

O2EMENG Quiet Less Than 63 DB 1.3ATA Portable Hyperbaric Chamber

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS04
- Minimum Order Quantity: 1PC
- Price: \$2350
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Working Pressure: 1.3ATA
- Machine CTN Size: 52*34*65cm
- Noise Level: Less Than 63 DB
- Properties: Rehabilitation Therapy Supplies
- Oxygen Concentration: $\geq 90\%$ (can Be Set)
- Function: Hyperbaric Oxygen Therapy
- Total Weight: 52kgs
- Model: EMS04
- Highlight: 1.3ata portable hyperbaric chamber, quiet portable hyperbaric chamber, quiet portable hyperbaric oxygen chamber

Product Description

O2EMENG Quiet Less Than 63 DB 1.3ATA Portable Hyperbaric Chamber

Product Description:

With a working pressure of 1.3ATA, this HBOT Chamber is capable of delivering a high concentration of oxygen to the body. The oxygen concentration can be set to a minimum of 90%, ensuring that the patient receives a sufficient amount of oxygen to promote healing.

The machine CTN size of 52*34*65cm makes this HBOT Chamber compact and easy to store, without taking up too much space. The model of this HBOT Chamber is EMS04, which is a high-quality and reliable model that is trusted by medical professionals around the world.

As a Rehabilitation Therapy Supply, this HBOT Chamber is commonly used to treat a variety of conditions, including diabetic wounds, radiation injuries, carbon monoxide poisoning, and more. The oxygen therapy provided by this chamber can help to reduce inflammation, promote tissue regeneration, and enhance the body's natural healing process.

If you are looking for a high-quality and reliable HBOT Chamber for your medical practice or rehabilitation center, the Hyperbaric Oxygen Chamber is an excellent choice. With its compact size, high working pressure, and adjustable oxygen concentration, this chamber is designed to help patients recover quickly and effectively.

Technical Parameters:

Model	EMS04
Noise Level	Less Than 63 DB
Usage	Medical/Therapeutic
Function	Hyperbaric Oxygen Therapy
Working pressure	1.3ATA
Total Weight	52kgs
Properties	Rehabilitation Therapy Supplies
Machine CTN size	52*34*65cm
Oxygen concentration	≥90%(can Be Set)

This product is a compression chamber for hyperbaric oxygen therapy, also known as an oxygen therapy chamber or a decompression chamber for oxygen therapy.

Applications:

This hyperbaric pressure chamber is suitable for a variety of occasions and scenarios, including:

Sports medicine: Athletes may use the hyperbaric oxygen chamber to recover from injuries or improve their endurance.

Wound healing: Hyperbaric oxygen therapy can help speed up the healing process for wounds, including diabetic ulcers and burns.

Anti-aging: The increased oxygen levels in the body can help improve skin health and reduce the signs of aging.

Neurological conditions: Hyperbaric oxygen therapy may benefit individuals with conditions such as stroke, traumatic brain injury, and multiple sclerosis.

Cancer treatment: Some cancer patients may use hyperbaric oxygen therapy to reduce the side effects of radiation therapy.

Diving accidents: Divers who suffer from decompression sickness may benefit from hyperbaric oxygen therapy.

The O2EMENG EMS04 Hyperbaric Oxygen Chamber has a working pressure of 1.3ATA, which allows for a safe and effective hyperbaric oxygen therapy session. Whether it's for medical or wellness purposes, this hyperbaric pressure chamber can provide a range of benefits.

Advantage:

HIGH OXYGEN CONCENTRATION: The O2EMENG's adjustable oxygen concentration of 90% or more ensures that the user receives an adequate supply of oxygen even in high pressure environments, helping to alleviate the discomforts of altitude sickness or other low oxygen environments.

RAPID PRESSURE REDUCTION: The design of the O2EMENG allows it to rapidly reduce pressure within 15 minutes, effectively helping the user to adapt to changes in high pressure environments and minimizing or avoiding physical discomfort caused by pressure changes.

HIGH QUALITY MATERIALS: The O2EMENG is manufactured with YKK medical grade nylon zippers and medical grade TPU

materials imported from Japan to ensure durability and safety.

PORTABLE AND COMFORTABLE: Designed for single person use, it is easy to carry and equipped with a metal stand, which makes O2EMENG stable in different environments and provides users with a comfortable high-pressure experience.

These advantages make the O2EMENG a safe and reliable choice in high voltage environments for users who need to enter high voltage environments for long periods of time or frequently.

Support and Services:

The Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that you get the most out of your investment. Our team of experienced technicians and engineers are available to provide support and assistance whenever you need it.

Our technical support services include:

1.Demand customization: according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

2.Exclusive design: the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

3. Craftsmanship Manufacturing: The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

4. Lifetime maintenance: provide perfect professional after-sales service guarantee

At Hyperbaric Oxygen Chamber, we are committed to providing the highest level of support and service to our customers. Contact us today to learn more about our technical support and services.
