

EMS01 Medical Therapeutic Hyperbaric chamber of oxygen As Treatment Solution

Our Product Introduction

For more products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS01
- Minimum Order Quantity: 1PC
- Price: \$2350
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

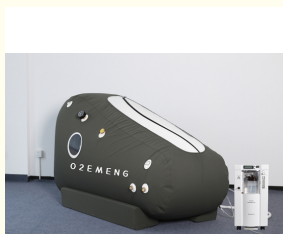

Product Specification

- Total Weight: 52kgs
- Function: Hyperbaric Oxygen Therapy
- Machine CTN Size: 52*34*65cm
- Usage: Medical/Therapeutic
- Model: EMS01
- Working Pressure: 1.3ATA
- Noise Level: Less Than 63 DB
- Oxygen Concentration: $\geq 90\%$ (can Be Set)
- Highlight: medical hyperbaric oxygen chamber, medical oxygen hyperbaric chamber, therapeutic hyperbaric oxygen chamber

Product Description

EMS01 Medical Therapeutic Hyperbaric chamber of oxygen As Treatment Solution

Product Description:

Our Hyperbaric Oxygen Chamber product is designed with a machine CTN size of 52*34*65cm, making it the perfect size for a single patient. It is also equipped with a noise level of less than 63 DB, ensuring a peaceful and comfortable experience for the patient.

This Decompression chamber for oxygen therapy is ideal for those looking for a more effective solution for medical treatment. The machine's total weight of 52kgs makes it easy to move and transport, while the working pressure of 1.3ATA ensures maximum efficiency.

Hyperbaric oxygen therapy unit is perfect for those in need of a more effective oxygen therapy treatment. This product provides an optimal environment for oxygen therapy, allowing patients to experience the full benefits of the treatment.

Our Hyperbaric Oxygen Chamber product is designed to meet the needs of medical professionals and patients alike. It is perfect for those looking for a more effective solution to traditional oxygen therapy.

Experience the benefits of Hyperbaric Oxygen Therapy with our Hyperbaric Oxygen Chamber product today!

Technical Parameters:

Product Attribute	Value
Function	Hyperbaric Oxygen Therapy
Noise Level	Less Than 63 DB
Properties	Rehabilitation Therapy Supplies
Working Pressure	1.3ATA
Total Weight	52kgs
Model	EMS01
Oxygen Concentration	≥90%(can Be Set)
Machine CTN Size	52*34*65cm
Usage	Medical/Therapeutic

Hyperbaric pressure chamber, High-pressure oxygen chamber, Hyperbaric oxygen treatment chamber.

Applications:

The O2EMENG Hyperbaric Oxygen Chamber is a decompression chamber for oxygen therapy that is ideal for use in medical and therapeutic settings. It is a highly effective treatment option for a wide range of medical conditions, including wounds, burns, infections, and more.

This hyperbaric oxygen treatment chamber is designed to provide a highly pressurized environment that enables the body to absorb more oxygen than it normally would. This process is known as hyperbaric oxygen therapy (HBOT), and it is an extremely effective way to promote healing and improve overall health and wellbeing.

The O2EMENG Hyperbaric Oxygen Chamber is a top-performing hyperbaric oxygen therapy unit that is designed to provide maximum benefit to patients. It is equipped with a range of features that make it easy to use and highly effective, including a noise level of less than 63 DB and a total weight of 52kgs.

This product is ideal for use in a wide range of medical and therapeutic settings, including hospitals, clinics, and rehabilitation centers. It is a highly effective way to promote healing and improve overall health and wellbeing, and it is a must-have for anyone looking to provide top-quality care to their patients.

Advantage:

Adjustable Oxygen Concentration: O2EMENG provides an adjustable oxygen concentration that is guaranteed to be at least 90%, which is able to meet the oxygen needs of different users in high-pressure environments, and improves physical adaptability and comfort.

Rapid Decompression Design: The design allows O2EMENG to rapidly reduce pressure within 15 minutes, effectively minimizing the discomfort caused by high-pressure environments and helping users to quickly adapt to changes in the environment.

QUALITY MATERIALS AND MANUFACTURING: The O2EMENG is manufactured with YKK medical grade zippers and medical grade TPU materials imported from Japan to ensure the durability and safety of the product, allowing it to operate stably in a variety of

environments.

PORTABLE DESIGN AND METAL STAND: Designed for single use and equipped with a metal stand, O2EMENG is more stable and convenient to carry and use, which is suitable for outdoor activities or prolonged use in high-pressure environments.

These advantages make the O2EMENG a safe, reliable, easy-to-operate, and comfortable choice for high-pressure environments, suitable for users who need to enter high-pressure environments for long periods of time or frequently.

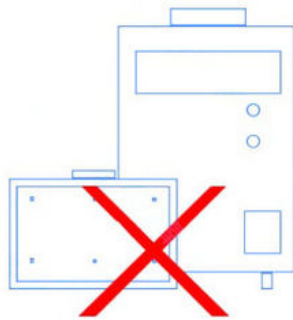

Support and Services:

Our Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that you have a hassle-free experience. Our team of experts is available to answer any questions you may have about the product and its usage. We offer installation and training services to ensure that the product is set up correctly and that you are familiar with all of its features. In addition, we provide maintenance and repair services to keep your Hyperbaric Oxygen Chamber in top condition. Our goal is to provide you with the best possible experience with our product, and we are committed to ensuring that you are completely satisfied with your purchase.

Sub-healthy population

SPORT & RECOVERY

Hyperbaric Oxygen Therapy is more and more favored by famous athletes all over the world, and they are also a necessary for some sports gyms for helping people recovery faster from hard training.

BEAUTY & ANTI-AGING

HBOT has been a growing choice of many top actors, actresses, and models, hyperbaric oxygen therapy may be the proverbial "fountain of youth." HBOT promotes cell repair, age spots, saggy skin, wrinkles, poor collagen structure, and skin cell damage by increasing circulation to the most peripheral areas of the body, which is your skin.

CLINICAL

Your body's tissues need an adequate supply of oxygen to function. When tissue is injured, it requires even more oxygen to survive. Hyperbaric oxygen therapy increases the amount of oxygen your blood can carry. Hyperbaric oxygen therapy for ligament damage, copd, anxiety.

HOME CARE

For some patients who need long-term hyperbaric oxygen therapy and some sub-healthy people, our suggestion is that they buy hyperbaric oxygen chambers for treatment at home.
