Product Description

DOVT VAGINAL CONTRACEPTIVE GEL, which is Safe and effective birth control works instantly

Product Description:

DOVT Vaginal Contraceptive Gel is an innovative contraceptive product designed for modern women to improve contraceptive effectiveness and prevent sexually transmitted diseases (STDs). It provides highly effective contraception by preventing sperm from entering the uterus and reduces the risk of unwanted pregnancy. The

gel is safe, effective and easy to use.

Precautions:

Please use the product within the expiration date and follow the directions and precautions on the product instructions.

If discomfort or allergic symptoms occur during use, discontinue use immediately and consult a physician.

Instructions for use:

1. Wash your hands before using DVOT Vaginal Contraceptive Gel.
2. Remove the personal applicator and plunger from the pouch
3. Remove the cap from the top of the personal applicator.
4. Insert the smaller, pointed push rod into the bottom of the personal applicator until resistance is felt. Do not push the pusher past the sense of resistance. The applicator is now ready for use.
5. Place the personal applicator on the bottom. While using your fingers to prevent the plunger from falling out, gently insert the applicator into the it as comfortably as possible. Insertion is easier to accomplish when in a sitting position or when lying on your back with your knees bent.

Hormone Free

Easy and discreet to use, works instantly

Safe to use with condoms and other forms of birth control

The spermicide that works on contact as it coats the cervix

WHAT ARE DVOT Vaginal Contraceptive pre-filled applicators?

DVOT Contraceptive pre-filled applicators are single use applicators pre-filled with a gel substance containing a safe and effective spermicide.

With DVOT Vaginal Contraceptive Gel applicators, you are in control of your body and protecting yourself against unwanted pregnancy. Enjoy intimacy more with the knowledge that you have protected yourself from getting pregnant.

HOW DO DVOT Vaginal Contraceptive pre-filled applicators work?

The Gel forms a protective gel barrier at the entrance to the cervix. It also contains a powerful spermicide. The presence of this spermicide in the uterine cavity will create an environment designed to kill sperm upon contact.

HOW EFFECTIVE are DVOT Vaginal Contraceptive pre-filled applicators?

When the directions are followed, and DVTO Contraceptive Gel is used properly, the pre-filled applicators are up to 94% effective in preventing pregnancy.

HOW DO YOU USE DVOT Vaginal Contraceptive pre-filled applicators?

Directions for Use
Be sure to read directions carefully.

1. Wash hands before using DVOT Vaginal Contraceptive Gel.
2. Remove personal applicator and plunger from wrapper.
3. Pull the cap off the top end of the personal applicator.
4. Insert the smaller, pointed tip of the plunger into the bottom end of the personal applicator until you feel resistance. Do not push the plunger past the feeling of resistance. The applicator is now ready for use.
5. Hold the personal applicator at the bottom. While using a finger to keep the plunger from falling out, gently insert the applicator into the vagina as far as it will comfortably go. Insertion is accomplished more easily when in a sitting position or while lying on your back with the knees bent.
6. Press the plunger to dispense DVOT Vaginal Contraceptive Gel. While continuing to hold the plunger down, remove the applicator from the vagina.
7. Throw away the applicator, plunger and wrapper after use. Do not flush in toilet or re-use.
8. DVOT Vaginal Contraceptive Gel is effective immediately and up to 1 hour after application.
9. Re-apply prior to each sex act, even if sex occurs within 1 hour of first application.
10. Douching is not recommended after using DVOT Contraceptive Gel. However, should you desire to do so, wait at least 6 hours after sex to allow enough time for effective contraceptive protection.
