

## Quiet Medical Rehabilitation 1.2-1.4 ATA Hyperbaric Oxygen Chamber With Weight 83kgs

Our Product Introduction

For products please visit us on [oxygenconcentratormedical.com](http://oxygenconcentratormedical.com)

### Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS02
- Minimum Order Quantity: 1PC
- Price: \$4050
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

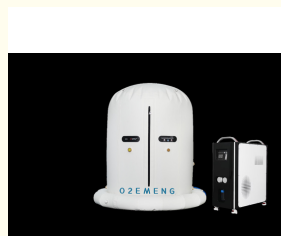

### Product Specification

- Properties: Rehabilitation Therapy Supplies
- Working Pressure: 1.2-1.4 ATA (can Be Set)
- Function: Hyperbaric Oxygen Therapy
- Machine CTN Size: 127\*55\*105cm
- Oxygen Concentration:  $\geq 90\%$  (can Be Set)
- Usage: Medical/Therapeutic
- Model: EMS02
- Total Weight: 83kgs
- Highlight: quiet hyperbaric oxygen chamber,  
quiet oxygen hyperbaric chamber,  
medical hyperbaric oxygen chamber

## Product Description

### Quiet Medical Rehabilitation 1.2-1.4 ATA Hyperbaric Oxygen Chamber With Weight 83kgs

#### Product Description:

With an oxygen concentration of  $\geq 90\%$ , this oxygen therapy chamber can be set to meet the specific needs of the user. This feature makes it an ideal choice for individuals who require personalized oxygen therapy.

As a rehabilitation therapy supply, the EMS02 model is an excellent option for individuals who have sustained injuries or are recovering from surgeries. Using this hyperbaric oxygen chamber can help speed up the healing process and reduce the risk of complications.

The machine CTN size of this hyperbaric pressure chamber is 127\*55\*105cm, which makes it a compact and easy-to-store device. Despite its small size, the EMS02 model is a sturdy and durable oxygen therapy chamber that can withstand regular use and frequent transport.

At a total weight of 83kgs, this pressurized oxygen chamber is heavy enough to remain stable during use, but light enough to be moved around as needed. This feature makes it a versatile and convenient tool for rehabilitation therapists and other healthcare professionals who need to provide hyperbaric oxygen therapy to their patients.

In summary, the EMS02 model is a reliable and effective hyperbaric oxygen chamber that provides personalized oxygen therapy for individuals who require rehabilitation. As a rehabilitation therapy supply, this oxygen therapy chamber is an excellent tool for promoting healing and recovery, reducing the risk of complications, and improving overall health and well-being.

#### Technical Parameters:

Product Attribute	Value
Product Name	Hyperbaric Chamber of Oxygen
Model	EMS02
Working Pressure	1.2-1.4 ATA (can be set)
Noise Level	Less than 63 dB
Properties	Rehabilitation Therapy Supplies
Usage	Medical/Therapeutic
Total Weight	83kgs
Function	Hyperbaric Oxygen Therapy
Oxygen Concentration	$\geq 90\%$ (can be set)
Machine CTN Size	127*55*105cm
Description	A Compression Chamber for Hyperbaric Oxygen Therapy. It is a Hyperbaric Pressure Chamber.

#### Applications:

The HBOT chamber is a decompression chamber for oxygen therapy that is equipped with all the necessary features to make the therapy session comfortable and effective. With a working pressure range of 1.2-1.4 ATA, this machine can be set to provide the desired pressure for the patient. This makes it possible to customize the therapy session according to the patient's needs.

The O2EMENG Hyperbaric Oxygen Chamber is also designed to be easy to use. The machine's noise level is less than 63 DB, making it quiet and unobtrusive. The total weight of the machine is 83kgs, and the machine CTN size is 127\*55\*105cm, making it easy to transport and store.

The Hyperbaric Oxygen Chamber is ideal for use in a variety of medical applications. It can be used to treat conditions such as autism, cerebral palsy, stroke, traumatic brain injury, and much more. The chamber is also suitable for athletes who want to enhance their performance by increasing their oxygen intake.

Overall, the O2EMENG Hyperbaric Oxygen Chamber is an excellent investment for anyone looking to improve their health and wellbeing. With its advanced features, ease of use, and versatility, this machine is sure to provide excellent results for all users.

#### Advantage:

**Efficient and adjustable oxygen concentration:** O2EMENG is able to provide an oxygen concentration of at least 90%, which can be adjusted by the user as needed. This flexibility ensures that users can get the right oxygen concentration in different situations to meet individualized health needs.

**QUALITY MATERIALS & RELIABLE DESIGN:** Made of medical grade TPU material and equipped with imported Japanese YKK zippers to ensure the durability and safety of the product. This design takes into account the importance of long-term stability and user safety, allowing the product to operate reliably in a variety of environments.

**INTELLIGENT DUAL SCREEN CONTROL SYSTEM:** O2EMENG is equipped with a dual-screen intelligent control system that makes operation more intuitive and convenient. Users can easily monitor and adjust oxygen concentration, working pressure and other parameters through these control interfaces, enhancing the convenience and comfort of the experience.

**Large-capacity Oxygen Generator & Portable Design:** Designed for single-person use, it is equipped with a 10L oxygen generator to ensure sufficient oxygen supply. Meanwhile, the product is designed with a metal stand to enhance stability and portability so that users can easily carry and use it in different places and situations. In addition, the color of the outer cover can be customized, providing personalized options and further increasing the attractiveness and practicality of the product.

To summarize, O2EMENG provides users with a reliable and comfortable oxygen therapy solution with its efficient oxygen supply capacity, high quality materials and design, intelligent control system, and convenient use experience.

## Support and Services:

The Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that customers have a seamless experience with our product. Our technical support team is available to assist with any queries or issues that may arise during installation, setup, or usage of the product. We also provide regular maintenance and repair services to keep the product in optimal

condition and extend its lifespan. Our services include:

**1.Demand customization:** according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

**2.Exclusive design:** the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

**3. Craftsmanship Manufacturing:** The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

**4. Lifetime maintenance:** provide perfect professional after-sales service guarantee

We are committed to providing the highest level of support and services to our customers to ensure their satisfaction with our Hyperbaric Oxygen Chamber product.

## Hyperbaric Oxygen Chamber Application Scenarios
