

Complete Hyperbaric Oxygen Chamber for Rehabilitation

Our Product Introduction

For more products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS01
- Minimum Order Quantity: 1PC
- Price: \$2350
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Properties: Rehabilitation Therapy Supplies
- Function: Hyperbaric Oxygen Therapy
- Oxygen Concentration: $\geq 90\%$ (can Be Set)
- Total Weight: 52kgs
- Noise Level: Less Than 63 DB
- Working Pressure: 1.3ATA
- Usage: Medical/Therapeutic
- Machine CTN Size: 52*34*65cm
- Highlight: 52kgs hyperbaric oxygen chamber, 52kgs oxygen hyperbaric chamber, 1.3ata hyperbaric oxygen chamber

Product Description

Complete Hyperbaric Oxygen Chamber for Rehabilitation

Product Description:

With a machine CTN size of 52*34*65cm, the EMS01 Hyperbaric Oxygen Therapy Unit is perfect for use in medical and therapeutic settings. Whether you're a healthcare professional looking to offer your patients the benefits of hyperbaric oxygen therapy or an individual seeking a way to improve your overall health and wellbeing, this oxygen therapy chamber is the perfect solution.

One of the standout features of the EMS01 Hyperbaric Oxygen Therapy Unit is its ability to deliver oxygen concentrations of at least 90%. This means that patients can receive the maximum benefits of hyperbaric oxygen therapy - including improved circulation, increased oxygenation to tissues and organs, and enhanced healing and recovery.

When it comes to hyperbaric oxygen therapy, the EMS01 Hyperbaric Oxygen Therapy Unit is the gold standard. Its advanced design and functionality make it the perfect choice for healthcare professionals and individuals alike. Whether you're looking to treat a medical condition or simply improve your overall health and wellbeing, this oxygen therapy chamber has everything you need to succeed.

Technical Parameters:

Noise Level	Less Than 63 DB
Working Pressure	1.3ATA
Oxygen Concentration	≥90%(can Be Set)
Usage	Medical/Therapeutic
Model	EMS01
Function	Hyperbaric Oxygen Therapy
Properties	Rehabilitation Therapy Supplies
Machine CTN Size	52*34*65cm
Total Weight	52kgs

This is a high-pressure oxygen chamber, also known as a decompression chamber for oxygen therapy or HBOT chamber.

Applications:

Hyperbaric Oxygen Therapy is a medical treatment that involves breathing in pure oxygen in a pressurized environment. This therapy is known to accelerate healing and is widely used to treat various medical conditions. The O2EMENG EMS01 Hyperbaric Oxygen Chamber is the perfect tool for medical professionals looking to provide this therapy to their patients.

The EMS01 model is a top-of-the-line Hyperbaric pressure chamber that can be easily set up in any medical facility. The machine CTN size is 52*34*65cm, making it compact enough to fit in most rooms. The oxygen concentration in this chamber is set at a minimum of 90% and can be adjusted to suit individual needs.

The O2EMENG EMS01 Hyperbaric Oxygen Chamber is ideal for a range of applications. It can be used in hospitals, clinics, and rehabilitation centers to provide Hyperbaric Oxygen Therapy to patients suffering from various medical conditions. This decompression chamber for oxygen therapy is also perfect for athletes seeking to speed up their recovery time after an injury.

The EMS01 model is a Rehabilitation Therapy Supply that is guaranteed to provide exceptional results. It is easy to use and provides a safe and effective way to administer Hyperbaric Oxygen Therapy. Whether you are a medical professional looking to provide the best care to your patients or an athlete looking to recover faster, the O2EMENG EMS01 Hyperbaric Oxygen Chamber is the perfect tool for you.

Advantage:

Adjustable Oxygen Concentration: O2EMENG provides an adjustable oxygen concentration that is guaranteed to be at least 90%, which is able to meet the oxygen needs of different users in high-pressure environments, and improves physical adaptability and comfort.

Rapid Decompression Design: The design allows O2EMENG to rapidly reduce pressure within 15 minutes, effectively minimizing the discomfort caused by high-pressure environments and helping users to quickly adapt to changes in the environment.

QUALITY MATERIALS AND MANUFACTURING: The O2EMENG is manufactured with YKK medical grade zippers and medical grade TPU materials imported from Japan to ensure the durability and safety of the product, allowing it to operate stably in a variety of environments.

PORTABLE DESIGN AND METAL STAND: Designed for single use and equipped with a metal stand, O2EMENG is more stable and convenient to carry and use, which is suitable for outdoor activities or prolonged use in high-pressure environments.

These advantages make the O2EMENG a safe, reliable, easy-to-operate, and comfortable choice for high-pressure environments, suitable for users who need to enter high-pressure environments for long periods of time or frequently.

Support and Services:

The Hyperbaric Oxygen Chamber is a medical device designed to deliver pure oxygen to a patient's pulmonary system while they are inside a pressurized chamber. This treatment can be used to help heal a variety of conditions, including carbon monoxide poisoning, decompression sickness, and non-healing wounds.

Our team of technical support specialists is available to assist with any questions or concerns regarding the operation and maintenance of the Hyperbaric Oxygen Chamber. We also offer a range of services, including installation, training, and repair, to ensure that your device is always functioning at optimal levels.

APPLICATION OF HYPERBARIC OXYGEN THERAPY

Beauty & wellness:

HBOT helps rejuvenate your skin. During a hyperbaric oxygen therapy session inside a pressurized chamber, the body receives pure oxygen at higher atmospheric pressure to boost the flow of oxygen into the circulatory systems.

Sports:

HBOT for professional sports has become one of the most effective methods for athlete recovery. Supplementing oxygen intake at higher atmospheric pressure inside a hyperbaric chamber is known to naturally accelerate healing times to treat sports injuries and allow injured athletes to recover faster and reduce the risk of re-injury.

Wounds and burns:

Healing Wounds need oxygen to heal naturally and hyperbaric oxygen therapy has been successfully used as complementary therapy for wound healing. Used as complementary treatment, Hyperbaric Oxygen Therapy can help decrease mortality and reduce the need for surgery for mild to severely burned patients.

Anti-aging:

Hyperbaric Oxygen Therapy for Elderly Patients Inside the hyperbaric chamber, a patient will absorb oxygen close to four times the normal breathing conditions. Oxygen controls most of the body's processes, including the immune system. Lack of oxygen can lead to a vulnerable immune response, increased fatigue and eventually hypoxia.

Adapt to the crowd

Our certificate

We present the strong quality commitment and we have gone through hard work to be able to offer this health equipment at an accessible price for the first time in the world.
