

White Chamber Medical Oxygen Concentrator for Hyperbaric Oxygen Therapy Treatment

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: China
- Brand Name: Tylenolmed
- Certification: CE, ISO13485, SGS, FCC, RoHs
- Model Number: ND-ZY10SL
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: OPP packing ,1pcs per Carton. Carton size:540*370*695mm,Gross Weight:21kgs.
- Delivery Time: 7-10 Working days
- Payment Terms: T/T, Western Union
- Supply Ability: 1000pcs

Product Specification

- Product Category: Medical Oxygen Concentrator
- Cabin Weight: 1000KGS
- Power Consumption: 1500w
- Voltage: 110V/50Hz; 220V/50Hz
- Product Name: Powerful Medical Oxygen Generator With 10Liter/Min Flow Rate And 1000KGS Cabin Weight
- Noise Level: Less Than 63 DB
- Highlight: **white chamber medical oxygen concentrator, hyperbaric oxygen therapy concentrator, medical oxygen concentrator with warranty**

Product Description

Product Description:

The Medical Oxygen Concentrator is a powerful and essential equipment designed for medical and therapeutic use. This Continuous Flow Oxygen Generator, with the model number ND-ZY10SL, is a reliable device that produces high-quality oxygen for patients in need. With a chamber oxygen concentration range of 28% to 32%, this Portable Oxygen Maker ensures a consistent and optimal level of oxygen delivery to the user. The chamber is available in two attractive colors: White and Black, providing options to suit different preferences and settings.

The product, named Powerful Medical Oxygen Generator with 10Liter/Min Flow Rate and 1000KGS Cabin Weight, is a top-of-the-line Oxygen Producing Equipment that guarantees efficiency and safety in oxygen therapy.

Whether used in medical facilities or at home, this Medical Oxygen Concentrator offers a reliable source of oxygen for patients with respiratory conditions or in need of supplemental oxygen therapy. The 10-liter per minute flow rate ensures an ample supply of oxygen to meet the user's needs.

Equipped with advanced technology and built with quality materials, this oxygen concentrator is designed to be durable and long-lasting. The compact and portable design allows for easy transportation and convenient use in various settings.

Patients can rely on this Medical Oxygen Concentrator for continuous and uninterrupted oxygen supply, providing peace of mind and comfort during therapy sessions. The device is user-friendly, making it suitable for individuals of all ages who require oxygen therapy.

Healthcare professionals can trust this Oxygen Producing Equipment to deliver precise oxygen concentrations and reliable performance, ensuring optimal treatment outcomes for patients. The chamber color options of White and Black add a touch of style and versatility to the device.

Overall, the Powerful Medical Oxygen Generator with 10Liter/Min Flow Rate and 1000KGS Cabin Weight is a must-have equipment for medical facilities, clinics, and individuals seeking a dependable source of oxygen for therapeutic purposes. Its efficient operation, portability, and high-quality construction make it a standout choice in the market.

Features:

Product Name: Powerful Medical Oxygen Generator with 10Liter/Min Flow Rate and 1000KGS Cabin Weight

Color: White, Black

Chamber Oxygen Concentration: 28% 32%

Voltage: 110V/50Hz; 220V/50Hz

Brand Name: Tylenolmed

Technical Parameters:

Product Name	Powerful Medical Oxygen Generator with 10Liter/Min Flow Rate and 1000KGS Cabin Weight
Model Number	ND-ZY10SL
Certification	CE, ISO13485, SGS, FCC, RoHs
Rating	1500W
Noise Level	Less Than 63 DB
Voltage	110V/50Hz; 220V/50Hz
Brand Name	Tylenolmed
Color	White, Black
Chamber Oxygen Concentration	28% 32%
Chamber Colour	White / Black

Applications:

Product Name: Powerful Medical Oxygen Generator with 10Liter/Min Flow Rate and 1000KGS Cabin Weight

Brand Name: Tylenolmed

Model Number: ND-ZY10SL

Certification: CE, ISO13485, SGS, FCC, RoHs

Place of Origin: China

Minimum Order Quantity: Negotiable

Price: Negotiable

Payment Terms: T/T, Western Union

Supply Ability: 1000pcs

Delivery Time: 7-10 Working days

Packaging Details: OPP packing, 1pcs per Carton. Carton size: 540*370*695mm, Gross Weight: 21kgs

Input Power: 700VA

Color: White, Black

Usage: Medical/Therapeutic

Product Application Occasions and Scenarios:

The Portable Oxygen Maker by Tylenolmed, model ND-ZY10SL, is a high-quality Oxygen Concentrating Device suitable for various medical and therapeutic scenarios. Its certification including CE, ISO13485, SGS, FCC, and RoHs ensures its compliance with international standards.

With a powerful 10Liter/Min Flow Rate, this Continuous Flow Oxygen Generator is perfect for hospitals, clinics, home care, and emergency medical services. The product's origin in China signifies a blend of quality and affordability.

Customers can benefit from the negotiable Minimum Order Quantity and Price, making it accessible for both individual and bulk purchases. The flexible Payment Terms of T/T and Western Union add convenience to the buying process.

With a Supply Ability of 1000pcs and a swift Delivery Time of 7-10 working days, customers can rely on Tylenolmed for timely order fulfillment. The Packaging Details ensure safe transit, with each unit securely packed in OPP material.

The Oxygen Generator, weighing 1000KGS, operates at an Input Power of 700VA. Available in White and Black colors, it caters to different preferences in the medical field.

Support and Services:

Product Technical Support and Services for the Medical Oxygen Concentrator: -----

Our technical support team is available to assist with any issues related to your Medical Oxygen Concentrator. Whether you have questions about operation, maintenance, troubleshooting, or repairs, our experts are here to help.

We also offer servicing and maintenance plans to ensure that your Medical Oxygen Concentrator is running efficiently and effectively at all times. Our service technicians are trained to provide high-quality service and support to keep your equipment in optimal condition.

Packing and Shipping:

Product Packaging: -----

The Medical Oxygen Concentrator is carefully packaged to ensure safe delivery. It is wrapped in protective materials to prevent any damage during transit. The packaging box is sturdy and clearly labeled with product information and handling instructions.

Shipping:

We offer fast and reliable shipping for the Medical Oxygen Concentrator. Your order will be processed promptly and shipped securely to your designated address. You will receive a tracking number to monitor the status of your shipment.

FAQ:

Q: What is the brand name of this Medical Oxygen Concentrator? -----

A: The brand name is Tylenolmed.

Q: What is the model number of this Medical Oxygen Concentrator?

A: The model number is ND-ZY10SL.

Q: What certifications does this Medical Oxygen Concentrator have?

A: It is certified with CE, ISO13485, SGS, FCC, and RoHs.

Q: Where is this Medical Oxygen Concentrator manufactured?

A: It is made in China.

Q: What are the payment terms for purchasing this Medical Oxygen Concentrator?

A: The payment terms accepted are T/T and Western Union.

O2EMENG

HYPERBARIC OXYGEN CHAMBER

- IMPROVE BRAIN BLOOD CIRCULATION
- SPEED UP METABOLISM
- HIGH PRESSURE OXYGEN INHALATION

CHAMBER CAPSULE DESCRIPTION

1. Automatic digital display real-time temperature, humidity, oxygen purity and pressure.
2. Rotary timer system, use of time can be pressed in advance Multiple noise reduction technology.
3. Excellent Silence performance, the noise is $\leq 63\text{dB}$. Offer you a peaceful experience environment.
4. Double pressure relief device Spiral step less super smooth rotary valve. Spiral ergonomic hand-held design. Pressure relief is smoother and more convenient. Internal and external two-way integrated polycarbonate valve. One valve, two-way operation.
5. Automatic pressurize relief valves
Two automatic high precision constant pressure valve. Ensure the product is safe and effective by Aluminum alloy steel, high hardness, wear resistance.
6. Communicating system.
Intercom telephone is convenient for users to talk with operator outside.
7. Machine start-up protection system.
The chamber only can be turned on when the chamber door is completely closed, avoiding the danger of the door being left unlocked.
8. Automatic pressurize and depressurize system.
Based on the principle of "Cylinder (engine)" , Pressurize automatically after the door is completely closed.
9. Made by Aluminum alloy steel; With environmental spray paint;
Strong weight bearing capacity, Durable and wear-resistant; non-deformable; long lifespan.
10. In case of unexpected power failure, the door can be opened by emergency safety from inside the chamber.

WHY ARE MORE AND MORE PEOPLE CHOOSING HYPERBARIC OXYGEN CHAMBERS?

In some parts of the body, the capillaries are so narrow that blood cells cannot pass through them, bound oxygen cannot reach them, and they can only rely on dissolved oxygen. The oxygen generator has little change in the dissolved oxygen in the blood, which is also the reason why the ordinary oxygen absorption effect in the plateau area is general.

CONCLUSION

It is more feasible to increase the dissolved oxygen in the blood. The hyperbaric oxygen chamber can maintain the oxygen partial pressure within a safe and effective range by flexibly adjusting the oxygen concentration or pressure, and gently and effectively improve the oxygen delivery to tissues and organs by increasing dissolved oxygen.

HARD TYPE HYPERBARIC OXYGEN CHAMBER

Innovative technology, quality assurance

The cabin door is made of aviation PC material

Multiple safety technologies
One-button pressure relief protection system during power outage

AI intelligent voice control system

FAQ

1. How does hyperbarics work?

Hyperbarics is a technology in which the air pressure in the environment is increased. When a person's body is placed in a more pressure environment, it absorbs more oxygen molecules per volume of compressed air.

The body normally transports oxygen via the hemoglobin of the red blood cells. By increasing the air pressure, oxygen is then driven into the body's fluids, allowing a super-saturation of tissues and organs with oxygen. The increased pressure infuses the body with oxygen, even reaching injuries with damaged circulation.

2. What are the health benefits of hyperbaric oxygen chambers?

Studies have shown that hyperbaric oxygen chambers can treat hypoxic diseases, relieve fatigue, delay aging, prevent cardiovascular disease, improve sleep quality, accelerated wound repair and enhance immunity. We have customers serviced shows hyperbaric oxygen therapy makes very positive results.

3. How long is the treatment?

Usually, we recommend our clients receive the HBOT therapy 5-6 sessions per week, 60-90mins per session. Using frequency or duration can be adjusted according to individual circumstances.

4. Is HBOT safe?

Hyperbaric oxygen therapy is prescribed by a physician and performed under medical supervision. Although there are minor risks like all medical treatments, overall hyperbaric oxygen therapy is extremely safe.

5. Is there anyone who can not use our chamber?

Pregnant ladies, patients who catch a cold or Flu, or those who have rhinitis or otitis media are not recommended to use the chamber.

6. How do you feel inside a hyperbaric oxygen chamber?

When lying in the oxygen chamber, you will feel comfortable and at ease. Also, You may feel a little squeezing of the ears because of the pressure. It is quite normal and can be relieved by chewing or swallowing.

7. After bought the chamber, do I need to by any other things?

No, the price of our chamber includes the chamber capsule, all machines, namely the air compressor, oxygen concentrator, air cooler, and accessories like frame, tubes, etc, so you don't have to buy anything else.

8. Is it complex to install the chamber or change the filter?

Of course not, we will provide you with a video to show you how to install the chamber and change the filter.

We also support online services to help you with all the issues, so don't worry.

9. What is the general time warranty expected for ZHIKANG oxygen chambers?

We will provide one-year warranty and lifelong after-sales services.

If any quality problem/fault in material/design is under correct operation within one year,

If it's easy to fix, we will send new components for free and teach you how to repair them.

(Even after the one-year warranty period, you can also contact us freely and we will be glad to help you.)
