## Product Description

### Disposable Rapid Antigen Test Kit For SARS-Cov-2 Disease Diagnosis Tests Time just need 15mins

#### Product Description:

The type of test kit we offer is an Antigen Rapid Test, which is a diagnostic test kit that can detect the presence of an antigen in a sample. This type of test is useful in diagnosing infections quickly, as it can provide results in as little as 15 minutes.

These Infectious Disease Rapid Test Kits are ideal for use in a variety of different settings, such as hospitals, clinics, and laboratories. They are easy to use and require minimal training, making them accessible to a wide range of healthcare professionals.

In addition to our Antigen Rapid Test Kits, we also offer a range of other Diagnostic Test Kits, including hiv Test Kits, please to see our websites if you want to buy others . These kits are designed to help diagnose a variety of different conditions quickly and accurately, helping to ensure that patients receive the treatment they need as soon as possible.

#### Technical Parameters:
