

1.2ATA Hyperbaric Oxygen Chamber For Rehabilitation Therapy Supplying

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS02
- Minimum Order Quantity: 1PC
- Price: \$2650
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Noise Level: Less Than 63 DB
- Machine CTN Size: 52*34*65cm
- Properties: Rehabilitation Therapy Supplies
- Model: EMS02
- Working Pressure: 1.2ATA
- Oxygen Concentration: ≥90%(can Be Set)
- Function: Hyperbaric Oxygen Therapy
- Total Weight: 52kgs
- Highlight: 1.2ata hyperbaric oxygen chamber,
1.2ata oxygen hyperbaric chamber,
52kgs hyperbaric oxygen chamber

Product Description

1.2ATA Hyperbaric Oxygen Chamber For Rehabilitation Therapy Supplying

Product Description:

With a model number of EMS02, this oxygen therapy chamber is ideal for those who require a high-pressure oxygen chamber for their treatments. The product is designed to operate at a working pressure of 1.2ATA, which is sufficient for most individuals. It is recommended to use this product under the supervision of a medical professional to ensure safety and optimal results.

One of the advantages of using this high-pressure oxygen chamber is that it operates at a low noise level of less than 63 DB. This means that individuals can comfortably use the product without any disturbance or irritation caused by the noise. It is an important feature, especially for those who require prolonged treatments.

The Hyperbaric Oxygen Chamber has been designed to provide hyperbaric oxygen therapy to individuals who require it. This therapy involves breathing pure oxygen in a high-pressure environment, which can help improve the overall health of the individual. With the help of this oxygen therapy chamber, the user can experience increased oxygen levels in their blood, which can help enhance the body's natural healing process.

Individuals suffering from a wide range of health conditions can benefit from the use of this product. Some of the common health conditions that can be treated with hyperbaric oxygen therapy include autism, stroke, traumatic brain injury, and more. It is important to note that this product is not a substitute for medical treatment, and individuals should always consult their healthcare provider before using it.

In conclusion, the Hyperbaric Oxygen Chamber is an excellent product for individuals who require hyperbaric oxygen therapy. It is designed to provide high-pressure oxygen to the user, with a minimum oxygen concentration of 90%. The product operates at a low noise level of less than 63 DB, making it comfortable for prolonged use. It is ideal for individuals suffering from various health conditions.

Technical Parameters:

Product Attribute	Value
Model	EMS02
Working Pressure	1.2ATA
Oxygen Concentration	≥90% (can be set)
Usage	Medical/Therapeutic
Function	Hyperbaric Oxygen Therapy
Noise Level	Less Than 63 DB
Properties	Rehabilitation Therapy Supplies
Total Weight	52kgs
Machine CTN size	52*34*65cm

Applications:

The O2EMENG hyperbaric oxygen chamber model EMS02 is a compression chamber for hyperbaric oxygen therapy. It is an effective and non-invasive way to deliver oxygen to the body's tissues. The EMS02 hyperbaric oxygen treatment chamber can be used in various medical and therapeutic settings and has been proven to be a successful treatment for a range of conditions.

The EMS02 hyperbaric oxygen chamber is manufactured in SHENZHEN EMENG HEALTH and has a working pressure of 1.2ATA. This is an ideal pressure for hyperbaric oxygen therapy as it allows for the oxygen to be delivered at a high enough pressure to be effective but not too high to cause any damage.

The oxygen concentration in the EMS02 decompression chamber for oxygen therapy can be set at or above 90%. This ensures that the patient receives a high concentration of oxygen during their treatment, which is vital for the success of hyperbaric oxygen therapy.

The O2EMENG EMS02 hyperbaric oxygen chamber is classified as rehabilitation therapy supplies. It is primarily used in medical and therapeutic settings to treat a range of conditions. Some of the conditions that can be treated with hyperbaric oxygen therapy include but are not limited to:

- Wound healing
- Carbon monoxide poisoning
- Delayed radiation injuries
- Compromised skin grafts and flaps
- Crush injuries and traumatic ischemia

Acute traumatic peripheral ischemia
Acute thermal burn injury
Chronic refractory osteomyelitis
And more

The O2EMENG EMS02 hyperbaric oxygen chamber is easy to use and can be operated by trained medical professionals. It is a safe and effective treatment for a range of conditions and has been used for many years in medical and therapeutic settings. The EMS02 is a reliable and high-quality hyperbaric oxygen chamber that can be used to deliver effective hyperbaric oxygen therapy to patients in need.

Advantage:

EFFICIENT OXYGEN CONCENTRATION & ADJUSTABILITY: The O2EMENG is capable of delivering an oxygen concentration of at least 90% and can be adjusted to suit individual needs. This ability ensures that users have the proper oxygen concentration to support their health needs in a variety of situations.

QUALITY MATERIALS & DURABLE DESIGN: Manufactured with medical grade TPU material combined with imported Japanese YKK zippers to ensure durability and safety. This design not only takes into account the stability of long-term use, but also provides the high quality standards that users have come to expect.

FAST PRESSURE REDUCTION TIME: The O2EMENG features a fast pressure reduction time that takes only 15 minutes to reach the set working pressure. This fast response time allows users to enjoy the benefits of oxygen therapy more quickly, enhancing the usefulness and convenience of the product.

PORTABILITY & COMFORTABLE EXPERIENCE: Designed to be used by a single person and equipped with a metal stand, making the product more stable and easy to carry. In addition, the 5L oxygen generator ensures sufficient oxygen supply and the color of the outer cover can be customized, further adding to the personalization and comfort of the product.

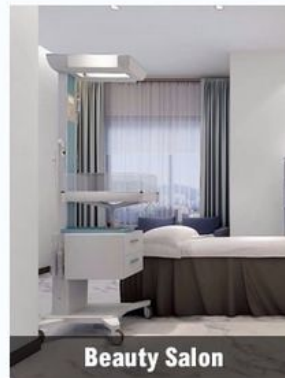

These advantages make O2EMENG a trusted choice for reliable oxygen therapy solutions in both medical settings and for personal use.

Support and Services:

The Hyperbaric Oxygen Chamber product is designed to provide a therapeutic environment where patients can receive oxygen under pressure. Our technical support team is available to assist with any questions or issues related to the operation or maintenance of the chamber. We also offer a range of services to ensure that your chamber is functioning optimally, including regular maintenance and repair, installation and training, and equipment upgrades. Our goal is to provide the highest level of support and service to ensure that your patients receive the best possible care.

The Use of Hyperbaric Oxygen Chamber

Always prepare at home, say goodbye to sub-health

Hyperbaric Oxygen And Anti-aging

Scientists at Tel Aviv University in Israel have targeted the use of a method called "hyperbaric oxygen therapy" to stop the shortening of telomeres and the aggregation of senescent cells as humans age.
