safety technologies
One-button pressure relief protection system during power outage
-  AI intelligent voice control system

WHY ARE MORE AND MORE PEOPLE CHOOSING HYPERBARIC OXYGEN CHAMBERS?

In some parts of the body, the capillaries are so narrow that blood cells cannot pass through them, bound oxygen cannot reach them, and they can only rely on dissolved oxygen. The oxygen generator has little change in the dissolved oxygen in the blood, which is also the reason why the ordinary oxygen absorption effect in the plateau area is general.

CHAMBER CAPSULE DESCRIPTION

1. Automatic digital display real-time temperature, humidity, oxygen purity and pressure.
2. Rotary timer system, use of time can be pressed in advance Multiple noise reduction technology.
3. Excellent Silence performance, the noise is $\leq 63\text{dB}$. Offer you a peaceful experience environment.
4. Double pressure relief device Spiral step less super smooth rotary valve. Spiral ergonomic hand-held design. Pressure relief is smoother and more convenient. Internal and external two-way integrated polycarbonate valve. One valve, two-way operation.
5. Automatic pressurize relief valves
Two automatic high precision constant pressure valve. Ensure the product is safe and effective by Aluminum alloy steel, high hardness, wear resistance.
6. Communicating system.
Intercom telephone is convenient for users to talk with operator outside.
7. Machine start-up protection system.
The chamber only can be turned on when the chamber door is completely closed, avoiding the danger of the door being left unlocked.
8. Automatic pressurize and depressurize system.
Based on the principle of "Cylinder (engine)", Pressurize automatically after the door is completely closed.
9. Made by Aluminum alloy steel; With environmental spray paint;
Strong weight bearing capacity, Durable and wear-resistant; non-deformable; long lifespan.
10. In case of unexpected power failure, the door can be opened by emergency safety from inside the chamber.
