

Customizable White Hyperbaric Oxygen Pressure Chamber for Medical Healing and Therapy

Our Product Introduction

for more products please visit us on oxygenconcentratormedical.com

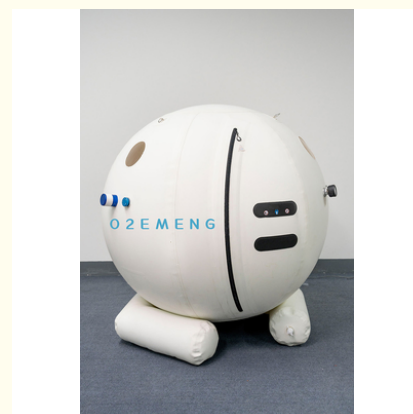

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS06
- Minimum Order Quantity: 1PC
- Price: 3800 5800USD
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

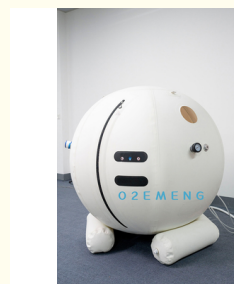

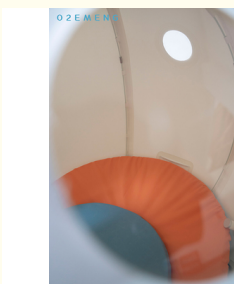

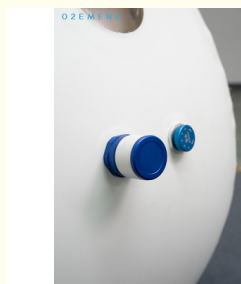

Product Specification

- Oxygen Purity: 90%~93.3%
- Product Name: Hyperbaric Oxygen Chamber
- Application: Health Care Physical Therapy
- Chamber Pressure: 1.5 ATA-2.0 ATA
- Voltag: AC110V/220V
- Size: 150x150x150cm
- Color: White(Accept Customization)
- Single Gross Weight: 13.000 Kg
- Highlight: Therapy Hyperbaric Oxygen Pressure Chamber, Medical Hyperbaric Oxygen Pressure Chamber, Customizable Hyperbaric Oxygen Pressure Chamber

Product Description

Portable Hyperbaric Chamber Professional Hyperbaric Oxygen Pressure Chamber Therapy For Medical Healing

Product Description:

EMS06 Ultra High Pressure Oxygen Chamber, originated from Shenzhen, the capital of technological innovation in China, is crafted by O2EMENG brand. This oxygen chamber is designed for those who pursue a high-quality healthy life, integrating modern technology and medical concepts, bringing unprecedented deep nourishing and repairing experience to the body. Its unique pressure range of 1.5 to 2.0 ATA, combined with up to 90% to 93.3% pure oxygen, makes every breath a luxurious enjoyment for body and mind.

The EMS06 oxygen chamber is made of environmentally friendly and durable TPU material, which not only ensures the sealing and safety of the chamber, but also provides a soft and comfortable lying environment. The size of the chamber is 150x150x150cm, which is spacious enough to allow users to stretch freely and enjoy all-around relaxation. In addition, we accept color customization service to meet your unique needs, making every use an exclusive health ritual.

O2EMENG understands the importance of quality service, and therefore provides a comprehensive after-sales service system for the EMS06 Oxygen Chambers. We ensure that every customer can enjoy a convenient and efficient after-sales experience, and international certificates such as CE, FCC, ROHS, UKCA, and ISO9001 are an authoritative endorsement of the quality and safety of the EMS06 Oxygen Chambers.

Advantage:

The following are the main reasons for using oxygen chamber:

Increase the supply of oxygen: EMS06 oxygen chamber by providing high concentration, high pressure of pure oxygen, can significantly enhance the oxygen content of human blood, promote cell metabolism, accelerate the recovery of fatigue, improve the quality of sleep, enhance immunity, assist in the treatment of a variety of chronic diseases have significant effects. Long-term use can help improve the overall health of the body. Hyperbaric chamber can provide a high concentration of oxygen environment, significantly increase the supply of oxygen in the patient's body, which is especially important for patients with insufficient oxygen supply.

Promote the solubility of oxygen molecules: Hyperbaric oxygen chamber can promote the solubility of oxygen molecules in the body, improve the effect of oxygen delivery, so that the cells can more fully utilize oxygen for aerobic metabolism.

Inhibit inflammatory response: Hyperbaric Oxygen Chambers can reduce inflammatory response by providing a high concentration oxygen environment. In certain inflammatory diseases or post-infectious patients with excessive inflammatory response, high concentration of oxygen can inhibit the inflammatory response and reduce symptoms such as pain and redness.

Accelerate wound healing: high concentration of oxygen can promote cell renewal and division, improve the body's metabolic level, thus accelerating the speed of wound healing. In addition, hyperbaric oxygen chamber can accelerate platelet aggregation and coagulation, and promote the regrowth of blood vessels in the wound.

Reduce inflammation and swelling: Hyperbaric oxygen chamber can reduce inflammation and swelling by providing a high-concentration oxygen environment, thus relieving pain. This is an effective adjunctive treatment for patients with chronic pain or those recovering from surgery.

O2EMENG

Hyperbaric Oxygen Chamber

HYPERBARIC OXYGEN CHAMBER

- IMPROVE BRAIN BLOOD CIRCULATION
- SPEED UP METABOLISM
- HIGH PRESSURE OXYGEN INHALATION

O2EMENG

WHY ARE MORE AND MORE PEOPLE CHOOSING HYPERBARIC OXYGEN CHAMBERS?

In some parts of the body, the capillaries are so narrow that blood cells cannot pass through them, bound oxygen cannot reach them, and they can only rely on dissolved oxygen. the oxygen generator has little change in the dissolved oxygen in the blood, which is also the reason why the ordinary oxygen absorption effect in the plateau area is general.

CONCLUSION

It is more feasible to increase the dissolved oxygen in the blood. The hyperbaric oxygen chamber can maintain the oxygen partial pressure within a safe and effective range by flexibly adjusting the oxygen concentration or pressure, and gently and effectively improve the oxygen delivery to tissues and organs by increasing dissolved oxygen.

SOFT TYPE HYPERBARIC OXYGEN CHAMBER

Innovative technology, quality assurance

FIVE FUNCTIONS OF THE ALL-IN-ONE MACHINE

01 Oxygen Production

02 Pressurization

03 Dehumidification

04 Refrigeration

05 Negative Ion Sterilization

One-button Start

Oxygen Flow Meter

304 Stainless Steel Body

Medical Grade Filter

Medical Grade Humidification Bottle

360° Universal Wheel

PRODUCT PARAMETER

Product Model	EMS06 Soft Type Hyperbaric Oxygen Chamber
All-in-one Machine Weight	85KG
All-in-one Machine Dimensions	40*80*87cm (Length, Width and Height)
Noise	≤63dB
Voltage	AC110V/220V
Rated Power	1500W
Oxygen Production Flow	10L/Min
Oxygen Purity	≥95%±3%
Chamber Capsule Color	White/Grey (Accept Customization)
Total Chamber Weight	13KG
Chamber Size (Length, Width and Height)	150*150*150cm
Disposition	Chamber,All-in-one Machine,Dual Refrigeration System,Sleeping Pad,Bracket, Medical Grade Filter,Negative Ion Disinfection System,Air Dehumidification
