

Adjustable Cooling/Heating Hyperbaric Oxygen Therapy Chamber 2.0-2.2ATA for Home

Our Product Introduction

for more products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMY07
- Minimum Order Quantity: 1PC
- Price: \$20000
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

Product Specification

- Cabin Size: 210*80*120CM
- Cabin Weight: 450KGS
- Intelligent Host Size: 80*40*85CM
- Intelligent Host Weight: 56KGS
- Chamber Oxygen Concentration: 28% 32%
- Chamber Temperature: Cooling / Heating Adjustable
- Noise Level: Less Than 63 DB
- Function: Hyperbaric Oxygen Therapy
- Highlight: Adjustable Hyperbaric Oxygen Chamber, 2.2ATA Hyperbaric Oxygen Chamber, Home Hyperbaric Oxygen Chamber

Product Description

2.0-2.2ATA High Pressure Hyperbaric Chamber Hyperbaric Oxygen Therapy At Home

Product Description:

The EMY07 model is O2EMENG's flagship product, integrating advanced technology designed to provide the best user experience. Its new hyperbaric oxygen equipment is an intelligent all-in-one machine that combines oxygen equipment, aerodynamic system and air cooler, easily operated by one button, saving time and labor. It is widely used in healthcare, home as well as beauty salons.

O2EMENG Hyperbaric Oxygen Chamber adopts advanced technology and design, which can ensure the safety during the treatment process. Meanwhile, hyperbaric oxygen therapy, as a non-invasive physical therapy method, has significant therapeutic effects. Compared with other treatment methods, hyperbaric oxygen therapy may have lower cost and higher cost-effectiveness. O2EMENG hyperbaric oxygen chamber may further reduce the cost of use and improve the economic benefits by optimizing the design and production process. At the same time, this oxygen chamber is suitable for people who are easy to be fatigued, work late at night and overtime, insomnia patients, ambiguous skin care people, and sub-healthy people, etc. It can increase the oxygen in the body, blood oxygen saturation, and the diffusion distance of oxygen in the body.

All in all, our hyperbaric chamber is a top-quality product with excellent performance and reliability. Its compact size allows it to be installed in many medical facilities without taking up too much space. It is an essential piece of equipment for any hospital or clinic that provides high-quality rehabilitation therapy supplies. It produces at least 90% oxygen concentration and is one of the best hyperbaric chambers on the market for a great experience. Buy it today and experience the benefits of hyperbaric oxygen therapy.

Advantages:

The O2EMENG EMY07 model hyperbaric chamber has several significant differences and advantages over traditional hyperbaric chambers:

- 1. Advanced Technology and Control Systems:** The EMY07 model utilizes the latest in hyperbaric technology with a precise oxygen concentration and pressure control system. Traditional hyperbaric chambers may use more basic controls that do not provide the same precise regulation and monitoring capabilities.
- 2. New Hyperbaric Oxygen Equipment:** Intelligent all-in-one machine, unlike traditional equipment, does not require the operation of three machines, Oxygen Equipment + Aerodynamic Equipment + Air Cooler, realizing easy one-button operation and saving time and effort.
- 3. Comfort and User Experience:** The EMY07 model is designed with a more spacious and comfortable interior space, taking into account the patient's comfort and convenience during treatment.
- 4. Durability and Reliability:** The EMY07 model undergoes rigorous quality control and testing to ensure stable operation over long periods of time without frequent maintenance.
- 5. Technological innovations and safety:** The EMY07 model integrates new technological innovations that enhance safety and therapeutic efficacy. It allows for more precise control of oxygen delivery to support medical treatments more effectively.

Other details:

- 1. Smart Chair:** Ergonomic design with USB-A charging port allows you to easily charge while enjoying hyperbaric oxygen therapy and keep your device fully charged. The frame of the seat is made of 304 stainless steel, which is durable and highlights the quality and style.
- 2. High strength explosion-proof material door:** The use of specially developed high strength, high permeability explosion-proof material, combined with excellent sealing performance, to ensure the stability and safety of the cabin environment. The door body design takes into account pressure stability and fast opening function, with AI intelligent voice system, easy to operate and safe.
- 3. Comprehensive data monitoring:** Built-in high-precision sensor, real-time monitoring and display of cabin temperature, humidity, pressure and oxygen concentration, so that you know every oxygen therapy process.

Accurate data to provide scientific basis for your health management.

4. Quiet design: Pay special attention to noise control, ensure that the cabin environment is quiet and comfortable, the sound level is 63dB, and create a private space away from the noise and relax.

5. Stable power supply: Support 220V/50Hz standard voltage, rated power up to 1500W, to ensure stable operation of equipment, to meet the needs of long-term hyperbaric oxygen therapy.

6. Precise oxygen concentration control: The oxygen concentration in the cabin can be accurately adjusted to between 28% and 32%, and the scientific ratio can effectively improve blood oxygen saturation, promote cell metabolism, and accelerate body recovery and repair.

7. Comfortable temperature control: Equipped with advanced cooling system, you can freely adjust the cabin temperature according to personal needs, to ensure that you can enjoy the most suitable oxygen therapy environment in the hot summer.

【 Applicable audience 】 :

Accelerate physical recovery and improve performance for athletes and fitness enthusiasts.

Sub-healthy people, improve sleep quality, enhance immunity.

Brain workers, relieve brain fatigue, improve work efficiency.

Chronic disease patients, assist rehabilitation treatment, promote health recovery.

Choose our high-end intelligent hyperbaric oxygen chamber, open a new chapter of your health, let every breath become the nourishment of life, enjoy the health and happiness brought by science and technology

Support and Services:

The Hyperbaric Oxygen Chamber is a medical device that provides high levels of oxygen to a patient in a pressurized environment. Our technical support and services for this product include:

1.Demand customization: according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

2.Exclusive design: the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

3. Craftsmanship Manufacturing: The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

4. Lifetime maintenance: provide perfect professional after-sales service guarantee

We understand the importance of this life-saving medical equipment and are committed to providing our customers with the highest quality support and services to ensure the safe and effective use of the Hyperbaric Oxygen Chamber.

SPORT & RECOVERY

Hyperbaric Oxygen Therapy is more and more favored by famous athletes all over the world, and they are also a necessary for some sports gyms for helping people recovery faster from hard training.

BEAUTY & ANTI-AGING

HBOT has been a growing choice of many top actors, actresses, and models, hyperbaric oxygen therapy may be the proverbial "fountain of youth." HBOT promotes cell repair, age spots, saggy skin, wrinkles, poor collagen structure, and skin cell damage by increasing circulation to the most peripheral areas of the body, which is your skin.

CLINICAL

Your body's tissues need an adequate supply of oxygen to function. When tissue is injured, it requires even more oxygen to survive. Hyperbaric oxygen therapy increases the amount of oxygen your blood can carry. Hyperbaric oxygen therapy for ligament damage, copd, anxiety.

HOME CARE

For some patients who need long-term hyperbaric oxygen therapy and some sub-healthy people, our suggestion is that they buy hyperbaric oxygen chambers for treatment at home.

The Use of Hyperbaric Oxygen Chamber

Always prepare at home, say goodbye to sub-health
