

1.2-1.4 ATA Oxygen therapy chamber for Medical/Therapeutic Rehabilitation Therapy

Our Product Introduction

For more products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS02
- Minimum Order Quantity: 1PC
- Price: \$4050
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

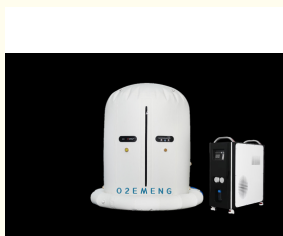

Product Specification

- Total Weight: 83kgs
- Oxygen Concentration: $\geq 90\%$ (can Be Set)
- Model: EMS02
- Working Pressure: 1.2-1.4 ATA (can Be Set)
- Noise Level: Less Than 63 DB
- Usage: Medical/Therapeutic
- Function: Hyperbaric Oxygen Therapy
- Properties: Rehabilitation Therapy Supplies
- Highlight: medical hyperbaric oxygen chamber, medical oxygen hyperbaric chamber, therapeutic hyperbaric oxygen chamber

Product Description

1.2-1.4 ATA Oxygen therapy chamber for Medical/Therapeutic Rehabilitation Therapy

Product Description:

With a noise level of less than 63 DB, this Oxygen Therapy Chamber offers a quiet and peaceful environment for patients to relax and receive the benefits of hyperbaric oxygen therapy. The EMS02 model is designed for medical and therapeutic use and has been developed with the highest quality materials to ensure safe and effective treatment.

Hyperbaric oxygen therapy is a well-established medical treatment that has been used for decades to promote healing and recovery. It involves breathing 100% oxygen in a pressurized environment, which allows the oxygen to dissolve into the body's fluids and tissues at a much higher rate than normal. This increased oxygenation promotes healing and can help with a wide range of medical conditions, including traumatic brain injury, stroke, and chronic wounds.

The EMS02 Hyperbaric Oxygen Treatment Chamber is the perfect solution for those looking to provide their patients with the benefits of hyperbaric oxygen therapy. Its compact design and ease of use make it an ideal choice for medical and therapeutic settings, allowing for easy integration into existing treatment protocols.

So why wait? Order your EMS02 Hyperbaric Oxygen Therapy Unit today and start providing your patients with the cutting-edge treatment they deserve. With its high-quality design and proven effectiveness, the EMS02 Hyperbaric Oxygen Treatment Chamber is the perfect addition to any medical or therapeutic facility.

Technical Parameters:

Noise Level	Less Than 63 DB
Usage	Medical/Therapeutic
Function	Hyperbaric Oxygen Therapy
Machine CTN size	127*55*105cm
Oxygen concentration	≥90%(can Be Set)
Model	EMS02
Total Weight	83kgs
Working pressure	1.2-1.4 ATA (can Be Set)
Properties	Rehabilitation Therapy Supplies

Applications:

Hyperbaric Oxygen Therapy (HBOT) is a well-known treatment for various medical conditions. The EMS02 model is specifically designed to provide a comfortable and effective therapy experience. It is a compression chamber for hyperbaric oxygen therapy that can safely and effectively deliver 100% pure oxygen to patients.

The O2EMENG EMS02 Hyperbaric Oxygen Chamber is suitable for a wide range of medical conditions, including but not limited to:

Non-healing wounds and ulcers
Burn injuries
Carbon monoxide poisoning
Crush injuries and compartment syndrome
Decompression sickness
Gas gangrene
Infections
Multiple sclerosis
Stroke
Autism
And many more

The O2EMENG EMS02 Hyperbaric Oxygen Chamber is a high-quality medical device with a total weight of 83kgs and a machine CTN size of 127*55*105cm. It is designed to be user-friendly, with easy-to-use controls, and has a noise level of less than 63 DB, ensuring a comfortable and quiet therapy experience.

Overall, the O2EMENG EMS02 Hyperbaric Oxygen Chamber is a top choice for anyone in need of hyperbaric oxygen therapy. Whether you are a patient or a healthcare professional, this HBOT chamber is sure to exceed your expectations in terms of quality, functionality, and ease of use.

Advantage:

Efficient and adjustable oxygen concentration: O2EMENG is able to provide an oxygen concentration of at least 90%, which can be adjusted by the user as needed. This flexibility ensures that users can get the right oxygen concentration in different situations to meet individualized health needs.

QUALITY MATERIALS & RELIABLE DESIGN: Made of medical grade TPU material and equipped with imported Japanese YKK zippers to ensure the durability and safety of the product. This design takes into account the importance of long-term stability and user safety, allowing the product to operate reliably in a variety of environments.

INTELLIGENT DUAL SCREEN CONTROL SYSTEM: O2EMENG is equipped with a dual-screen intelligent control system that makes operation more intuitive and convenient. Users can easily monitor and adjust oxygen concentration, working pressure and other parameters through these control interfaces, enhancing the convenience and comfort of the experience.

Large-capacity Oxygen Generator & Portable Design: Designed for single-person use, it is equipped with a 10L oxygen generator to ensure sufficient oxygen supply. Meanwhile, the product is designed with a metal stand to enhance stability and portability so that users can easily carry and use it in different places and situations. In addition, the color of the outer cover can be customized, providing personalized options and further increasing the attractiveness and practicality of the product.

To summarize, O2EMENG provides users with a reliable and comfortable oxygen therapy solution with its efficient oxygen supply capacity, high quality materials and design, intelligent control system, and convenient use experience.

Support and Services:

The Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that customers have a seamless experience with our product. Our technical support team is available to assist with any queries or issues that may arise during installation, setup, or usage of the product. We also provide regular maintenance and repair services to keep the product in optimal

condition and extend its lifespan. Our services include:

1.Demand customization: according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

2.Exclusive design: the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

3. Craftsmanship Manufacturing: The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

4. Lifetime maintenance: provide perfect professional after-sales service guarantee

We are committed to providing the highest level of support and services to our customers to ensure their satisfaction with our Hyperbaric Oxygen Chamber product.
