

## White Medical Oxygen Concentrator for Therapeutic and Medical Applications

Our Product Introduction

For products please visit us on [oxygenconcentratormedical.com](http://oxygenconcentratormedical.com)

### Basic Information

- Place of Origin: China
- Brand Name: Tylenolmed
- Certification: CE,ISO13485,SGS ,FCC,RoHs
- Model Number: ND-ZY10SL
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: OPP packing ,1pcs per Carton. Carton size:540\*370\*695mm,Gross Weight:21kgs.
- Delivery Time: 7-10 Working days
- Payment Terms: T/T, Western Union
- Supply Ability: 1000pcs

### Product Specification

- Product Category: Medical Oxygen Concentrator
- Usage: Medical/Therapeutic
- Product Name: Powerful Medical Oxygen Generator With 10Liter/Min Flow Rate And 1000KGS Cabin Weight
- Rating: 1500W
- Color: White, Black
- Cabin Weight: 1000KGS
- Highlight: **white medical oxygen concentrator, therapeutic oxygen concentrator machine, medical oxygen concentrator with warranty**

## Product Description

### Product Description:

The Medical Oxygen Concentrator by Tylenolmed is a top-of-the-line Oxygen Concentrator for Medical Use, designed to provide reliable and efficient oxygen therapy for patients in need. With its powerful 1500W rating, this Oxygen Generator Machine is capable of delivering high-quality oxygen for Hyperbaric Oxygen Therapy.

Equipped with dual voltage options of 110V/50Hz and 220V/50Hz, the Tylenolmed Oxygen Concentrator offers flexibility and convenience for use in different regions with varying power requirements. Whether you are in a location with 110V or 220V power supply, this Oxygen Generator Machine can easily adapt to meet your needs.

The sleek design of this Oxygen Concentrator in classic White or modern Black color options not only adds a touch of style to any medical setting but also ensures durability and longevity. The Tylenolmed brand name is synonymous with quality and reliability, making this Oxygen Generator Machine a trusted choice for medical professionals and patients alike.

When it comes to providing essential oxygen therapy, the Medical Oxygen Concentrator by Tylenolmed is a dependable solution that delivers consistent performance and peace of mind. Whether used in clinics, hospitals, or even at home, this Oxygen Concentrator is designed to meet the needs of patients requiring Hyperbaric Oxygen Therapy.

Invest in the Tylenolmed Oxygen Concentrator today and experience the difference in quality, efficiency, and reliability that this top-of-the-line Oxygen Generator Machine has to offer. Trust in the Tylenolmed brand to provide superior oxygen therapy solutions for improved patient care and well-being.

### Features:

Product Name: Medical Oxygen Concentrator

Function: Hyperbaric Oxygen Therapy

Product Category: Medical Oxygen Concentrator

Chamber Colour: White / Black

Cabin Weight: 1000KGS

Noise Level: Less Than 63 DB

### Technical Parameters:

|                              |                     |
|------------------------------|---------------------|
| Chamber Colour               | White / Black       |
| Flow Rate                    | 10 Liter/Min        |
| Noise Level                  | Less Than 63 DB     |
| Chamber Oxygen Concentration | 28% 32%             |
| Input Power                  | 700VA               |
| Supply Ability               | 1000pcs             |
| Usage                        | Medical/Therapeutic |
| Brand Name                   | Tylenolmed          |
| Cabin Weight                 | 1000KGS             |
| Model Number                 | ND-ZY10SL           |

### Applications:

Tylenolmed Medical Oxygen Concentrator, model ND-ZY10SL, is a reliable and efficient product designed for various medical applications. This Portable Oxygen Maker is ideal for use in hospitals, clinics, nursing homes, and even for home care settings. With certifications such as CE, ISO13485, SGS, FCC, and RoHs, you can trust the quality and safety standards of this Oxygen Producing Equipment. Originating from China, this oxygen concentrator offers a Chamber Oxygen Concentration of 28% to 32%, making it suitable for medical use.

Whether you need a single unit or a bulk order, the Minimum Order Quantity and Price are negotiable, providing flexibility for different requirements. Payment can be made through T/T or Western Union, and with a Supply Ability of 1000pcs, restocking is convenient.

The delivery time for the Tylenolmed Oxygen Concentrator is quick, with orders typically shipped within 7-10 working days. The Packaging Details ensure safe transit, with OPP packing and each unit enclosed in a carton measuring 540\*370\*695mm and weighing 21kgs gross.

Rated at 1500W, this Oxygen Concentrator comes in classic White or sleek Black colors, offering options to suit different preferences. The unit's Function of Hyperbaric Oxygen Therapy makes it versatile for a range of medical treatments.

For medical professionals seeking a reliable, efficient, and easy-to-use Oxygen Concentrator for Medical Use, the Tylenolmed ND-ZY10SL is an excellent choice. Its durability, high oxygen concentration output, and portability make it a valuable asset in various medical settings.

### Support and Services:

Product Technical Support and Services for the Medical Oxygen Concentrator:

- Troubleshooting assistance for device functionality issues.
- Guidance on proper usage and maintenance of the concentrator.
- Information on accessory compatibility and replacement parts.
- User manual and documentation support.
- Training sessions for healthcare professionals and end-users.
- Warranty information and service coverage policies.

## Packing and Shipping:

Product Packaging and Shipping:

The Medical Oxygen Concentrator is carefully packaged to ensure safe delivery to your doorstep. Each unit is securely wrapped and placed in a sturdy cardboard box with sufficient padding to prevent damage during transit.

Shipping Details:

- Shipping Method: Standard ground shipping
- Estimated Delivery Time: 3-5 business days
- Shipping Cost: Free shipping within the United States

## FAQ:

**Q: What is the brand name of this Medical Oxygen Concentrator?** .....

**A: The brand name is Tylenolmed.**

**Q: What is the model number of this Medical Oxygen Concentrator?**

**A: The model number is ND-ZY10SL.**

**Q: What certifications does this Medical Oxygen Concentrator have?**

**A: It is certified with CE, ISO13485, SGS, FCC, and RoHs.**

**Q: Where is this Medical Oxygen Concentrator manufactured?**

**A: This product originates from China.**

**Q: What are the payment terms accepted for purchasing this Medical Oxygen Concentrator?**

**A: Payment terms accepted are T/T and Western Union.**

## CHAMBER CAPSULE DESCRIPTION

1. Automatic digital display real-time temperature, humidity, oxygen purity and pressure.
2. Rotary timer system, use of time can be pressed in advance Multiple noise reduction technology.
3. Excellent Silence performance, the noise is  $\leq 63\text{dB}$ . Offer you a peaceful experience environment.
4. Double pressure relief device Spiral step less super smooth rotary valve. Spiral ergonomic hand-held design. Pressure relief is smoother and more convenient. Internal and external two-way integrated polycarbonate valve. One valve, two-way operation.
5. Automatic pressurize relief valves  
Two automatic high precision constant pressure valve. Ensure the product is safe and effective by Aluminum alloy steel, high hardness, wear resistance.
6. Communicating system.  
Intercom telephone is convenient for users to talk with operator outside.
7. Machine start-up protection system.  
The chamber only can be turned on when the chamber door is completely closed, avoiding the danger of the door being left unlocked.
8. Automatic pressurize and depressurize system.  
Based on the principle of "Cylinder (engine)" , Pressurize automatically after the door is completely closed.
9. Made by Aluminum alloy steel; With environmental spray paint;  
Strong weight bearing capacity, Durable and wear-resistant; non-deformable; long lifespan.
10. In case of unexpected power failure, the door can be opened by emergency safety from inside the chamber.

## WHY ARE MORE AND MORE PEOPLE CHOOSING HYPERBARIC OXYGEN CHAMBERS?

In some parts of the body, the capillaries are so narrow that blood cells cannot pass through them, bound oxygen cannot reach them, and they can only rely on dissolved oxygen. The oxygen generator has little change in the dissolved oxygen in the blood, which is also the reason why the ordinary oxygen absorption effect in the plateau area is general.

## CONCLUSION

It is more feasible to increase the dissolved oxygen in the blood.  
The hyperbaric oxygen chamber can maintain the oxygen partial pressure within a safe and effective range by flexibly adjusting the oxygen concentration or pressure, and gently and effectively improve the oxygen delivery to tissues and organs by increasing dissolved oxygen.

# HARD TYPE HYPERBARIC OXYGEN CHAMBER

Innovative technology, quality assurance

The cabin door is made of aviation PC material

Multiple safety technologies  
One-button pressure relief protection system during power outage

AI intelligent voice control system

## FAQ

### 1. How does hyperbarics work?

Hyperbarics is a technology in which the air pressure in the environment is increased. When a person's body is placed in a more pressure environment, it absorbs more oxygen molecules per volume of compressed air.

The body normally transports oxygen via the hemoglobin of the red blood cells. By increasing the air pressure, oxygen is then driven into the body's fluids, allowing a super-saturation of tissues and organs with oxygen. The increased pressure infuses the body with oxygen, even reaching injuries with damaged circulation.

### 2. What are the health benefits of hyperbaric oxygen chambers?

Studies have shown that hyperbaric oxygen chambers can treat hypoxic diseases, relieve fatigue, delay aging, prevent cardiovascular disease, improve sleep quality, accelerated wound repair and enhance immunity. We have customers serviced shows hyperbaric oxygen therapy makes very positive results.

### 3. How long is the treatment?

Usually, we recommend our clients receive the HBOT therapy 5-6 sessions per week, 60-90mins per session. Using frequency or duration can be adjusted according to individual circumstances.

### 4. Is HBOT safe?

Hyperbaric oxygen therapy is prescribed by a physician and performed under medical supervision. Although there are minor risks like all medical treatments, overall hyperbaric oxygen therapy is extremely safe.

### 5. Is there anyone who can not use our chamber?

Pregnant ladies, patients who catch a cold or Flu, or those who have rhinitis or otitis media are not recommended to use the chamber.

### 6. How do you feel inside a hyperbaric oxygen chamber?

When lying in the oxygen chamber, you will feel comfortable and at ease. Also, You may feel a little squeezing of the ears because of the pressure. It is quite normal and can be relieved by chewing or swallowing.

### 7. After bought the chamber, do I need to by any other things?

No, the price of our chamber includes the chamber capsule, all machines, namely the air compressor, oxygen concentrator, air cooler, and accessories like frame, tubes, etc, so you don't have to buy anything else.

### 8. Is it complex to install the chamber or change the filter?

Of course not, we will provide you with a video to show you how to install the chamber and change the filter.

We also support online services to help you with all the issues, so don't worry.

### 9. What is the general time warranty expected for ZHIKANG oxygen chambers?

We will provide one-year warranty and lifelong after-sales services.

If any quality problem/fault in material/design is under correct operation within one year,

If it's easy to fix, we will send new components for free and teach you how to repair them.

(Even after the one-year warranty period, you can also contact us freely and we will be glad to help you.)
