

O2EMEN Soft Type Portable 1.3 Ata Hyperbaric Oxygen Chamber Therapy Function For Lying

Our Product Introduction

for more products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMS01
- Minimum Order Quantity: 1PC
- Price: \$3699
- Packaging Details: wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100PCS

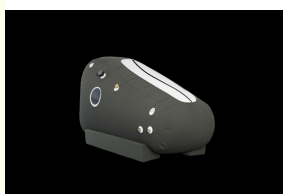

Product Specification

- Function: Hyperbaric Oxygen Therapy
- Pressure Range: 1.3-1.5ATA (can Be Set)
- Machine CTN Size: 127*55*105cm
- Noise Level: Less Than 63 DB
- Usage: Medical/Therapeutic
- Oxygen Concentration: $\geq 90\%$ (can Be Set)
- Total Weight: 83kgs
- Properties: Rehabilitation Therapy Supplies
- Highlight: Lying hyperbaric oxygen chamber, Soft type hyperbaric oxygen chamber, 1.3 ata hyperbaric oxygen chamber

Product Description

O2EMEN High quality Soft type portable hyperbaric oxygen therapy chamber 1.3 ata hyperbaric oxygen chamber for Lying

Product Description:

One of the standout features of this hyperbaric chamber is its low noise level. At less than 63 DB, the Hyperbaric Chamber provides a comfortable and quiet environment for patients undergoing hyperbaric oxygen therapy.

The main function of the Hyperbaric Chamber is hyperbaric oxygen therapy, which involves breathing in pure oxygen while inside a pressurized chamber. This therapy can help with a variety of medical conditions, such as wound healing, radiation tissue damage, and carbon monoxide poisoning.

The pressure range of the Hyperbaric Chamber is between 1.3-1.5ATA, which can be easily set to the desired level. This allows for customization and ensures that patients receive the correct amount of pressure during their therapy sessions.

If you're looking for a reliable and portable hyperbaric chamber for medical/therapeutic use, the Hyperbaric Chamber is the perfect solution. Its ease of use, low noise level, and customizable pressure range make it a great option for any healthcare facility or individual practitioner.

Other details:

Type	Soft Lying type HBOT Chamber
Outlet	Oxygen , Air
Fabric	TPU
Technical parameters	Oxygen 10L min/Air 60L min
Chamber Colour	White /Blue

Applications:

The O2EMENG EMS01 Hyperbaric Chamber is a top-of-the-line product that offers a pressure range of 1.3-1.5ATA, which can be adjusted to meet your specific needs. Whether you're recovering from an injury or looking to improve your overall health and wellness, this hyperbaric chamber is the perfect tool for the job.

One of the key benefits of the O2EMENG EMS01 Hyperbaric Chamber is its ease of use. The machine is designed with the user in mind, and can be set up quickly and easily. In addition, the noise level is less than 63 dB, making it a quiet and unobtrusive addition to any space.

The O2EMENG EMS01 Hyperbaric Chamber is also incredibly versatile, and can be used in a variety of different scenarios. For example, It can be used to aid in recovery from sports injuries and surgeries, which can be also used in both hospitals and homes, making it an excellent investment for personal and professional use.

The O2EMENG EMS01 Hyperbaric Chamber is also a great option for those looking to improve their overall health and wellness. By providing an oxygen-rich environment, this hyperbaric chamber can help to boost energy levels, reduce inflammation, and promote a sense of overall wellbeing.

In terms of specifications, the machine CTN size measures 127*55*105cm, making it easy to transport and store. The pressure reduction time is also impressively fast - just 5-10 minutes.

In conclusion, the O2EMENG EMS01 Hyperbaric Chamber is a top-quality product that is perfect for anyone looking to improve their health and wellbeing. With its portable design, versatile applications, and easy-to-use features, this hyperbaric chamber is the ideal tool for rehabilitation therapy and beyond.

Other Details:

Brand: O2EMENG

Oxygen concentration: ≥90% (adjustable)

Pressure setting: air

Applicable number of people: single

In the fast-paced life, we often need a short period of rest to rejuvenate and start afresh. O2EMENG hyperbaric chamber will bring you a new comfortable experience, whether it is a tired body or a tired mind, can be here to get deep relaxation and conservation.

Customized for your health: We have introduced the most advanced Japanese YKK zippers to ensure the safety and reliability of the hyperbaric chamber. Made of medical grade TPU material to ensure the high quality and durability of the product. Dual-screen intelligent control system provides you with precise operation and comfortable using experience.

Customized design to show your personality:Not only that, the hyperbaric chamber also provides customizable appearance color options, allowing you to personalize it according to your personal preferences or professional needs.

Effective hyperbaric oxygen therapy, all-round care:Equipped with 10L oxygen generator to ensure stable oxygen concentration of over 90%. The working pressure is adjustable from 1.3-1.5 ATA, effectively meeting different health needs. Pressure reduction time of 5-10 minutes, quickly enter a comfortable hyperbaric oxygen environment.

Why choose this hyperbaric chamber?

1.Remarkable therapeutic effect:

For hypoxic diseases: Hyperbaric oxygen chamber can significantly increase the oxygen content in the blood by providing a high concentration of oxygen environment, thus effectively improving a series of symptoms caused by ischemia and hypoxia. For patients with carbon monoxide poisoning, arteriosclerosis, cerebral hemorrhage, decompression sickness, etc., hyperbaric oxygen therapy can rapidly replace carbon monoxide in the body, restore the oxygen-carrying capacity of hemoglobin, or accelerate the dissolution of nitrogen bubbles in the body, relieving the symptoms of pain and damage to the nervous system.

Promotion of rehabilitation: Hyperbaric oxygen chambers are able to accelerate the trauma repair and rehabilitation process during treatment. For example, for patients with cerebrovascular diseases, hyperbaric oxygen helps to improve blood supply to the brain and promote the recovery of neurological functions; for chronic wounds that do not heal, such as diabetic foot and bedsores, hyperbaric oxygen can promote blood circulation and accelerate wound healing. These effects are reflected in several cases, proving the important role of hyperbaric oxygen chamber in rehabilitation treatment.

2.Wide range of application

The scope of application of hyperbaric oxygen chamber is very wide, covering almost all the diseases related to hypoxia and ischemia. From acute carbon monoxide poisoning, drowning, etc., to chronic cerebrovascular disease, arteriosclerosis, etc., hyperbaric oxygen therapy can play its unique role. In addition, hyperbaric oxygen chamber is also suitable for the treatment of patients with decompression sickness, craniocerebral injury, postoperative brain tumor, etc., which can effectively improve the prognosis and quality of life of patients.

Support and Services:

The Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that you get the most out of your investment. Our team of experienced technicians and engineers are available to provide support and assistance whenever you need it.

Our technical support services include:

1.Demand customization: according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

2.Exclusive design: the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

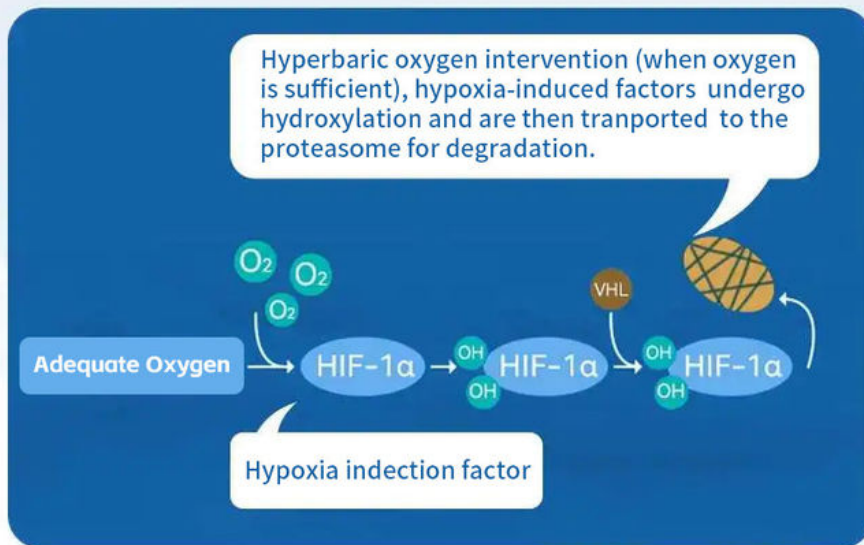

3. Craftsmanship Manufacturing: The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

4. Lifetime maintenance: provide perfect professional after-sales service guarantee

At Hyperbaric Oxygen Chamber, we are committed to providing the highest level of support and service to our customers. Contact us today to learn more about our technical support and services.

POSITIVE EFFECTS OF HYPERBARIC OXYGEN THERAPY ON THE HUMAN BODY

It can increase the oxygen concentration by increasing the ambient air pressure, thus improving the efficiency of the body's utilization of oxygen.

Literature sources: Biddlestone J, Bandarra D, Rocha S. The role of hypoxia in inflammatory diseases (review) [J] Int J Mol Med, 2015, 35(4):p.859-69.

The above knowledge science for consumers to learn reference, does not represent the efficacy of the product; the actual effect varies from person to person.

APPLICATION OF HYPERBARIC OXYGEN THERAPY

Beauty & wellness:

HBOT helps rejuvenate your skin. During a hyperbaric oxygen therapy session inside a pressurized chamber, the body receives pure oxygen at higher atmospheric pressure to boost the flow of oxygen into the circulatory systems.

Sports:

HBOT for professional sports has become one of the most effective methods for athlete recovery. Supplementing oxygen intake at higher atmospheric pressure inside a hyperbaric chamber is known to naturally accelerate healing times to treat sports injuries and allow injured athletes to recover faster and reduce the risk of re-injury.

Wounds and burns:

Healing Wounds need oxygen to heal naturally and hyperbaric oxygen therapy has been successfully used as complementary therapy for wound healing. Used as complementary treatment, Hyperbaric Oxygen Therapy can help decrease mortality and reduce the need for surgery for mild to severely burned patients.

Anti-aging:

Hyperbaric Oxygen Therapy for Elderly Patients Inside the hyperbaric chamber, a patient will absorb oxygen close to four times the normal breathing conditions. Oxygen controls most of the body's processes, including the immune system. Lack of oxygen can lead to a vulnerable immune response, increased fatigue and eventually hypoxia.
