Product Description

DVOT (6 IN ONE) Rapid Antigen Test Kits 15-Minute Results CE/ISO Certified

Product Description:

Our Antigen Rapid Test Kits are designed to quickly and accurately detect the presence of antigens in a patient's sample, making them an excellent choice for diagnosing infectious diseases like COVID-19. With a 98% accuracy rate and certifications from both CE and ISO, you can be confident in the results you receive from our test kits.

In addition to their accuracy, our Antigen Rapid Test Kits offer rapid results, with a turnaround time of just 15 minutes. This quick result time can help healthcare professionals make more informed treatment decisions and prevent the spread of infectious diseases.

Whether you're looking for a reliable Antigen Rapid Test Kit for diagnosing infectious diseases or a cutting-edge Digital LH Test Kit for fertility testing, our medical diagnostic test kits offer the accuracy and reliability you need. Browse our selection today to find the right test kit for your needs.

Our Product Introduction

Technical Parameters:

Certifications	CE, ISO
Keyword	Antigen Rapid Test
Test Time	15 Minutes
Result Time	15 Minutes To Get
Accuracy	98%
Type	Rapid Test Kit
Time Of Use	Disposable

Applications:

The DOVT 6 IN 1 test kit is suitable for a variety of application occasions and scenarios. Firstly, the kit can be used as an antibiotic test kit, providing accurate and reliable results in a short amount of time. This makes it a valuable tool for medical professionals and healthcare facilities that need to quickly identify the presence of certain antibiotics in patient samples.

Additionally, the DOVT 6 IN 1 test kit can be used as an antigen self test kit. This allows individuals to test themselves for the presence of specific antigens, such as those associated with COVID-19. The rapid result time of 15 minutes makes it an effective tool for individuals who need to frequently monitor their health status or those who may have been exposed to the virus.

Furthermore, the DOVT 6 IN 1 test kit is also suitable for use as a COVID-19 test kit. The kit provides accurate and reliable results in a short amount of time, which is crucial for identifying and containing the spread of the virus. The test kit can be used in a variety of scenarios, such as at airports, schools, and workplaces, to quickly screen individuals for the virus and prevent outbreaks.

In summary, the DOVT 6 IN 1 rapid test kit is a versatile and reliable tool for medical diagnostic testing. Its quick result time, disposable type, and certifications make it a valuable asset for healthcare professionals, individuals, and organizations alike. Whether it is used as an antibiotic test kit, antigen self test kit, or COVID-19 test kit, the DOVT 6 IN 1 provides accurate and reliable results in a timely manner.

Advantages:

During the first few days of a Covid-19 illness, symptoms tend to be nonspecific and may include cough, fever and sore throat. These symptoms can be indistinguishable from other viral infections, such as influenza respiratory syncytial virus (RSV), or viruses associated with the common cold. Because of this, combo diagnostic testing is needed and important, not only to determine the cause of the illness, but also to determine whether treatment is appropriate. DVOT® SARS-CoV-2 & RSV & MP & ADV & FluA/B Antigen Combo Test Kit is an easy and rapid way to identify which infections cause the symptoms. It can be used anywhere and anytime by yourself.

Usage:

Step 1: Place the swab into your nose.
Hold the end of the swab with one hand as shown.

Step 2: Dip the swab into the sample container.
Continue to hold the swab and slowly but completely immerse the swab tip into the liquid or sample in the container. Make sure the swab tip is in full contact with the liquid, but do not apply too much force to avoid splashing.

Step 3: Wait 10 seconds.

Step 4: Place a drop of solution in the instrument.

Step 5: Read the test result after 15 to 30 minutes. Do not touch or move the test device until the results are read.

Infected or not? Test right now!
