

High Concentration Portable Oxygen Maker in White / Black with 28% 32% Oxygen

Our Product Introduction

For products please visit us on oxygenconcentratormedical.com

Basic Information

- Place of Origin: China
- Brand Name: Tylenolmed
- Certification: CE, ISO13485, SGS, FCC, RoHs
- Model Number: ND-ZY10SL
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: OPP packing ,1pcs per Carton. Carton size:540*370*695mm,Gross Weight:21kgs.
- Delivery Time: 7-10 Working days
- Payment Terms: T/T, Western Union
- Supply Ability: 1000pcs

Product Specification

- Product Name: Powerful Medical Oxygen Generator With 10Liter/Min Flow Rate And 1000KGS Cabin Weight
- Noise Level: Less Than 63 DB
- Usage: Medical/Therapeutic
- Cabin Weight: 1000KGS
- Input Power: 700VA
- Highlight: **portable oxygen concentrator 28% oxygen, medical oxygen maker white black, high concentration oxygen concentrator with warranty**

Product Description

Product Description:

A Continuous Flow Oxygen Generator is an essential medical device that provides a reliable source of oxygen for individuals with respiratory conditions. One such reliable option is the Powerful Medical Oxygen Generator, designed for medical/therapeutic use. The Powerful Medical Oxygen Generator features a robust design with a cabin weight of 1000KGS, ensuring stability and durability during operation. This device operates on either 110V/50Hz or 220V/50Hz, offering flexibility in different power supply environments. One of the key attributes of the Powerful Medical Oxygen Generator is its chamber oxygen concentration, ranging from 28% to 32%. This optimal range ensures that patients receive the necessary oxygen levels for effective therapy and treatment. With a flow rate of 10 liters per minute, this Oxygen Concentrator for Medical Use delivers a steady supply of oxygen to meet the demands of patients requiring high-flow oxygen therapy. Whether used in hospitals, clinics, or home care settings, this device proves to be a reliable and efficient solution for oxygen therapy. Designed to meet the stringent requirements of medical applications, the Powerful Medical Oxygen Generator undergoes rigorous testing to ensure safety and performance. Its user-friendly interface and intuitive controls make it easy to operate, providing healthcare professionals with a convenient tool for delivering oxygen therapy. Patients benefit from the consistent and reliable performance of the Oxygen Concentrator for Medical Use, which helps improve oxygen saturation levels and alleviate respiratory distress. With its high flow rate and precise oxygen concentration, this device plays a crucial role in enhancing the quality of life for individuals with respiratory conditions. Whether used for short-term recovery or long-term therapy, the Powerful Medical Oxygen Generator offers a versatile solution for delivering oxygen therapy in various healthcare settings. Its portability and ease of use make it a practical choice for both medical professionals and caregivers. In conclusion, the Powerful Medical Oxygen Generator with its 10-liter per minute flow rate, 1000KGS cabin weight, and chamber oxygen concentration of 28% to 32% stands out as a reliable and efficient Oxygen Concentrator for Medical Use. Its robust design, user-friendly interface, and high performance make it a valuable asset in providing essential oxygen therapy to patients in need.

Features:

Product Name: Medical Oxygen Concentrator
Usage: Medical/Therapeutic
Voltage: 110V/50Hz; 220V/50Hz
Color: White, Black
Certification: CE, ISO13485, SGS, FCC, RoHs
Function: Hyperbaric Oxygen Therapy

Technical Parameters:

Model Number	ND-ZY10SL
Product Name	Powerful Medical Oxygen Generator with 10Liter/Min Flow Rate and 1000KGS Cabin Weight
Flow Rate	10Liter/Min
Product Category	Medical Oxygen Concentrator
Cabin Weight	1000KGS
Chamber Oxygen Concentration	28% 32%
Certification	CE, ISO13485, SGS, FCC, RoHs
Rating	1500W
Voltage	110V/50Hz; 220V/50Hz
Supply Ability	1000pcs

Applications:

Tylenolmed's ND-ZY10SL Continuous Flow Oxygen Generator is a powerful medical oxygen concentrating device designed for various application occasions and scenarios. This product, certified with CE, ISO13485, SGS, FCC, and RoHs, originates from China and offers a supply ability of 1000pcs. The ND-ZY10SL Oxygen Concentrating Device is suitable for a range of medical settings, including hospitals, clinics, rehabilitation centers, and home care environments. Its high flow rate of 10 liters per minute makes it ideal for patients requiring Hyperbaric Oxygen Therapy. With a cabin weight of 1000KGS, this oxygen generator is versatile and can be easily transported within healthcare facilities or used in stationary setups. The dual voltage options of 110V/50Hz and 220V/50Hz cater to different electrical systems, ensuring compatibility in various regions. Customers have the flexibility to negotiate the minimum order quantity and price, while payment terms include T/T and Western Union. The delivery time for this Oxygen Concentrating Device is typically 7-10 working days, with packaging details specifying OPP packing and a gross weight of 21kgs per carton (540*370*695mm).

Whether it's for emergency situations, routine therapy sessions, or continuous patient care, the Tylenolmed ND-ZY10SL is a reliable and efficient solution for generating medical-grade oxygen. Its robust build and performance capabilities make it a valuable asset in the healthcare industry.

Support and Services:

Our Product Technical Support and Services for the Medical Oxygen Concentrator include:

- Troubleshooting assistance for any issues related to the oxygen concentrator's functionality.
- Guidance on proper usage and maintenance of the device to ensure optimal performance.
- Information on accessory compatibility and replacements.
- Updates on software upgrades and available features.
- User manuals and instructional materials for easy reference.

Packing and Shipping:

Product Packaging and Shipping for Medical Oxygen Concentrator:

- The Medical Oxygen Concentrator will be securely packaged in a sturdy box to ensure safe delivery.
- The product will be wrapped in protective packaging material to prevent any damage during transit.
- The package will be labeled with appropriate handling instructions and shipping information.
- The Medical Oxygen Concentrator will be shipped using a reliable courier service to ensure timely and safe delivery to your doorstep.

FAQ:

Q: What is the brand name of this Medical Oxygen Concentrator?

A: The brand name is Tylenolmed.

Q: What is the model number of this Oxygen Concentrator?

A: The model number is ND-ZY10SL.

Q: What certifications does this Oxygen Concentrator have?

A: This Oxygen Concentrator is certified with CE, ISO13485, SGS, FCC, and RoHs.

Q: Where is this Oxygen Concentrator manufactured?

A: This product originates from China.

Q: What are the payment terms accepted for purchasing this Oxygen Concentrator?

A: Payment can be made through T/T (Telegraphic Transfer) and Western Union.

O2EMENG

HYPERBARIC OXYGEN CHAMBER

- IMPROVE BRAIN BLOOD CIRCULATION
- SPEED UP METABOLISM
- HIGH PRESSURE OXYGEN INHALATION

CHAMBER CAPSULE DESCRIPTION

1. Automatic digital display real-time temperature, humidity, oxygen purity and pressure.
2. Rotary timer system, use of time can be pressed in advance Multiple noise reduction technology.
3. Excellent Silence performance, the noise is $\leq 63\text{dB}$. Offer you a peaceful experience environment.
4. Double pressure relief device Spiral step less super smooth rotary valve. Spiral ergonomic hand-held design. Pressure relief is smoother and more convenient. Internal and external two-way integrated polycarbonate valve. One valve, two-way operation.
5. Automatic pressurize relief valves
Two automatic high precision constant pressure valve. Ensure the product is safe and effective by Aluminum alloy steel, high hardness, wear resistance.
6. Communicating system.
Intercom telephone is convenient for users to talk with operator outside.
7. Machine start-up protection system.
The chamber only can be turned on when the chamber door is completely closed, avoiding the danger of the door being left unlocked.
8. Automatic pressurize and depressurize system.
Based on the principle of "Cylinder (engine)" , Pressurize automatically after the door is completely closed.
9. Made by Aluminum alloy steel; With environmental spray paint;
Strong weight bearing capacity, Durable and wear-resistant; non-deformable; long lifespan.
10. In case of unexpected power failure, the door can be opened by emergency safety from inside the chamber.

WHY ARE MORE AND MORE PEOPLE CHOOSING HYPERBARIC OXYGEN CHAMBERS?

In some parts of the body, the capillaries are so narrow that blood cells cannot pass through them, bound oxygen cannot reach them, and they can only rely on dissolved oxygen. The oxygen generator has little change in the dissolved oxygen in the blood, which is also the reason why the ordinary oxygen absorption effect in the plateau area is general.

CONCLUSION

It is more feasible to increase the dissolved oxygen in the blood.
The hyperbaric oxygen chamber can maintain the oxygen partial pressure within a safe and effective range by flexibly adjusting the oxygen concentration or pressure, and gently and effectively improve the oxygen delivery to tissues and organs by increasing dissolved oxygen.

HARD TYPE HYPERBARIC OXYGEN CHAMBER

Innovative technology, quality assurance

The cabin door is made of aviation PC material

Multiple safety technologies
One-button pressure relief protection system during power outage

AI intelligent voice control system

FAQ

1. How does hyperbarics work?

Hyperbarics is a technology in which the air pressure in the environment is increased. When a person's body is placed in a more pressure environment, it absorbs more oxygen molecules per volume of compressed air.

The body normally transports oxygen via the hemoglobin of the red blood cells. By increasing the air pressure, oxygen is then driven into the body's fluids, allowing a super-saturation of tissues and organs with oxygen. The increased pressure infuses the body with oxygen, even reaching injuries with damaged circulation.

2. What are the health benefits of hyperbaric oxygen chambers?

Studies have shown that hyperbaric oxygen chambers can treat hypoxic diseases, relieve fatigue, delay aging, prevent cardiovascular disease, improve sleep quality, accelerated wound repair and enhance immunity. We have customers serviced shows hyperbaric oxygen therapy makes very positive results.

3. How long is the treatment?

Usually, we recommend our clients receive the HBOT therapy 5-6 sessions per week, 60-90mins per session. Using frequency or duration can be adjusted according to individual circumstances.

4. Is HBOT safe?

Hyperbaric oxygen therapy is prescribed by a physician and performed under medical supervision. Although there are minor risks like all medical treatments, overall hyperbaric oxygen therapy is extremely safe.

5. Is there anyone who can not use our chamber?

Pregnant ladies, patients who catch a cold or Flu, or those who have rhinitis or otitis media are not recommended to use the chamber.

6. How do you feel inside a hyperbaric oxygen chamber?

When lying in the oxygen chamber, you will feel comfortable and at ease. Also, You may feel a little squeezing of the ears because of the pressure. It is quite normal and can be relieved by chewing or swallowing.

7. After bought the chamber, do I need to by any other things?

No, the price of our chamber includes the chamber capsule, all machines, namely the air compressor, oxygen concentrator, air cooler, and accessories like frame, tubes, etc, so you don't have to buy anything else.

8. Is it complex to install the chamber or change the filter?

Of course not, we will provide you with a video to show you how to install the chamber and change the filter.

We also support online services to help you with all the issues, so don't worry.

9. What is the general time warranty expected for ZHIKANG oxygen chambers?

We will provide one-year warranty and lifelong after-sales services.

If any quality problem/fault in material/design is under correct operation within one year,

If it's easy to fix, we will send new components for free and teach you how to repair them.

(Even after the one-year warranty period, you can also contact us freely and we will be glad to help you.)
