

10Liter/Min Flow Rate White Medical Oxygen Concentrator for Medical Treatment EMY01

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: China
- Brand Name: Tylenolmed
- Certification: CE,ISO13485,SGS ,FCC,RoHs
- Model Number: ND-ZY10SL
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: OPP packing ,1pcs per Carton. Carton size:540*370*695mm,Gross Weight:21kgs.
- Delivery Time: 7-10 Working days
- Payment Terms: T/T, Western Union
- Supply Ability: 1000pcs

Product Specification

- Cabin Weight: 1000KGS
- Voltage: 110V/50Hz; 220V/50Hz
- Input Power: 700VA
- Chamber Oxygen Concentration: 28% 32%
- Chamber Colour: White /Black
- Power Consumption: 1500w
- Rating: 1500W
- Usage: Medical/Therapeutic
- Highlight: **10L/min medical oxygen concentrator, white medical oxygen concentrator, oxygen concentrator for medical treatment**

Product Description

Product Description:

The Medical Oxygen Concentrator is a cutting-edge device designed to provide efficient oxygen therapy for medical use. This innovative product comes in two elegant color options: White and Black, allowing users to choose the one that best fits their preferences and surroundings.

With a powerful rating of 1500W, this Oxygen Concentrator is equipped to deliver high-quality oxygen for various medical applications. Its advanced technology ensures a reliable and continuous supply of oxygen, making it an essential tool for clinics, hospitals, and other healthcare facilities.

The primary function of this Oxygen Concentrator is to facilitate Hyperbaric Oxygen Therapy, a treatment that involves breathing pure oxygen in a pressurized room or chamber. This therapy is known for its therapeutic benefits and is widely used in medical settings to accelerate healing and improve overall well-being.

Modelled as EMY01, this Oxygen Concentrator is designed with precision and attention to detail to meet the specific requirements of medical professionals and patients alike. Its user-friendly interface makes it easy to operate, ensuring a seamless experience for healthcare providers and patients during oxygen therapy sessions.

One of the standout features of this Oxygen Concentrator is its remarkably low noise level, producing sound at less than 63 decibels. This quiet operation is essential for maintaining a peaceful and comfortable environment during oxygen therapy sessions, enhancing the overall experience for both healthcare providers and patients.

Designed to function as a Clinic Oxygen Producer, this device plays a crucial role in ensuring a steady supply of oxygen for medical treatments and procedures. Its efficient oxygen production capabilities make it a reliable and indispensable tool in clinical settings, where the need for high-quality oxygen is paramount.

In conclusion, the Medical Oxygen Concentrator is a top-of-the-line product that combines cutting-edge technology with user-friendly design to deliver exceptional oxygen therapy solutions. Whether used for Hyperbaric Oxygen Therapy or other medical applications, this device excels in providing reliable and efficient oxygen supply. With its sleek design, powerful performance, and quiet operation, the Oxygen Concentrator is a must-have for healthcare facilities looking to enhance their oxygen therapy services.

Features:

Product Name: O2EMENG Medical Therapy Machine 1.3ATA Hyperbaric Oxygen Chamber For Healing

Flow Rate: 10Liter/Min

Chamber Colour: White /Black

Usage: Medical/Therapeutic

Input power: 700VA

Technical Parameters:

Cabin Weight	1000KGS
Usage	Medical/Therapeutic
Product Name	O2EMENG Medical Therapy Machine 1.3ATA Hyperbaric Oxygen Chamber For Healing
Chamber Colour	White / Black
Flow Rate	10Liter/Min
Product Category	Medical Oxygen Concentrator
Function	Hyperbaric Oxygen Therapy
Input power	700VA
Chamber Oxygen Concentration	28% 32%
Noise Level	Less Than 63 DB

Applications:

Tylenolmed's ND-ZY10SL Medical Oxygen Concentrator is a reliable and efficient product designed for various medical applications. With certifications such as CE, ISO13485, SGS, FCC, and RoHs, this oxygen concentrator is manufactured in China, ensuring high quality standards.

The product is versatile and can be used in a variety of settings due to its portability and ease of use. It is ideal for home care, medical facilities, emergency response teams, and more. The Therapeutic Oxygen Generator is suitable for patients requiring supplemental oxygen therapy, making it a crucial device in managing respiratory conditions.

With a flow rate of 10 liters per minute, the Tylenolmed ND-ZY10SL Oxygen Concentration Machine delivers a steady and reliable oxygen supply to patients. The white or black chamber color options allow for customization based on preference or environment.

Customers can place orders for this product with a negotiable minimum order quantity and price. Payment terms accepted include T/T and Western Union, providing flexibility for buyers. The supply ability of 1000pcs ensures that there is an ample stock available for purchase.

For added convenience, the delivery time for the product is 7-10 working days. The packaging details include OPP packing with 1 piece

per carton. The carton size is 540*370*695mm with a gross weight of 21kgs, ensuring safe transportation of the Therapeutic Oxygen Generator.

Overall, the Tylenolmed ND-ZY10SL Medical Oxygen Concentrator is a reliable and effective solution for oxygen therapy needs. Its high-quality build, certifications, and performance make it a valuable asset in medical settings requiring supplemental oxygen delivery.

Support and Services:

Our Product Technical Support team for the Medical Oxygen Concentrator is dedicated to assisting customers with any inquiries related to product operation, troubleshooting, and maintenance. We provide comprehensive services to ensure that your oxygen concentrator operates efficiently and effectively.

Packing and Shipping:

Product Packaging:
The Medical Oxygen Concentrator is carefully packaged in a sturdy cardboard box with protective foam inserts to ensure safe transportation. Inside the box, you will find the concentrator unit, power cord, user manual, and any additional accessories included with your purchase.

Shipping:
Orders for the Medical Oxygen Concentrator are processed promptly upon receipt. The item will be securely packed and shipped using a reliable courier service to ensure timely delivery to your specified address. You will receive a tracking number once the order has been dispatched so you can monitor the shipment's progress.

FAQ:

- Q1: What is the brand name of this Medical Oxygen Concentrator?**
A1: The brand name is Tylenolmed.
- Q2: What is the model number of this Medical Oxygen Concentrator?**
A2: The model number is ND-ZY10SL.
- Q3: What certifications does this Medical Oxygen Concentrator have?**
A3: It is certified with CE, ISO13485, SGS, FCC, and RoHs.
- Q4: Where is this Medical Oxygen Concentrator manufactured?**
A4: It is manufactured in China.
- Q5: What are the payment terms accepted for purchasing this Medical Oxygen Concentrator?**
A5: The accepted payment terms are T/T and Western Union.

O2EMENG

HYPERBARIC OXYGEN CHAMBER

- IMPROVE BRAIN BLOOD CIRCULATION
- SPEED UP METABOLISM
- HIGH PRESSURE OXYGEN INHALATION

CHAMBER CAPSULE DESCRIPTION

1. Automatic digital display real-time temperature, humidity, oxygen purity and pressure.
2. Rotary timer system, use of time can be pressed in advance Multiple noise reduction technology.
3. Excellent Silence performance, the noise is $\leq 63\text{dB}$. Offer you a peaceful experience environment.
4. Double pressure relief device Spiral step less super smooth rotary valve. Spiral ergonomic hand-held design. Pressure relief is smoother and more convenient. Internal and external two-way integrated polycarbonate valve. One valve, two-way operation.
5. Automatic pressurize relief valves
Two automatic high precision constant pressure valve. Ensure the product is safe and effective by Aluminum alloy steel, high hardness, wear resistance.
6. Communicating system.
Intercom telephone is convenient for users to talk with operator outside.
7. Machine start-up protection system.
The chamber only can be turned on when the chamber door is completely closed, avoiding the danger of the door being left unlocked.
8. Automatic pressurize and depressurize system.
Based on the principle of "Cylinder (engine)" , Pressurize automatically after the door is completely closed.
9. Made by Aluminum alloy steel; With environmental spray paint;
Strong weight bearing capacity, Durable and wear-resistant; non-deformable; long lifespan.
10. In case of unexpected power failure, the door can be opened by emergency safety from inside the chamber.

WHY ARE MORE AND MORE PEOPLE CHOOSING HYPERBARIC OXYGEN CHAMBERS?

In some parts of the body, the capillaries are so narrow that blood cells cannot pass through them, bound oxygen cannot reach them, and they can only rely on dissolved oxygen. The oxygen generator has little change in the dissolved oxygen in the blood, which is also the reason why the ordinary oxygen absorption effect in the plateau area is general.

CONCLUSION

It is more feasible to increase the dissolved oxygen in the blood.
The hyperbaric oxygen chamber can maintain the oxygen partial pressure within a safe and effective range by flexibly adjusting the oxygen concentration or pressure, and gently and effectively improve the oxygen delivery to tissues and organs by increasing dissolved oxygen.

HARD TYPE HYPERBARIC OXYGEN CHAMBER

Innovative technology, quality assurance

The diagram illustrates a hyperbaric oxygen chamber, a large, dark, cylindrical unit with a circular opening. To its right is a control panel with a digital display and buttons. The brand name "O2EMENG" is visible on the front of the chamber. Three callout points are connected to the chamber by a curved line:

-  The cabin door is made of aviation PC material
-  Multiple safety technologies
One-button pressure relief protection system during power outage
-  AI intelligent voice control system

FAQ

1. How does hyperbarics work?

Hyperbarics is a technology in which the air pressure in the environment is increased. When a person's body is placed in a more pressure environment, it absorbs more oxygen molecules per volume of compressed air.

The body normally transports oxygen via the hemoglobin of the red blood cells. By increasing the air pressure, oxygen is then driven into the body's fluids, allowing a super-saturation of tissues and organs with oxygen. The increased pressure infuses the body with oxygen, even reaching injuries with damaged circulation.

2. What are the health benefits of hyperbaric oxygen chambers?

Studies have shown that hyperbaric oxygen chambers can treat hypoxic diseases, relieve fatigue, delay aging, prevent cardiovascular disease, improve sleep quality, accelerated wound repair and enhance immunity. We have customers serviced shows hyperbaric oxygen therapy makes very positive results.

3. How long is the treatment?

Usually, we recommend our clients receive the HBOT therapy 5-6 sessions per week, 60-90mins per session. Using frequency or duration can be adjusted according to individual circumstances.

4. Is HBOT safe?

Hyperbaric oxygen therapy is prescribed by a physician and performed under medical supervision. Although there are minor risks like all medical treatments, overall hyperbaric oxygen therapy is extremely safe.

5. Is there anyone who can not use our chamber?

Pregnant ladies, patients who catch a cold or Flu, or those who have rhinitis or otitis media are not recommended to use the chamber.

6. How do you feel inside a hyperbaric oxygen chamber?

When lying in the oxygen chamber, you will feel comfortable and at ease. Also, You may feel a little squeezing of the ears because of the pressure. It is quite normal and can be relieved by chewing or swallowing.

7. After bought the chamber, do I need to by any other things?

No, the price of our chamber includes the chamber capsule, all machines, namely the air compressor, oxygen concentrator, air cooler, and accessories like frame, tubes, etc, so you don't have to buy anything else.

8. Is it complex to install the chamber or change the filter?

Of course not, we will provide you with a video to show you how to install the chamber and change the filter.

We also support online services to help you with all the issues, so don't worry.

9. What is the general time warranty expected for ZHIKANG oxygen chambers?

We will provide one-year warranty and lifelong after-sales services.

If any quality problem/fault in material/design is under correct operation within one year,

If it's easy to fix, we will send new components for free and teach you how to repair them.

(Even after the one-year warranty period, you can also contact us freely and we will be glad to help you.)
