

High Quality Cheap Price Advanced High-Performance Medical 1.3ATA Hyperbaric Oxygen Chamber For Commercial Use

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: SHENZHEN EMENG HEALTH
- Brand Name: O2EMENG
- Certification: CE/FDA/FC/ROHS/UKCA/SGS
- Model Number: EMY02
- Minimum Order Quantity: 1pc
- Price: \$20699
- Packaging Details: Wooden packing
- Delivery Time: 15-20 work days
- Payment Terms: D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100pcs

Product Specification

- Usage: Medical/Therapeutic
- Temperature Range: Cooling Adjustable
- Rated Power: 1500W
- Cabin Weight: 900KGS
- Voltage: 220V,50Hz
- Cabin Size: 220*150*190CM
- Highlight: 1.3ata hyperbaric oxygen chamber, medical hyperbaric oxygen chamber, medical oxygen hyperbaric chamber

Product Description

O2EMENG Hyperbaric Oxygen Chamber for Medical/Therapeutic Use

Product Description:

Designed for maximum safety and comfort, the Hyperbaric Chamber is equipped with advanced features that ensure a constant pressure is maintained throughout the treatment. This feature is essential to ensure that patients receive the full benefits of hyperbaric oxygen therapy.

Voltage: 220V, 50Hz9, Rated power: 1500W, Oxygen concentration in combustion chamber: 28% to 32%

One of the most significant advantages of the hyperbaric chamber is its portability. The hyperbaric chamber can be easily transported and installed anywhere, making it the best choice for patients who require regular hyperbaric oxygen therapy. Its portability also makes it ideal for hospitals and clinics that need to provide hyperbaric oxygen therapy to a large number of patients.

All in all, the hyperbaric chamber is the perfect solution for anyone who needs to receive hyperbaric oxygen therapy safely and effectively. With its impressive size, advanced features, and portability, the hyperbaric chamber is sure to provide patients with the best possible treatment experience. What are you waiting for? Invest in a hyperbaric chamber today and experience the benefits of hyperbaric oxygen therapy for yourself!

Applications:

The O2EMENG Hyperbaric Oxygen Chamber is designed for patients requiring hyperbaric oxygen therapy. It is designed to provide a safe and comfortable environment for patients requiring hyperbaric oxygen therapy.

The O2EMENG Hyperbaric Oxygen Chamber is rated at 220V and has a noise level of >43DB, making it suitable for use in a variety of environments including hospitals, clinics, and home care environments. The O2EMENG Hyperbaric Oxygen Chamber is simple to operate and quick and easy to set up.

The O2EMENG hyperbaric chamber is suitable for a wide range of medical conditions, including but not limited to:

- Chronic wounds and ulcers
- 2. Carbon monoxide poisoning
- 3. Acute traumatic peripheral ischemia
- 4. Decompression sickness
- 5. Cerebral edema

The O2EMENG hyperbaric chamber is suitable for use in a variety of settings, including hospitals, clinics, and home care environments. The product is portable and can be easily moved from one location to another. The O2EMENG hyperbaric chamber is also suitable for use by athletes who wish to improve their performance or recover from injuries. The product is also suitable for use by individuals who wish to improve their overall health and wellbeing.

In conclusion, the O2EMENG hyperbaric chamber is a portable and versatile product that can be used for a wide range of medical conditions. The product is designed to provide a safe and comfortable environment for patients who require hyperbaric oxygen therapy. The O2EMENG hyperbaric chamber is suitable for use in a variety of settings, including hospitals, clinics, and home care environments. The product is easy to operate and can be set up quickly and easily.

Support and Services:

The Hyperbaric Oxygen Chamber product comes with comprehensive technical support and services to ensure that customers have a seamless experience with our product. Our technical support team is available to assist with any queries or issues that may arise during installation, setup, or usage of the product. We also provide regular maintenance and repair services to keep the product in optimal

condition and extend its lifespan. Our services include:

1.Demand customization: according to your use environment and expectations, recommend the optimal core products and life aesthetics composition scheme.

2.Exclusive design: the advanced technology team and the top design team jointly, from the size and color material matching, the actual program customization landing.

3. Craftsmanship Manufacturing: The core components and other materials of hyperbaric chamber series products are manufactured in aerospace material factories.

4. Lifetime maintenance: provide perfect professional after-sales service guarantee

We are committed to providing the highest level of support and services to our customers to ensure their satisfaction with our Hyperbaric Oxygen Chamber product.

Advantages:

Advanced Technology Integration: The O2EMENG chamber incorporates cutting-edge features such as a smart chair with dual-screen control, an intercom system, and iPad intelligent control. This level of technological integration not only enhances user convenience but also ensures efficient operation and monitoring of the chamber environment. For individuals or facilities seeking state-of-the-art equipment for therapeutic or health monitoring purposes, O2EMENG offers a compelling choice.

Safety and Comfort Features: The chamber is equipped with several safety and comfort-enhancing features. It boasts a power outage automatic pressure relief system, a first-of-its-kind technology in China, which ensures safety during unexpected power interruptions. Additionally, the interior uses antibacterial board, promoting a hygienic environment suitable for health-related applications. These features underscore O2EMENG's commitment to user safety, comfort, and health.

Precise Environmental Control: O2EMENG provides precise control over environmental parameters critical for therapeutic effectiveness. It monitors and adjusts temperature, humidity, pressure, and oxygen concentration within optimal ranges (e.g., 28% to 32% oxygen concentration). The chamber also allows adjustable cooling/heating temperatures, accommodating diverse user needs and preferences. This level of environmental control is crucial for achieving therapeutic outcomes in medical treatments or wellness applications.

In summary, the O2EMENG chamber stands out due to its advanced technological features, emphasis on safety and comfort, and precise environmental control capabilities. These attributes make it a suitable choice for medical facilities, wellness centers, or individuals looking for a reliable and effective hyperbaric oxygen therapy solution.
