## Rehabilitation Therapy Hyperbaric Oxygen Chambers With Less Than 63 DB Quiet Operation

### Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS04
- Minimum Order Quantity: 1PC
- Price: \$3750
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

### Product Specification

- Working Pressure: 1.3-1.5ATA (can Be Set)
- Oxygen Concentration:  $\geq 90\%$  (can Be Set)
- Total Weight: 83kgs
- Properties: Rehabilitation Therapy Supplies
- Machine CTN Size: 127\*55\*105cm
- Function: Hyperbaric Oxygen Therapy
- Usage: Medical/Therapeutic
- Noise Level: Less Than 63 DB
- Highlight: quiet hyperbaric oxygen chamber,  
quiet oxygen hyperbaric chamber,  
1.5ata hyperbaric oxygen chamber

## Product Description

### Rehabilitation Therapy Hyperbaric Oxygen Chambers With Less Than 63 DB Quiet Operation

#### Product Description:

The machine is equipped with a high-quality oxygen concentrator that can maintain an oxygen concentration of  $\geq 90\%$  which is necessary for the treatment. The oxygen concentration can also be set according to the patient's needs and medical condition.

The Hyperbaric Oxygen Chamber EMS04 works by pressurizing the oxygen chamber to a working pressure of 1.3-1.5ATA. This pressure is adjustable and can be set according to the patient's condition. The pressurized oxygen chamber allows the patient to breathe in pure oxygen at a higher concentration which in turn increases the amount of oxygen dissolved in the blood plasma. This increase in the oxygen level in the blood helps to improve the body's natural healing process by promoting the growth of new blood vessels, reducing inflammation, and stimulating the immune system.

The Hyperbaric Oxygen Chamber EMS04 is designed with the patient's comfort in mind. It is spacious and well ventilated, ensuring that the patient does not feel claustrophobic during treatment. The machine is also equipped with an air conditioning system that keeps the temperature inside the chamber at a comfortable level.

The Hyperbaric Oxygen Chamber EMS04 is compact and easy to use. The machine CTN size is 127\*55\*105cm, making it easy to transport and store. The machine is also equipped with a user-friendly control panel that allows the operator to set the working pressure and oxygen concentration with ease.

In conclusion, the Hyperbaric Oxygen Chamber EMS04 is a top-of-the-line decompression chamber for oxygen therapy that is highly effective in treating a wide range of medical conditions. Its ability to provide hyperbaric oxygen therapy in a safe and comfortable environment makes it a popular choice for hospitals, clinics, and private practices. If you are looking for a reliable and effective hyperbaric oxygen therapy unit, the Hyperbaric Oxygen Chamber EMS04 is definitely worth considering.

#### Technical Parameters:

Product Attribute Technical Parameter Oxygen concentration  $\geq 90\%$ (can Be Set) Properties Rehabilitation Therapy Supplies Noise Level Less Than 63 DB Working pressure 1.3-1.5ATA (can Be Set) Machine CTN size 127\*55\*105cm Model EMS04 Function Hyperbaric Oxygen Therapy Total Weight 83kgs Usage Medical/Therapeutic

#### Applications:

This hyperbaric pressure chamber is suitable for a variety of occasions and scenarios, including:

**Sports medicine:** Athletes may use the hyperbaric oxygen chamber to recover from injuries or improve their endurance.

**Wound healing:** Hyperbaric oxygen therapy can help speed up the healing process for wounds, including diabetic ulcers and burns.

**Anti-aging:** The increased oxygen levels in the body can help improve skin health and reduce the signs of aging.

**Neurological conditions:** Hyperbaric oxygen therapy may benefit individuals with conditions such as stroke, traumatic brain injury, and multiple sclerosis.

**Cancer treatment:** Some cancer patients may use hyperbaric oxygen therapy to reduce the side effects of radiation therapy.

**Diving accidents:** Divers who suffer from decompression sickness may benefit from hyperbaric oxygen therapy.

The O2EMENG EMS04 Hyperbaric Oxygen Chamber has a working pressure of 1.3ATA, which allows for a safe and effective hyperbaric oxygen therapy session. Whether it's for medical or wellness purposes, this hyperbaric pressure chamber can provide a range of benefits.

#### Advantage:

**Highly Adjustable Oxygen Concentration:** The O2EMENG can be adjusted to ensure that the oxygen concentration reaches or exceeds 90%, adapting to the oxygen needs of different users and ensuring adequate oxygen supply, especially in high-pressure environments.

**Rapid Decompression Function:** The design allows O2EMENG to quickly reduce pressure within 5-10 minutes, effectively reducing the discomfort caused by high-pressure environments, and improving the user's adaptability and comfort.

**Intelligent Dual Screen Control System:** The O2EMENG is equipped with a dual screen intelligent control system, which provides a more convenient operating interface and function selection, allowing users to easily control and monitor various parameters during use.

**High-quality materials and design:** Imported from Japan, the O2EMENG is made of YKK medical-grade zippers and medical-grade TPU materials to ensure the durability and safety of the product. It is also equipped with metal bracket and customizable shell color to enhance the practicality and aesthetics of the product.

These advantages make the O2EMENG a safe and reliable choice in high-pressure environments, suitable for users who enter high-pressure environments for long periods of time or frequently, providing a comfortable and convenient experience.

## Support and Services:

The Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that you get the most out of your investment. Our team of experienced technicians and engineers are available to provide support and assistance whenever you need it.

Our technical support services include:

**1.Demand customization:** according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

**2.Exclusive design:** the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

**3. Craftsmanship Manufacturing:** The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

**4. Lifetime maintenance:** provide perfect professional after-sales service guarantee

At Hyperbaric Oxygen Chamber, we are committed to providing the highest level of support and service to our customers. Contact us today to learn more about our technical support and services.

## APPLICATION OF HYPERBARIC OXYGEN THERAPY

### Beauty & wellness:

HBOT helps rejuvenate your skin. During a hyperbaric oxygen therapy session inside a pressurized chamber, the body receives pure oxygen at higher atmospheric pressure to boost the flow of oxygen into the circulatory systems.

### Sports:

HBOT for professional sports has become one of the most effective methods for athlete recovery. Supplementing oxygen intake at higher atmospheric pressure inside a hyperbaric chamber is known to naturally accelerate healing times to treat sports injuries and allow injured athletes to recover faster and reduce the risk of re-injury.

### Wounds and burns:

Healing Wounds need oxygen to heal naturally and hyperbaric oxygen therapy has been successfully used as complementary therapy for wound healing. Used as complementary treatment, Hyperbaric Oxygen Therapy can help decrease mortality and reduce the need for surgery for mild to severely burned patients.

### Anti-aging:

Hyperbaric Oxygen Therapy for Elderly Patients Inside the hyperbaric chamber, a patient will absorb oxygen close to four times the normal breathing conditions. Oxygen controls most of the body's processes, including the immune system. Lack of oxygen can lead to a vulnerable immune response, increased fatigue and eventually hypoxia.

# INTEGRATION OF SUPERCHARGING AND OXYGENATION

Overtun the complexity of traditional household

New hyperbaric  
oxygen equipment

Oxygen equipment  
+  
air power system  
+  
Air Cooler

Intelligent All in one machine , no need to  
operate three devices,  
easy one-button operation saves time and effort.

## Our certificate

We present the strong quality commitment and we have gone through hard work to be able to offer this health equipment at an accessible price for the first time in the world.
