### Basic Information

- Place of Origin: china
- Brand Name: DVOT
- Certification: CE/ISO
- Model Number: 6 IN 1
- Minimum Order Quantity: 720 test
- Price: 1.2 1.5USD
- Packaging Details: 720T/PERCTNWeight:17.8KGS  
CTNSIZE:53\*50\*43CM
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 1000000pcs

### Product Specification

- Type: Rapid Test Kit
- Result Time: 15 Minutes To Get
- Certifications: CE ISO
- Time Of Use: Disposable
- Accuracy: 98%
- Keyword: Antigen Rapid Test
- Test Time: 15 Minutes
- Highlight: ce clungene antigen rapid test,  
ce medical diagnostic test kits,  
disposable clungene antigen rapid test

### Product Description

#### Certified Home Antigen Rapid Test Kits - 15 Minute Results With 98% Accuracy

##### Product Description:

With the Antigen Rapid Test, you can get fast and accurate results without the need for laboratory testing. This test is easy to use and can be performed by healthcare professionals or trained individuals at home. The test kit comes with all the necessary components, including a swab, reagents, and instructions for use.

The Antigen Rapid Test is CE and ISO certified, ensuring that it meets the highest standards of quality and safety. This certification guarantees that the test kit has undergone rigorous testing and meets the required standards for accuracy and reliability.

Antigen Rapid Testing Kits are commonly used to diagnose infectious diseases such as COVID-19. The test works by detecting the presence of a specific antigen that is associated with the disease. If the test is positive, it means that the patient has the disease, and appropriate treatment can be administered.

The Antigen Rapid Test is an essential tool in the fight against COVID-19. It is a quick and accurate way to diagnose the disease and ensure timely treatment. This test is also an effective way to prevent the spread of the disease by identifying infected individuals and

Our Product Introduction

isolating them from others.

#### Technical Parameters:

Product Attribute	Value
Certifications	CE, ISO
Type	Rapid Test Kit
Keyword	Antigen Rapid Test
Infectious Disease Rapid Test Kits	Yes
Antibody Rapid Test Kit	No
Covid 19 Test Kits	Yes
Test Time	15 Minutes
Result Time	15 Minutes to get
Accuracy	98%
Time of Use	Disposable

#### Applications:

These test kits are designed to be used in a wide variety of medical settings, including hospitals, clinics, and doctor's offices. They can be used to diagnose a number of different conditions, including infections, diseases, and other health issues.

The DOVT 6 IN 1 Antigen Rapid Test Kits are particularly useful for healthcare providers who need to quickly and accurately diagnose patients in emergency situations. These kits are easy to use and require only a small sample of blood, urine, or other bodily fluids to produce accurate results in just 15 minutes.

Antigen Rapid Testing Kits are also useful for patients who need to be tested for antibiotic resistance. Antibiotic Test Kits can help doctors determine which antibiotics will be most effective in treating a patient's infection, and can help prevent the overuse of antibiotics, which can lead to antibiotic-resistant strains of bacteria.

These Antigen Rapid Test Kits are CE and ISO certified, ensuring that they meet all of the necessary safety and quality standards. They are a reliable and effective tool for healthcare providers who need to quickly and accurately diagnose patients with a wide range of medical conditions.

#### Advantages:

During the first few days of a Covid-19 illness, symptoms tend to be nonspecific and may include cough, fever and sore throat. These symptoms can be indistinguishable from other viral infections, such as influenza respiratory syncytial virus (RSV), or viruses associated with the common cold. Because of this, combo diagnostic testing is needed and important, not only to determine the cause of the illness, but also to determine whether treatment is appropriate. DVOT® SARS-CoV-2 & RSV & MP & ADV & FluA/B Antigen Combo Test Kit is an easy and rapid way to identify which infections cause the symptoms. It can be used anywhere and anytime by yourself.

#### Usage:

**Step 1:** Place the swab into your nose.  
Hold the end of the swab with one hand as shown.

**Step 2:** Dip the swab into the sample container.  
Continue to hold the swab and slowly but completely immerse the swab tip into the liquid or sample in the container. Make sure the swab tip is in full contact with the liquid, but do not apply too much force to avoid splashing.

**Step 3:** Wait 10 seconds.

**Step 4:** Place a drop of solution in the instrument.

**Step 5:** Read the test result after 15 to 30 minutes. Do not touch or move the test device until the results are read.

# Infected or not? Test right now!

### About the Antigen Combo Test Kit

During the first few days of a Covid-19 illness, symptoms tend to be nonspecific and may include cough, fever and sore throat. These symptoms can be indistinguishable from other viral infections, such as influenza, respiratory syncytial virus (RSV), or viruses associated with the common cold. Because of this, combo diagnostic testing is needed and important, not only to determine the cause of the illness, but also to determine whether treatment is appropriate.

DVOT® SARS-CoV-2 & RSV & MP & ADV & Flu A/B Antigen Combo Test Kit is an easy and rapid way to identify which infections cause the symptoms. It can be used anywhere and anytime by yourself.

**Anytime, Anywhere, Test by yourself !**

### HAVE YOU EVER HAD SUCH CONCERNS?

#### Worried about inconvenient to test

- No hospitals or test site available nearby.
- Physical discomfort, queue for a long time to test.

#### Worried about can not get result immediately

- Long time waiting for a PCR test result.
- Want to know the result immediately.

#### Worried about the family

- Anyone in my family been infected?
- How to test elder and infants?

#### Worried about infection

- Infection risk in crowded hospitals or test site.
- If there are close contacts around you?

Let us **SOLVE** your troubles!

It can detect mutated virus

**High accuracy detection of 97.65%**

- ✓ Test result is available in 8 minutes.
- ✓ Self-testing is convenient at home, or anywhere else.
- ✓ Risk control for easy life and working.
- ✓ Shelf-life of 1.5 years, you can store for a long time.

Easy detection will make you feel ease, people around you also feel comfortable.

### Simple steps, easy-handling for anybody!
