

Medical Grade Hyperbaric chamber of oxygen for Rehabilitation

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS02
- Minimum Order Quantity: 1PC
- Price: \$2650
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

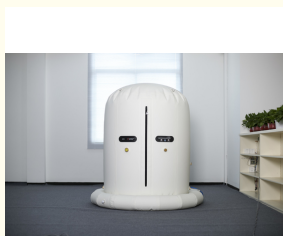

Product Specification

- Usage: Medical/Therapeutic
- Noise Level: Less Than 63 DB
- Function: Hyperbaric Oxygen Therapy
- Oxygen Concentration: $\geq 90\%$ (can Be Set)
- Machine CTN Size: 52*34*65cm
- Working Pressure: 1.2ATA
- Properties: Rehabilitation Therapy Supplies
- Model: EMS02
- Highlight: medical hyperbaric oxygen chamber, medical oxygen hyperbaric chamber, 1.2ata hyperbaric oxygen chamber

Product Description

Medical Grade Hyperbaric chamber of oxygen for Rehabilitation

Product Description:

The Hyperbaric Oxygen Chamber has the ability to deliver oxygen concentrations of at least 90%, which can be set according to the patient's needs. The adjustable oxygen flow rate ensures that patients receive the right amount of oxygen during treatment. This product is a compression chamber that is used for hyperbaric oxygen therapy, which involves breathing in pure oxygen in a pressurized environment. This treatment helps to increase the oxygen levels in the body, which can promote healing and improve overall health.

The Hyperbaric Oxygen Chamber has a machine CTN size of 52*34*65cm, making it compact and easy to store. It has a total weight of 52kgs, which makes it easy to move around and transport. This product is designed to be durable and long-lasting, ensuring that patients receive the best possible treatment experience.

Hyperbaric oxygen treatment chambers are widely used in hospitals and clinics around the world. They are used to treat a variety of health conditions such as carbon monoxide poisoning, decompression sickness, and wound healing. The Hyperbaric Oxygen Chamber is a reliable and effective product that can help improve the quality of life for patients suffering from these conditions.

In conclusion, the Hyperbaric Oxygen Chamber is a high-quality medical product that provides patients with an effective treatment option for various health conditions. It is a compression chamber for hyperbaric oxygen therapy and delivers oxygen concentrations of at least 90%, which can be set according to the patient's needs. With a noise level of less than 63 decibels, it provides a quiet and comfortable environment for patients during treatment. Its compact size and total weight of 52kgs make it easy to transport and store. This product is a must-have for hospitals and clinics that want to provide the best possible care to their patients.

Technical Parameters:

Usage:	Medical/Therapeutic
Function:	Hyperbaric Oxygen Therapy
Properties:	Rehabilitation Therapy Supplies
Model:	EMS02
Total Weight:	52kgs
Working pressure:	1.2ATA
Oxygen concentration:	≥90%(can Be Set)
Machine CTN size:	52*34*65cm
Noise Level:	Less Than 63 DB

Applications:

The primary function of this product is to provide Hyperbaric Oxygen Therapy (HBOT) to patients who suffer from a variety of medical conditions. HBOT is a medical treatment that involves breathing in pure oxygen while inside a pressurized chamber. This therapy can help to promote healing, reduce inflammation, and improve circulation in the body.

The O2EMENG Hyperbaric Oxygen Chamber is suitable for use in a variety of medical and therapeutic settings. It is commonly used in hospitals, clinics, and rehabilitation centers to provide HBOT to patients who are recovering from surgery, injuries, or other medical conditions.

In addition to its medical applications, the O2EMENG Hyperbaric Oxygen Chamber can also be used by athletes and fitness enthusiasts who are looking for a way to improve their performance and speed up their recovery time. This product can help to increase energy levels, reduce fatigue, and promote muscle recovery.

The total weight of this product is 52kgs, making it easy to transport and set up in any location. Its properties as Rehabilitation Therapy Supplies make it a highly effective tool for improving patient outcomes and helping individuals to recover from a variety of medical conditions.

In summary, the O2EMENG Hyperbaric Oxygen Chamber is a versatile and effective product that can be used in a variety of medical and therapeutic settings. Its high-pressure oxygen chamber, Pressurized oxygen chamber, and HBOT chamber attributes make it an excellent choice for anyone looking for a safe and effective way to promote healing and improve their overall health and well-being.

Advantage:

EFFICIENT OXYGEN CONCENTRATION & ADJUSTABILITY: The O2EMENG is capable of delivering an oxygen concentration of at least 90% and can be adjusted to suit individual needs. This ability ensures that users have the proper oxygen concentration to support

their health needs in a variety of situations.

QUALITY MATERIALS & DURABLE DESIGN: Manufactured with medical grade TPU material combined with imported Japanese YKK zippers to ensure durability and safety. This design not only takes into account the stability of long-term use, but also provides the high quality standards that users have come to expect.

FAST PRESSURE REDUCTION TIME: The O2EMENG features a fast pressure reduction time that takes only 15 minutes to reach the set working pressure. This fast response time allows users to enjoy the benefits of oxygen therapy more quickly, enhancing the usefulness and convenience of the product.

PORTABILITY & COMFORTABLE EXPERIENCE: Designed to be used by a single person and equipped with a metal stand, making the product more stable and easy to carry. In addition, the 5L oxygen generator ensures sufficient oxygen supply and the color of the outer cover can be customized, further adding to the personalization and comfort of the product.

These advantages make O2EMENG a trusted choice for reliable oxygen therapy solutions in both medical settings and for personal use.

Support and Services:

The Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that customers have a seamless experience with our product. Our technical support team is available to assist with any queries or issues that may arise during installation, setup, or usage of the product. We also provide regular maintenance and repair services to keep the product in optimal

condition and extend its lifespan. Our services include:

1.Demand customization: according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

2.Exclusive design: the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

3. Craftsmanship Manufacturing: The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

4. Lifetime maintenance: provide perfect professional after-sales service guarantee

We are committed to providing the highest level of support and services to our customers to ensure their satisfaction with our Hyperbaric Oxygen Chamber product.

APPLICATION OF HYPERBARIC OXYGEN THERAPY

Beauty & wellness:

HBOT helps rejuvenate your skin. During a hyperbaric oxygen therapy session inside a pressurized chamber, the body receives pure oxygen at higher atmospheric pressure to boost the flow of oxygen into the circulatory systems.

Sports:

HBOT for professional sports has become one of the most effective methods for athlete recovery. Supplementing oxygen intake at higher atmospheric pressure inside a hyperbaric chamber is known to naturally accelerate healing times to treat sports injuries and allow injured athletes to recover faster and reduce the risk of re-injury.

Wounds and burns:

Healing Wounds need oxygen to heal naturally and hyperbaric oxygen therapy has been successfully used as complementary therapy for wound healing. Used as complementary treatment, Hyperbaric Oxygen Therapy can help decrease mortality and reduce the need for surgery for mild to severely burned patients.

Anti-aging:

Hyperbaric Oxygen Therapy for Elderly Patients Inside the hyperbaric chamber, a patient will absorb oxygen close to four times the normal breathing conditions. Oxygen controls most of the body's processes, including the immune system. Lack of oxygen can lead to a vulnerable immune response, increased fatigue and eventually hypoxia.

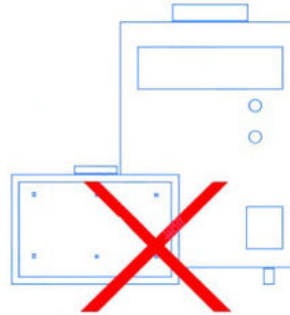

INTEGRATION OF SUPERCHARGING AND OXYGENATION

Overtun the complexity of traditional household

New hyperbaric
oxygen equipment

Oxygen equipment
+
air power system
+
Air Cooler

Intelligent All in one machine , no need to
operate three devices,
easy one-button operation saves time and effort.

Our certificate

We present the strong quality commitment and we have gone through hard work to be able to offer this health equipment at an accessible price for the first time in the world.
