## Product Description

### HIV-HCV-HBsAg-Syphilis Rapid Antigen Test Kit Accurate Reliable and CE/ISO Certified

#### Product Description:

Our HIV-HCV-HBsAg-Syphilis Rapid Test Kit is designed to be easy to use and provide accurate results quickly. Simply collect a sample using the included swab, insert it into the provided buffer solution, and then apply the solution to the test strip. The result will be ready in just 15 minutes, making it easy to get the answers you need quickly.

In addition to its speed and accuracy, our Antigen Rapid Test Kit is also certified by CE and ISO, ensuring that it meets the highest quality standards. This means you can trust the results you receive from our At Home Antigen Test Kit.

Whether you are looking to test for HIV-HCV-HBsAg-Syphilis at home, at work, or in a healthcare setting, our Antigen Self Test Kit is a great option. Its ease of use and quick results make it a convenient choice for anyone who needs to test for HIV-HCV-HBsAg-Syphilis.

So if you are looking for a reliable and easy-to-use way to test for HIV-HCV-HBsAg-Syphilis, our Antigen Rapid Test Kits are the perfect solution. With its fast results and high level of accuracy, you can get the answers you need quickly and with confidence.

#### Technical Parameters:

Test Time	15 Minutes
Keyword	Antigen Rapid Test
Certifications	CE, ISO
Time Of Use	Disposable
Type	Rapid Test Kit
Accuracy	99%
Result Time	15 Minutes To Get

#### Applications:

The HIV-HCV-HBsAg-4 IN1 test kit is specifically designed for the detection of HIV, HCV, and HBsAg antibodies in human serum, plasma, or whole blood. It is an infectious disease test kit that is widely used in hospitals, clinics, and laboratories for diagnosing infectious diseases. Its accuracy rate is 99%, making it a highly accurate diagnostic tool.

One of the key advantages of the DVOT HIV-HCV-HBsAg-4 IN1 test kit is that it is a rapid test kit. This means that healthcare professionals can get results within 15 minutes of conducting the test, making it a time-efficient option for busy healthcare settings.

The HIV-HCV-HBsAg-4 IN1 test kit is ideal for a range of application occasions and scenarios, including: Hospitals, Clinics, Laboratories, Mobile Testing Units.

In conclusion, the DVOT HIV-HCV-HBsAg-4 IN1 test kit is a reliable and effective infectious disease rapid test kit that can be used in a range of healthcare settings, including hospitals, clinics, laboratories, and mobile testing units. Its rapid result time and accuracy rate of 99% make it an ideal option for healthcare professionals looking to diagnose infectious diseases quickly and accurately.

#### Preparation stage:

Verify that the product packaging is intact and check the date of manufacture and lot number.

Prepare required sample collection tools, such as blood collection containers, disposable blood collection needles (for whole blood samples), matching capillary or transfer pipettes, and buffer solutions that may be required.

Wash and sanitize your hands and make sure the testing area is clean.
