

220V/50Hz Oxygen Concentration Machine EMY01 Best for Your Business

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: China
- Brand Name: Tylenolmed
- Certification: CE,ISO13485,SGS ,FCC,RoHs
- Model Number: ND-ZY10SL
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: OPP packing ,1pcs per Carton. Carton size:540*370*695mm,Gross Weight:21kgs.
- Delivery Time: 7-10 Working days
- Payment Terms: T/T, Western Union
- Supply Ability: 1000pcs

Product Specification

- Power Consumption: 1500w
- Chamber Oxygen Concentration: 28% 32%
- Rating: 1500W
- Input Power: 700VA
- Noise Level: Less Than 63 DB
- Product Category: Medical Oxygen Concentrator
- Model: EMY01
- Chamber Colour: White /Black
- Highlight: **220V oxygen concentrator machine, medical oxygen concentrator 50Hz, business oxygen concentrator EMY01**

Product Description

Product Description:

A Medical Oxygen Concentrator is a crucial device designed to deliver a high concentration of oxygen to individuals in need. This essential Oxygen Concentration Machine is commonly used in medical settings to provide a reliable and consistent source of oxygen therapy. The Medical Oxygen Generator is a valuable tool for patients with respiratory conditions that require supplemental oxygen, offering a safe and effective solution for ensuring adequate oxygen levels in the body.

One of the key features of this Therapeutic Oxygen Generator is its input power of 700VA, which ensures efficient operation and reliable performance. With a rating of 1500W, this Medical Oxygen Concentrator is capable of delivering the necessary oxygen concentration levels to meet the needs of patients. The device operates quietly, with a noise level of less than 63 DB, ensuring a peaceful and comfortable environment for the user.

Available in classic colors such as white and black, this Medical Oxygen Concentrator is designed to blend seamlessly into any medical setting. The sleek and modern design of the device not only enhances the aesthetic appeal but also reflects its advanced functionality and performance capabilities.

As a trusted product in the Product Category of Medical Oxygen Concentrators, this device meets the stringent requirements of healthcare professionals and patients alike. Its reliable performance, user-friendly operation, and high oxygen output make it an essential tool for individuals requiring oxygen therapy.

Equipped with advanced technology, this Oxygen Concentration Machine is designed to deliver a precise and consistent flow of oxygen to patients, ensuring optimal therapeutic benefits. The Medical Oxygen Generator is a reliable source of supplemental oxygen, offering peace of mind to both patients and caregivers.

Whether used in hospitals, clinics, or home care settings, this Therapeutic Oxygen Generator plays a vital role in improving the quality of life for individuals with respiratory conditions. Its compact size and portable design make it a convenient and versatile solution for those in need of oxygen therapy.

In conclusion, the Medical Oxygen Concentrator is a dependable and efficient device that provides high-quality oxygen therapy to patients in need. With its advanced features, reliable performance, and user-friendly design, this Oxygen Concentration Machine is a valuable asset in the healthcare industry. Whether used for short-term or long-term oxygen therapy, the Medical Oxygen Generator delivers consistent results and ensures the well-being of patients receiving supplemental oxygen.

Features:

Product Name: O2EMENG Medical Therapy Machine 1.3ATA Hyperbaric Oxygen Chamber For Healing

Cabin Weight: 1000KGS

Noise Level: Less Than 63 DB

Product Category: Medical Oxygen Concentrator

Function: Hyperbaric Oxygen Therapy

Technical Parameters:

Color	White, Black
Cabin Weight	1000KGS
Model	EMY01
Power Consumption	1500w
Function	Hyperbaric Oxygen Therapy
Flow Rate	10Liter/Min
Rating	1500W
Chamber Oxygen Concentration	28% 32%
Noise Level	Less Than 63 DB
Voltage	110V/50Hz; 220V/50Hz

Applications:

Tylenolmed's Medical Oxygen Concentrator, model number ND-ZY10SL, is a versatile product with various applications in medical settings. With certifications including CE, ISO13485, SGS, FCC, and RoHs, this oxygen concentrator is a reliable and safe choice for healthcare facilities. Manufactured in China, the minimum order quantity and price are negotiable, making it accessible to a wide range of customers.

The Medical Oxygen Concentrator by Tylenolmed is suitable for a range of product application occasions and scenarios:

Clinic Oxygen Producer: This oxygen concentrator is ideal for clinics that require a consistent and reliable source of oxygen for medical procedures and patient care.

Therapeutic Oxygen Generator: The chamber oxygen concentration of 28% to 32% makes this concentrator well-suited for therapeutic purposes, helping patients with respiratory conditions receive the oxygen they need.

Healthcare Oxygen Separator: With its function of Hyperbaric Oxygen Therapy, the O2EMENG Medical Therapy Machine 1.3ATA Hyperbaric Oxygen Chamber For Healing can be used in healthcare settings to promote healing and recovery.

The product offers a supply ability of 1000pcs with a delivery time of 7-10 working days. Payment terms accepted include T/T and

Western Union. The input power is 700VA, ensuring efficient operation. The packaging details include OPP packing, with 1 piece per carton. The carton size is 540*370*695mm, with a gross weight of 21kgs.

Support and Services:

Product Technical Support and Services for the Medical Oxygen Concentrator:

- Troubleshooting assistance for device issues.
- Guidance on proper usage and maintenance of the concentrator.
- Product training and education for users and caregivers.
- Information on warranty coverage and service agreements.

Packing and Shipping:

Product Packaging:

The medical oxygen concentrator is carefully packaged in a sturdy cardboard box to ensure safe transportation. The product is securely wrapped in protective packaging materials to prevent any damage during shipping.

Shipping:

We offer fast and reliable shipping services for the medical oxygen concentrator. Once your order is processed, the product will be shipped out promptly to reach you in a timely manner. We ensure that the package is handled with care to guarantee that it arrives safely at your doorstep.

FAQ:

Q: What is the brand name of this Medical Oxygen Concentrator?

A: The brand name is Tylenolmed.

Q: What is the model number of this Medical Oxygen Concentrator?

A: The model number is ND-ZY10SL.

Q: What certifications does this Medical Oxygen Concentrator have?

A: It is certified with CE, ISO13485, SGS, FCC, and RoHs.

Q: Where is this Medical Oxygen Concentrator manufactured?

A: It is manufactured in China.

Q: What are the payment terms for purchasing this Medical Oxygen Concentrator?

A: The payment terms accepted are T/T and Western Union.

O2EMENG

HYPERBARIC OXYGEN CHAMBER

- IMPROVE BRAIN BLOOD CIRCULATION
- SPEED UP METABOLISM
- HIGH PRESSURE OXYGEN INHALATION

CHAMBER CAPSULE DESCRIPTION

1. Automatic digital display real-time temperature, humidity, oxygen purity and pressure.
2. Rotary timer system, use of time can be pressed in advance Multiple noise reduction technology.
3. Excellent Silence performance, the noise is $\leq 63\text{dB}$. Offer you a peaceful experience environment.
4. Double pressure relief device Spiral step less super smooth rotary valve. Spiral ergonomic hand-held design. Pressure relief is smoother and more convenient. Internal and external two-way integrated polycarbonate valve. One valve, two-way operation.
5. Automatic pressurize relief valves
Two automatic high precision constant pressure valve. Ensure the product is safe and effective by Aluminum alloy steel, high hardness, wear resistance.
6. Communicating system.
Intercom telephone is convenient for users to talk with operator outside.
7. Machine start-up protection system.
The chamber only can be turned on when the chamber door is completely closed, avoiding the danger of the door being left unlocked.
8. Automatic pressurize and depressurize system.
Based on the principle of "Cylinder (engine)" , Pressurize automatically after the door is completely closed.
9. Made by Aluminum alloy steel; With environmental spray paint;
Strong weight bearing capacity, Durable and wear-resistant; non-deformable; long lifespan.
10. In case of unexpected power failure, the door can be opened by emergency safety from inside the chamber.

WHY ARE MORE AND MORE PEOPLE CHOOSING HYPERBARIC OXYGEN CHAMBERS?

In some parts of the body, the capillaries are so narrow that blood cells cannot pass through them, bound oxygen cannot reach them, and they can only rely on dissolved oxygen. The oxygen generator has little change in the dissolved oxygen in the blood, which is also the reason why the ordinary oxygen absorption effect in the plateau area is general.

CONCLUSION

It is more feasible to increase the dissolved oxygen in the blood.
The hyperbaric oxygen chamber can maintain the oxygen partial pressure within a safe and effective range by flexibly adjusting the oxygen concentration or pressure, and gently and effectively improve the oxygen delivery to tissues and organs by increasing dissolved oxygen.

HARD TYPE HYPERBARIC OXYGEN CHAMBER

Innovative technology, quality assurance

The cabin door is made of aviation PC material

Multiple safety technologies
One-button pressure relief protection system during power outage

AI intelligent voice control system

FAQ

1. How does hyperbarics work?

Hyperbarics is a technology in which the air pressure in the environment is increased. When a person's body is placed in a more pressure environment, it absorbs more oxygen molecules per volume of compressed air.

The body normally transports oxygen via the hemoglobin of the red blood cells. By increasing the air pressure, oxygen is then driven into the body's fluids, allowing a super-saturation of tissues and organs with oxygen. The increased pressure infuses the body with oxygen, even reaching injuries with damaged circulation.

2. What are the health benefits of hyperbaric oxygen chambers?

Studies have shown that hyperbaric oxygen chambers can treat hypoxic diseases, relieve fatigue, delay aging, prevent cardiovascular disease, improve sleep quality, accelerated wound repair and enhance immunity. We have customers serviced shows hyperbaric oxygen therapy makes very positive results.

3. How long is the treatment?

Usually, we recommend our clients receive the HBOT therapy 5-6 sessions per week, 60-90mins per session. Using frequency or duration can be adjusted according to individual circumstances.

4. Is HBOT safe?

Hyperbaric oxygen therapy is prescribed by a physician and performed under medical supervision. Although there are minor risks like all medical treatments, overall hyperbaric oxygen therapy is extremely safe.

5. Is there anyone who can not use our chamber?

Pregnant ladies, patients who catch a cold or Flu, or those who have rhinitis or otitis media are not recommended to use the chamber.

6. How do you feel inside a hyperbaric oxygen chamber?

When lying in the oxygen chamber, you will feel comfortable and at ease. Also, You may feel a little squeezing of the ears because of the pressure. It is quite normal and can be relieved by chewing or swallowing.

7. After bought the chamber, do I need to by any other things?

No, the price of our chamber includes the chamber capsule, all machines, namely the air compressor, oxygen concentrator, air cooler, and accessories like frame, tubes, etc, so you don't have to buy anything else.

8. Is it complex to install the chamber or change the filter?

Of course not, we will provide you with a video to show you how to install the chamber and change the filter.

We also support online services to help you with all the issues, so don't worry.

9. What is the general time warranty expected for ZHIKANG oxygen chambers?

We will provide one-year warranty and lifelong after-sales services.

If any quality problem/fault in material/design is under correct operation within one year,

If it's easy to fix, we will send new components for free and teach you how to repair them.

(Even after the one-year warranty period, you can also contact us freely and we will be glad to help you.)
